Pictured left to right are Peter Coulson of Tucson, Ariz., who will replace Miss Della Lehman in the English Department, Harvey Lehman of St. John, Kans., assisting John Sheets in the public relations office, Dale Brown, a 1946 Macollege graduate, assisting Dr. Burton Metzler in the Philosophy and Religion Department, and Prof. Richard Slimon of Wichita, replacing Prof. Kenneth Kenzie in the Art Department.

Four New Members Join Macollege Faculty This Fall

Four new members joined the Macollege faculty this fall. They were the Rev. Dale Brown, the Rev. Harvey Lehman, James Peter Coulson and Mr. Richard Slimon.

The Rev. Dale W. Brown, who will be working in the Philosophy and Religion Department, is a 1946 McPherson College graduate. He received his B. D. from Bethany Biblical Seminary in 1949.

The Rev. Harvey C. Lehman joins the Macollege family with his specific duties focused largely on the Development Campaign, which is to bring into being new Sharp Hall. Rev. Lehman was pastor of the Eden Valley, Kas. Church of the Brethren.

James Peter Coulson of Tucson, Ariz., is also joining the Macollege faculty this fall. Mr. Coulson will be teaching in the field of literature and dramatics.

Mr. Richard J. Slimon, Wichita, Kas., has been employed as Assistant Professor of Art at McPherson College for the new school year. He will succeed Mr. Kenneth Kinzie.

Trustees Will Hold Meet To Discuss Sharp Hall Plan

Final plans for the new Sharp Hall are completed and ready for approval by the Trustee Board which will hold a special meeting on campus Sept. 20.

The architects have submitted a total estimated cost as well as itemized expenses. The trustees will need to analyze the way the money is coming in to determine what the procedure will be for the actual construction to

Rev. Baugher To Speak For Dedication Service

Rev. Norman Baugher, General Secretary of the Brotherhood Board of the Church of the Brethren, will speak Sunday morning Sept. 28 for the dedication of the new Educational Building for the McPherson Church of the Brethren.

Open house for the college students will be held during the Sunday school period. Town people will have the opportunity to visit the building in the afternoon.

Theme of the evening service at the church will be "New Trends in Religious Education" and will feature a series of slide pictures showing the progression of the educational building, choral speaking, and a rhythmic interpretation of the "Lord's Prayer."

Children's classes will be held in the new building one week before dedication.

Fike Resumes Study At Mac Fager To Study In Germany

Juanita Fike, a junior from Peace Valley, Mo., is returning to her studies at Macollege after spending a year in Germany as an exchange student.

Replacing her is Lois Fager, a junior from Fresno, Calif., who arrived in Bremerhaven on Aug. 3. She is living with a German family near Merford until school begins in November. She will attend the teachers college in Goettingen.

Lois writes that she learns some German words the hard way. "For instance, one of the fellows who watches after the boys said 'Spazieren gang?' I could not remember what spazieren was. He could not say it in English, and so he left. When I looked it up later, I learned that he wanted me to go for a walk. I'll know next time!" Her German parents are managers and house parents of a home for boys between the ages of 12 to 20 who have committed minor crimes.

She had two German brothers and three German sisters. Lois reports that she is surprised at how much the part of Germany she is in is like America.

"I never worry about going hungry. We eat four times a day — sometimes five. We have potatoes with each meal just like we (Americans) have salt on the table for each meal. We have as much bread as potatoes."

Juanita had semester vacation in March and April. During that time she and an exchange from LaVerne College took a one and one half month trip through Switzerland, Italy, Austria, and southern Germany.

She says that the school she attends is a seven month school, with a two month vacation between each semester.

"The classes are mostly of the lecture type with much less opportunity to learn to know students individually. We have no specific assignments and do not have to attend classes."

"The only tests are given to the student after he has attended here three years. The ideal system would be a happy medium between the mad rush and social emphasis at Mac and the slow pace and lifelessness of the student here."

The MCA sponsored Juanita and Lois as exchange students.

begin. They will also consider the final plans and make any changes which they feel necessary.

The total goal of the McPherson College Development Campaign is \$725,000 of which \$594,698 had been pledged by Aug. 20. An amount of \$102,194 has been received in actual payment on the same date.

Pres. D. W. Bittinger pointed out that since the pledges are made over a five-year time, it is obvious that to begin in the first year of receiving the pledges would mean borrowing money. The trustees will discuss this.

He feels that the architects have planned a beautiful as well as a functional and efficient building.

Dr. Bittinger stated, "From the mood of the letters from the trustees, they are in favor of beginning the building of a new Sharp Hall as soon as possible."

Bittingers Return To Mac After Busy Summer Abroad

"Mom and Pop" as Dr. and Mrs. D. W. Bittinger are known to the Maccollege family have returned after a busy summer in Europe.

Although the Bittingers traveled in 10 different countries by all means of transportation, visited in all types of communities and homes and attended conferences with people from all over the world, the thing that impressed and inspired them most was everywhere they went there was a former Maccollege student at work.

Duties In Europe

Dr. Bittinger's duties in Europe concerning the church of the Brethren were to act as moderator for the 250th Anniversary Celebration in Germany, to represent the church at the World Council of Churches and to visit work camps and projects of the church in Europe.

"Eventually," states Dr. Bittinger, "we hope to establish pro-

jects behind the iron curtain in Poland and in Russia itself."

Missionaries In Africa

Anagaya Mselia, who officiated at the 250th Anniversary Celebration of the Church of the Brethren in Germany, was a small boy in one of the Nigerian Villages where Dr. and Mrs. Bittinger were missionaries.

At that time Nigeria was so unsettled the Bittingers had to sign contracts which would not hold the British government responsible for any misfortune which might befall them.

First White People

Dr. and Mrs. Bittinger and their family were the first white people in many of the Nigerian villages. The Nigerian explanation of why the Bittingers were so white was that they had been hidden away in a hole in the ground for too long and had bleached.

"The white man will get you if you are naughty," Nigerian

This is Dr. and Mrs. D. W. Bittinger, President of Maccollege and his wife, who are known as just "Mom and Pop," to the Maccollege family.

children were told and many were frightened when they saw the Bittingers for the first time.

The big job of the Bittingers was to begin schools and churches in Nigeria when there was no word for book, pencil, or paper. Lessons were prepared on banana leaves or in the sand until necessary supplies were obtained.

Many Experiences

An interesting experience of Dr. Bittinger was hunting game for food in Africa. One of Mrs. Bittinger's interesting experiences was translating a book so rare that she had to go through three locked doors to get to it and then the librarian had to turn the pages for her.

The book told of the early history of the Sudan when it had a highly developed civilization. The material was used for Dr. Bittinger's Ph.D. thesis.

Dr. Bittinger's ambition has always been to climb the highest

mountain in the area and this summer he climbed the highest mountain in the Alps.

In spite of his many interesting experiences Dr. Bittinger says that his most interesting experiences have always involved people and their problems.

Freshmen, Welcome!

Welcome, freshmen! Welcome to college and congratulations on your desire to learn. But before you begin the daily routine of college life, THINK. What will your college education mean to you in four years? What does an education mean? The dictionary definition of education is to develop the character by training and to cultivate mentally and morally.

A Chicago professor is reported to have given the pupils in his class a certain group of questions and told them they were not educated until they could answer "yes" to every question. Following are a few of the questions.

"Will a lonely dog follow you down the street?"

"Can you be happy alone?"

"Can you look into a mud puddle and see anything but mud?"

"Can you look into the sky at night and see beyond the stars?"

"Can your soul claim relationship with the Creator?"

2675 Youth Attend NYC Many Mac Students There

Total registration for the Lake Junaluska National Youth Conference held Aug. 25-29 reached 2,675. Many Macollege students attended the second national conference of Brethren youth.

The Western Region of the Church of the Brethren was well represented with a total of 350. This was a 75 per cent increase over the number that attended the Anderson, Ind., conference in 1954.

Western Region youth traveled to the conference by eight chartered buses and many cars. Various districts and state organizations were responsible for organizing the bus transportation.

"Our Faith Tremendous," the conference theme, set a mood for serious study of what Christian faith is and how it can be applied to the daily and lifetime decisions of youth.

Major addresses were given on the theme by Earle W. Fike, Jr., pastor, Chicago; J. Henry Long, Executive Secretary Foreign Missions Comm., Elgin; Don Snider, pastor, Dixon, Ill.; and Harry K. Zeller, pastor, McPherson.

Also Jesse H. Ziegler, Professor, Bethany Seminary, Chicago; and Wayne Zunkel, pastor, Harbursburg, Pa.

In addition to major addresses, matters of faith were probed by nearly 150 small discussion groups twice each day.

For the daily Bible Hour, led by the Rev. Edward K. Ziegler, Roanoke, Va., the 2,600-seat auditorium was filled to overflowing.

"Talk - back" sessions after each major address enabled the youth to question speakers regarding the viewpoints they presented.

Singing played a unique part in the week's activities. Half of the 2,675 youth expressed interest in joining the conference choir. Facilities limited the participants to

a selected 200.

A 53-piece orchestra accompanied the choral presentations and congregational singing. An anti-phonal sing under a full Carolina moon took place across the lake.

A memorial service remembered the 20 Brethren who were among the 99 persons killed in the trans-Atlantic plane crash two weeks earlier. Several of the victims were planning to attend the youth conference.

James Rose, Brethren, Mich., national youth president, said at the service, "Life is more than years spent. To live abundantly is not to live long, but to live well. Their deaths are overshadowed by their lives, and we feel their presence with us even at this moment, in this place, testifying to the unfolding love of God."

Vernard Eller, La Vern, Calif., led the closing service of commitment in which the youth re-stated their baptismal vows.

Familiar faces to Macollege students among the conference staff included Rev. Harry K. Zeller, Jr., pastor of the McPherson Church of the Brethren, Prof. Donald Frederick, professor of voice at Macollege, and Carl Harris, senior at Macollege.

Rev. Zeller addressed the conference guests during the first general session held on Monday evening.

Prof. Frederick was the director of the 200-member Conference Choir.

Carl Harris, Jennings, La., served in the position of editor-in-chief of the Junaluska Journal, published every day of the conference.
