

Netsters Win Another Dual Tennis Meet

Bulldogs Defeat Bethel By Winning Three Singles, One Doubles

The Bulldog netsters yesterday took high honors in Kansas Conference tennis. They defeated Bethel yesterday 4 matches to 2 in a meet played at Newton, to win another conference dual meet.

McPherson lost her first dual meet to Bethany. Bethany has since been defeated in two dual meets by the Bethel netmen, whom the Bulldogs defeated yesterday.

Harold Ensz, Graymaroon ace, defeated Carroll Crouse, 4-6, 6-2, 6-2. Bethel's only singles win. In the No. 2 singles spot Ernest Reed, McPherson, defeated Chet Unruh, 6-4, 10-8.

In the third singles spot Wesley De Coursey, McPherson, trounced Carl Voth, 6-4, 6-1. Burns Stauffer won the remaining singles match in an easy fashion, defeating Jerry Lett, 6-2, 6-0.

In the doubles Unruh and Ensz teamed together to beat Carroll Crouse and Calvin Jones, 6-1, 2-6, 6-4. In the No. 2 doubles match Reed and DeCoursey, McPherson, won from Earl Voth and Sam Grove, 6-4, 6-2.

Bulldogs Trounce Bethel Trackmen

The McPherson college track team defeated Bethel college at Newton yesterday by a score of 84 to 47. With close competition in only a few events, the Bulldogs easily outscored the Bethel team.

Voshell of McPherson was high point man of the meet by scoring a total of 24 points. He won first in the 100-yd. dash, 220-yd. dash, broad jump, and the shot put. He was second in the javelin and third in the discus.

The results of the meet will be published in next week's issue of the Spectator.

M. C. Track Team Goes To Sterling

This afternoon Coach W. P. "Buck" Astle will take his track team to Sterling for the annual Sterling relays. This meet will include all of the denominational college teams in the state. It will be one of the largest meets in which the Bulldogs will participate this season.

Next Tuesday the Bulldogs will travel to Hays where they will clash with the Fort Hays State Teachers college in a dual meet. Next Friday the annual Kansas Conference track meet will be held at Ottawa. Coach Astle plans to take a full field of track and field men.

The Average College Girl

(By the Associated Press)

East Orange, N. J.—Works Progress Administration experts came to Upsala College to make a survey of coeds' measurements that might help in standardizing women's ready-to-wear.

When the "average college girls'" dimensions were announced, zealous men students added the ash blond hair and blue eyes of Dorris Bodine, 19-year-old sophomore, to the WPA chart and handed Dorris the title of "Miss Average College Girl."

Photo shows Dorris. The measurements are those of WPA's average college girl.

Cats do not yield catgut. This type of cord is produced from the intestines of sheep, and occasionally mules and horses.

"Demand For Experts Is Increasing"

So W. R. Woolrich, U. of Texas Engineering Dean, Believes.

Austin, Texas—(ACP)—A marked pick-up in employment of technically-trained men is seen by W. R. Woolrich, University of Texas engineering dean.

Opening of new jobs, an industrial trend to expand research activity, and a growing "personnel consciousness" on the part of employers are three factors responsible for the increasing demand for experts, Dean Woolrich believes.

He bases his assertion on an increasing stream of requests by firms, both in and out of Texas, for trained college men.

"Both the University faculty and business men of this state are becoming more 'personnel minded,'" he observed.

Employment Prospects Bright For Graduates

N. Y. U. Bureau of Employment Director Optimistic This Year

New York City—(ACP)—Employment prospects in the fields of engineering and business administration are brighter for this year's college graduates than for any class in recent years.

That is the report of Lawrence W. Zimmer, director of the New York University bureau of employment.

A 100 per cent job placement of the 1940 graduates in the university's college of engineering by early fall was predicted by Mr. Zimmer after interviews with seniors by personnel officers of basic industries. Last year 233 men were graduated with engineering degrees.

Business trained groups and graduates of liberal arts colleges also are being sought on an increased scale, Mr. Zimmer said.

Here Is A Short-Cut To "A" Grades

9-Point Program Is Planned By Editors Of Midland College

Fremont, Nebr.—(ACP)—Hunting for a short-cut to a straight A average?

If you are, heed the following nine-point program to scholastic success—a program formulated for you by the ever-helpful editors of the Midland of Midland College:

- 1. Don't give your prof apples. Too obvious.
2. Find out his hobby and follow this up with well-planned questions to draw him out.
3. If the entire class walks out of the classroom when the prof is 10 minutes late, be the only one to wait, even if it half an hour. This procedure is good for a B-plus any day.
4. Always greet an instructor pleasantly, never using his first name, but a cheery "Good morning, professor."
5. When sitting at the faculty table in the dining hall or walking about the Administration building, always walk with your head down as if in deep thought, pondering some weighty problems in math or philosophy, for instance. This is highly

recommended to get on the honor roll.

6. Offer to wash the professor's car, put up his storm windows or do any little job around the house, but don't accept any money for the work.

7. Apple polishing procedure in classrooms includes sitting in the front row, responding to professorial humor with loud, hearty guffaws and liberal use of big words. This is important—never use a two-syllable word where a five-syllable word will do.

8. Carry a lot of big reference books around. This is tremendously impressive and is worth an A minus in any class.

9. If you must close your eyes while in deep thought, wrinkle your forehead and otherwise look worried or the professor may get the wrong impression—and grade accordingly.

Editor's Note: You might try studying, too!

Job-Givers Meet With Job-Seekers Getting A Job Included In Extra-Curricular Routine Berkeley, Calif.—(ACP)—The big problem that comes eventually for

most university students—getting a job—has been brought into the extra-curricular routine of the University of California through meetings between student job-seekers and job-givers. One of these meetings covered the transportation fields. Invited executives of a number of transportation systems sat with the inquiring students, the groups dividing off according to types of transportation represented: The series covered seven meetings, representing many lines of industry. One of the meetings was with representatives of the Federal Bureau of Investigation.

Let The Chips Fall—

Tennis Regionals Here Today

Today the tennis regionals of the western half of the Kansas Conference are being played on the local courts. Bethany, Bethel, and Kansas Wesleyan, are expected to be here to compete with McPherson in the regionals.

Each school is allowed to enter three singles players and two doubles teams. Representing McPherson college in the singles will be Carroll Crouse, Ernest Reed, and Albert Whitmore. The Bulldog doubles teams will probably be Carroll Crouse and Calvin Jones, Ernest Reed and Wesley DeCoursey.

In order to compete in the conference finals to be held at Ottawa next Friday, a singles player or a doubles team must go to the finals of the regionals. The competition is very stiff, and it is doubtful whether McPherson can expect to be represented in the conference tennis meet.

Johnson To Finals Last Year

Last year Raymond "Swede" Johnson, Bulldog netster not here in school this year, went to the finals in the regionals play. Ensz of Bethel was the other finalist of the western half of the conference.

At the conference meet at Salina last year Johnson lost to Bob Trump, Ottawa netman. Spencer Self of Baker won the meet, defeating Ensz and Trump in the two rounds played at Salina. Self, a junior this year, has won the conference title for the last two years. Self was also on the winning doubles team in last year's conference meet.

Many Stars Here Today

This year many of last year's net stars are back and will probably compete in the regionals today. Ensz and Unruh of Bethel, Olson and Altenborg of Bethany, Shaw of Kansas Wesleyan, and Crouse of McPherson competed in the singles of last year's regionals and will probably all be here today.

Bethany and Bethel are fated the strongest teams in this half of the conference, on account of their strength in the one or two dual meets played thus far this year. McPherson has also had a fair showing thus far this year, winning from two schools and losing to one.

The first dual meet of the season was lost by the Bulldogs to Bethany. Then the Bulldogs won successively from Hutchinson Junior college and Kansas Wesleyan.

Coachless, Courtless Wonders

The Bulldog netsters can well be called the "coachless, courtless" wonders. The tennis players can not be expected to show up well in competition unless they have some courts to practice on regularly.

Neither can they be expected to improve readily without active competition and coaching. Tennis at McPherson college is run in a reckless, slipshod fashion. At first one person is intrusted with all of the responsibilities connected with tennis.

But when the responsibilities are shifted because of "lack of time" and two different meets are scheduled for the same day, the need for a responsible tennis coach is amply illustrated.

The weather has hampered greatly the scheduling and playing of dual meets. Consequently when the weather is nice, it is thought best to schedule a dual meet immediately. But too often the person with the authority is not on hand and the delay is costly. Either the school invited has another meet by that time or not enough notice has been given to enable them to play.

Solution To Tennis Problem?

Probably some people would advocate the adoption of the policy of the University of Chicago and the dropping of a branch of athletics when the team loses. Possibly so, but the tennis teams of McPherson college do not follow the tendency to lose most of their athletic events, as do other teams of McPherson college. So this policy will not be the solution.

Possibly one solution would be for the college to hire a tennis coach or a tennis manager. A tennis manager would have the responsibility and authority to schedule meets and to hire the transportation to meets out of town.

Perhaps someday the college will be willing to "pay for what it advertises" in outside activities. When that day comes, we will then be able to speak highly of McPherson college without those hypocritical tongues sticking in their cheeks.
