Pondering With The President

Thank You

A lot of people at the college do a lot of things behind the scenes which help the college family in its unity, its progress, and enjoyment. It is a privilege to say, "Thank you," once in a while.

To the retiring editor of the Spectator and her staff, we say a hearty, "Thank you," for a job well done.

To the incoming editor and his staff, we say a hearty "Welcome," and extend enthusiastic good wishes. We anticipate good Spectators, interestingly written, attractively laid-out, and filled with campus news and opinion.

Let all of us support these people, give them news, read the paper, pat them on the back for the long hours of work they put in.

Let us do this also, for the many others who help to make life smoother for us.

Mrs. Martin Finds Her Choice Profitable

Mrs. Alice Martin, registrar had a rather unique experience in November. She received a letter on the 24th from TIME magazine asking her to send the name of her candidate for the "Man of the Year".

If Mrs. Martin chose the same as the editors, she would receive a perpetual calendar as a token prize.

The "Man of the Year", was to be announced in the first issue of TIME in 1959, by placing his picture on the cover of the magazine.

Mrs. Martin chose the "Man of the Year - 1958" as Premier Charles deGaulle of France. Her choice was the same as the editors.

Mrs. Martin received her perpetual calendar along with congratulations from the editors of TIME, for choosing the key figure in the news, and helping to

name the "Man of the Year".

Some of the past men who have been chosen as "Man of the Year" are Khrushchev, Dulles, Adenauer, Churchill, Truman Eisenhower, and Roosevelt.

Sunday, Jan. 25, was the beginning of Youth Week. Churches throughout the land participated by allowing their youth to be in charge of morning worship services.

The McPherson Church of the Brethren was one of these such churches. The youth department was in charge of an interesting service with three presenting sermonettes.

Monday is the day on which, according to popular superstition, the weather can be forecasted. According to belief, on Feb. 2, the ground hog emerges from his winter burrow; if he sees his shadow, he returns and winter will last for six more weeks.

If the day is cloudy and he does not see his shadow, he remains outside, anticipating an early spring.

The legend is considered an American variation of the belief, long cherished throughout Christendom, that a sunny Candlemas (also Feb. 2) portends a cold spring.

Engineers Wanted By Civil Service

Civil Service Commission reports much enthusiasm has been shown in its new examination aimed at recruiting and identifying young engineers and physical scientists with outstanding ability for research work.

Government scientists and personnel officials and college placement officers and department heads have indicated considerable interest in the examination and its possibilities for attracting candidates with the desired potential.

College seniors and graduates have been submitting applications for the first examination to be held in February 1959.

Unusual features of this new examination include use of a test which has been developed as a means of identifying candidates with imagination and potential for important research work, and provisions for higher-than-usual starting pay and promising assignments.

Those appointed will work in top laboratories in the Washington area with some of the nation's foremost scientists.

Engineering and physical science seniors and graduates who wish consideration for employment are reminded that their applications must be on file by March 3, 1959.

Further details are given in Civil Service Announcement No. 175, which may be obtained from the college placement office.

Groaning Over Grades

By Fans, Foley, and Harris
In the days of old it was said unto us by the prophet Finklestein, "Woe unto ye, students of McPherson College, for the day of reckoning shall come, and the fatal Thursday shall descend upon thee."

"On that day the grades shall be issued unto thee, and there shall be weeping and wailing and gnashing of teeth, and couples shall depart into the outer darkness. Miss Neher's light shall be beamed into the darkness, and the couples shall heed it not."

"For when the fatal Thursday hath descended, even then the axe shall be laid to the root of the trees, and every tree therefore that hath not born good fruit shall be cut down and thrown into the fire."

And yet another minor prophet, Florynius, hath spoken and said, "Ye brood of vipers, bear fruit that befits repentance."

"But there is one coming after me who men shall call Geisert Disgustus, who is mightier than I, the thong of whose whip I am

not worthy to tie. And the college shall be upon his shoulder, and his name shall be called blunderful counselor, flighty clod, the everlasting bother, the prince of fleecy.

"His winning fork is in his hand, and he will clear his threshing floor and gather his wheat into the granary, but the Chaff he will burn with unquenchable fire."

And verily, the words of the prophet Finklestein have been fulfilled, and the fatal Thursday hath indeed descended and wrought a plague upon the campus.

And truly, truly we say unto you, on today, which is Black Friday, this plague shall be sent to the uttermost ends of the earth, for the epistles of grades are being sent into the households of all the disciples of learning.

And so the dark warning of T. F. M. S. L. hath come to pass, and today is THE FRIDAY McPHERSON STUDENTS LOATHE.

Hearts, Gifts Work For Macollege Girls, Too

February 6 will begin the annual "Heart Sister Week." It will begin by the drawing of names by all the girls in college.

During the following week, the girls are to do favors for their "heart sister". They may buy treats for them or try to help them in any way.

The "Heart Sister Week" will close with a party on Feb. 12. The girls will disclose their identity to their "heart sister" at this party.

The "Heart Sister Week" is sponsored by the Women's Council.

McPherson Graduate Honors Former Teacher

G. Winston Cassler, a 1927 graduate of McPherson College, recently published a book of improvisations for organ, which he dedicated to Dr. Jessie Brown, who for many years was professor of piano at McPherson College.

The book, "Organ Music For the Church Year," is published by the Augsburg Publishing House, and is subtitled "Improvisations by G. Winston Cassler."

The dedication reads as follows: "This book is affectionately dedicated to Jessie L. Brown Mus. D. (Professor Emeritus of Music, McPherson College) whose encouragement and continued interest have been of great inspiration and value to this musician."

Round Robins Re-Union For Fun-Filled Evening

Eight former students of Macollege experienced a reunion last Saturday at the McPherson College - Ottawa University basketball game at Ottawa. The group met for supper at a hotel, attended the game together, and were again together after the game.

All but one of the eight graduated from Mac in either '38 or '39. Since that time - 20 years - they have corresponded in a Round Robin letter which includes three more couples. Both men and the women are writing in the letter.

Those from the Round Robin who were at Ottawa are: Mr. and Mrs. Harold Mohler, Warrensburg, Mo.; Mr. and Mrs. Ira Milton Hoover, Plattsburg, Mo.; Mr. and Mrs. Russell Herpich, Manhattan; and Mr. and Mrs. Gordon Yoder, McPherson. Eight of the group's children were also present.

Five other couples joined the group last Saturday. These were Mr. and Mrs. Jim Baile, Mr. and Mrs. Harold Baile, and Mr. and Mrs. Glenn Baile, all of War-

rensburg, Mo.; Mr. and Mrs. S. G. Hoover, Plattsburg, Mo.; and Mr. and Mrs. John Sheets, McPherson.

It is the hope of the Round Robins to meet next summer in the middle of July at a campsite, according to Mrs. Gordon Yoder. There will be 32 in all at this gathering. This number will include all the children of the couples.
