Macollege To Release New Alumni Directory

McPherson College is expected to have a new Alumni Directory ready for distribution sometime in January according to Paul Wagoner, alumni secretary.

The 1959 revised edition of the Directory will include an alpha-betical listing of alumni, a geo-graphical listing, and a listing of alumni by classes.

Included in the new directory will be names of graduates of ters.

McPherson and also many former students who have complet-ed 24 hours or more of college work, but may not have completed college work at McPherson.

The former students included is in no way a complete listing, but is a listing of those who have been included in alumni records to date.

An alumni on the active mailing list will receive a copy of the directory.

Pondering With The President

Jingle Bells!

At the Christmas formal on Saturday night we came into an enclosure composed of bells and Christmas trees. These faced us toward a Gothic window through which we presently saw in silhouette the Mother and the Christ Child. Approaching this Child came those who represented many cultures, and many professions to do honor and to declare allegiance.

It was a good program. It helped us all.

But have you stopped to think that in the very representations and decorations which surround Christmas there is a great sweep of culture and history which focuses on the Christ?

The Gothic window comes from the tall arches of the Black Forests of Germany. The Christmas tree is a symbolism from the worship of the ancient Teutonic gods. The stars come from the knowledge of astronomy held by the Arabs. The bells may come from the Siberian plains, the tinsel from Norway, and so on.

Represented in our Christmas formal and play was the tradition of centuries honoring Him. If we really would honor Him not only by decorations and songs, but from our hearts, the future could look better.

Let us keep growing in that direction.

It is said that the stars and candlelight of a Christmas mid-night inspired Joseph Mohr to write the words of the carol Si-lent Night in 1818.

Another source of Christmas light illuminates this old French legend, a child-pleasing explain-ation of how the robin got its red chest. An early bird used its wings to fan the fire that kept the Christ Child warm as He lay in the manger. The glowing heat of the flames kept the robin's breast red forever after.

Some of the world's most colorful Christmas customs we have are practiced in other lands. The Mexican posada is held on each re practiced in other lands.
