

NOTED SPEAKERS AT ESTES CONFERENCE

A. D. H. Kaplan, Arthur E. Holt, and Others Will Lead Students

Leaders for the Estes Student Conference which is to be held at Estes Park, Colo., June 8-18 of this year have been announced. Seven conference leaders will speak on the theme, "Can Life Be Planned?"

Dr. Harold Case, Pastor of the First Methodist Church, Topeka, will lead the group on philosophy of life and religious perplexities. Dr. Case was for several years a leader of the Student Christian Movement in the Central region, and at the Lake Geneva Conference. This year he gave the Religious Emphasis Week addresses at Washburn, and spoke at Nebraska and Kansas conferences.

Harry L. Kingman is Secretary of the Y. M. C. A., University of California. From college to the N. Y. "Yankees," to the Y. M. C. A., to China, back to California—these are high points in Kingman's career. He brings to Estes a knowledge of campus and student problems, and an understanding of the economic and political life of society.

Ervine Inglis, Pastor of the Park Congregational Church, Greeley, Colo., will be leader of the worship hours. Mr. Inglis led the worship at Estes two years ago and returns by popular request.

Arthur E. Holt, of the Chicago Theological Seminary, is a nationally known authority on problems of agricultural economics. He took an active part in the Chicago milk strike. He comes to Estes to help students in understanding the basic problems of rural life.

Margaret Quayle, Psychologist from Columbia University, comes to her fourth Estes conference with the reputation of being one of the most helpful leaders Estes has ever had. Her specialty is personality problems.

Ben M. Cherrington, Director of the Foundation for the Advancement of Social Sciences, Denver University, is to be at Estes this year. Dr. Cherrington has had year's of first-hand contact with leaders of the world's peace forces, has visited the League, the World Court, and a disarmament conference.

A. D. H. Kaplan, an eminent economist, is also to be at Estes this year. He was a member of the American delegation to the World Economic Conference in London, 1933. Dr. Kaplan has had close contact with many world leaders during the present economic crisis.

They'll Sing Her Praise

A student who has only been with us the past two years is Audrey Groves. Her freshman and sophomore years were spent at K. S. T. C. at Emporia. In the time she has spent at M. C. she has been physical educational instructor for girls. Last spring Audrey spent a good deal of time and preparation for a May fete which was given on the campus by the physical education classes the first part of May. She plays a cello in the orchestra and quintet. Her major is education.

An outstanding senior both in activities and in his scholastic rating is Guy Hayes. Guy is very likeable chap who always has a smile or cheery word for everyone. Guy was president of the student council this past year and president of his class in the sophomore and junior years.

In the field of sports he has also been very prominent having been a member of the football and track teams several years. Forensics and dramatics have also benefited by Guy's participation. He was on the second team debate squad two years and the varsity team two years. He is a member of the Thespians club and has taken part in several plays. His major is in commerce.

Elizabeth Holzemer is a very industrious person. She completed her college work in three years receiving her B. S. last spring. This year she has been doing post graduate work and will receive her A. B. in education this spring. She has been prominent in music circles having sung in the girls' glee club and A Cappella Choir.

Latest report—28 shopping days until... oh! oh! I got my wires crossed that time. I meant 28 more days until school is out. Just think, folks, just 28 more days until the seniors will leave the sheltering wing of Alma Mater to face the hard, cruel world; just 28 more days of Freshmanhood, till the poor little green Freshies will be promoted to the lordly position of sophomores! And come to think of it, just 3 more issues of this weekly rag, including this moth-eaten column.

The best jokes of the week are on Mike. You know, Mike used to be a dry, but he has turned wet since someone put water in his chair at supper Monday night. And that isn't all. Mike has suddenly found new interests over in Arnold Hall. As a matter of fact, he has literally been training for track between the boys' and girls' dorms. They say he is getting better every day. He even serves as bell-hop sometimes when he is visiting over there.

Listen fellows: you better make hay while the sun shines. If there's some Jane you have been intending to date all year and just haven't got around to her yet, you better begin pretty soon, because as I said before, there's just four weeks left. A word to the wise is sufficient.

If you recall folks, we predicted some rather unusual dates at the football banquet, and as it happened, we predicted correctly. Well, there's still one more big banquet slated yet this year, and we're watching with interest to see just who's who at this function.

According to report, our geologists didn't stick entirely to study of minerals and rocks on their trip the other day. We heard that they chased around after some lizards and then put them in a bottle to see them.

Some of the fellows at the track scrap. Well, boys will be boys! meet at Friends were being conducted thru the really excellent museum there. As Dame Rumor was informed, Sink committed the indiscretion of getting sarcastic, and one of the curators got rather excited. In order to remind Sink to respect his elders, he grabbed him by the hair and shook him violently. Tsk, tsks. You should know better, Sink.

Dearest Marg: It's been ages since I've written to you, but settle yourself in a nice comfy chair 'cause I have some rare news to relate—no foolin'. I just got back from a tour to M. C. Honestly, you'd never recognize the dear ol' Alma Mater, but let's not go into that 'cause I'm sending the movies that I took around the campus. But now for the bit of spley gossip that I got while I was talking to "Rep." Yes, he's still there and as much fun as ever, but I'll have you know he has many a hair on his head.

First of all I must tell you about Galen Allen and John Bowers—they are now in Leavenworth on account of their robbed Moorman, Wingerd, Tice and Co., the largest men's clothing store in Chicago. Can you believe it????

However that isn't much more ear-ringing in one ear, don't get excited. He hasn't turned cannibal or anything. It's just another one of those things.

We see that the College Cleaners have actually put up a new sign to replace the large "Extra Special" sign they had up for so long. It reminds us of the Jew merchant who had a "Bankrupt Sale" sign out for a year and a half before he removed it.

shocking than this. Did you know that Una and Wiblur are living in an old box-car down by the tracks at Galva? It's pitiful to see Una looking so haggard. And here's something more appalling—Tuffy is now a blind peanut-vender and Fatthe guides him around. You remember he always was led by Fatthe.

But now for something a bit more cheerful—the Booz Brothers are making a fortune each year from their large airplane industry. You probably know that they make the fastest plane on the market. Cars never did so fast enough to satisfy them.

Oh yes, I must not forget this. Betty Lou sailed for India, where she has proved very capable in this she is to have charge of a mission, type of work and was highly recommended.

Two weeks ago that famous lecturer, Tony Meyer, was in our city and he gave one of the most inspiring talks that I've heard since those chapel days. Honestly aren't you surprised because he always was awfully quiet; however, here is something that will "rilly" shock you. Orval Eddy was awarded the national honor of being the quietest old man in the states. But there's a reason—he wrecked his vocal organs while in college.

Do you remember two years ago when Otho Clark went to Hollywood as a stagecraft expert? Well, he certainly has taken a jump, for he is now starring in a picture in which he plays opposite Gail Patterson. Luck to them!

Well, I must draw this idle chatter nigh unto a close and finish reading a most exciting novel by Barbara

SPORT LIGHTS

By Paul A. Lackie

Track is shaping up nicely, with the Bulldogs and Coach Binford pointing toward the Conference meet at Ottawa, which is no far off.

Varied sports hold students' interests in other schools. Many extensive intramural programs as well as independent sport aggregations have been gotten together!

C. of E. is completing a splendid new golf course which will be a new center of student recreation and activity.

This school had a Sophomore skating party which was a very successful social function, attended by 35 students.

Washburn College of Topeka has definitely dropped out of the Central Conference and will enter the Missouri Valley League.

The light teams make up this league: Butler University of Indianapolis; Drake University, Des Moines; Washington U., St. Louis; Creighton U., Omaha; Oklahoma A. and M., Stillwater; Grinnell College, Grinnell, Iowa; Tulsa U., and Washburn, of Topeka!

Arthur Austen, a freshman at Fort Hays College, beat Howard Lamoureux's 1933 high jump record when he leaped 5' 10¾" at the Hastings meet!

Vernal Duncan, another State College trackster, won the mile in 4:55.6, bettering the record set by Pionnsard, of Oberlin, in 1927!

First Boy (showing his friend over the house): "See that picture there? It's hand-painted."

Second Boy: "Well, what about it? So's our chicken house."

Relay—Friends, first; Bethel, second.

QUADRANGLE READY FOR DELIVERY SOON

The 1934 Quadrangle is rapidly taking form and it will not be many more weeks until the books will be ready for delivery to the students. Copy is being sent daily to the McPherson Republican where the printing is being done.

The covers for the book have been ordered. A high class cover that will do justice to the quality of the book is being obtained. Students are anxiously awaiting the arrival of the new Quadrangle which will be the first two-year book ever published at McPherson College.

No definite date has been set as to the time students can get Quadrangles because the staff does not know definitely when the printing will be completed. Several students placed last minute orders for a book before the staff's order for covers was sent in.

The "Quad" staff says that payment in full is necessary before any one can get their book and that those who have made down payments can make additional payments any time. Also, a few organizations and one or two of the classes have not paid the entire amount for their space in the book. The business manager suggests that this be taken care of immediately.

FRIENDS HERE TODAY

This afternoon on the McPherson College courts the Bulldog net stars will oppose the Friends University tennis men. So far this spring McPherson has not competed against Friends in tennis, but it is understood that they have a good bunch of tennis players. Thus far this season the Bulldogs have a good record in winning two matches and tying in the other match.
