

Birchard Cast In Lead Role

Rusty Birchard, freshman from Radnor, Pennsylvania, was cast Monday in the lead role, Kretton, man from outer space, in Gore Vidal's fantastic comedy, "Visit to a Small Planet."

In supporting roles are Arthur Ulbricht (freshman, Wantagh, New York) as the high-power general, Tom Powers; Charles Dadisman (senior, Nevada, Iowa) as Conrad Mayberry, a one-track minded farm boy; and Linda Kurtz (sophomore, Billings, Mont.) as vivacious, sophisticated Ellen Spelding.

Senior Ellen Sell from Conway will portray Reba Spelding, gentle and vague, but, nonetheless, sophisticated matriarch of the Spelding household. Play-

ing Roger Spelding, the paragon of the brisk, successful news analyst, is Gerald de Sellem (freshman, Saxenburg, Pa.).

Others in the cast include Alan Cable (sophomore, Syracuse, Ind.) as the aide, and Patricia Greenway (freshman, Indianapolis, Ind.) as Delton 4.

Bryce York, Abilene, sophomore; Ronald Cassidente, sophomore from Denver Colo., Nancy Steffan, sophomore, Goshen, Ind.; and Harriet Swinger, senior, Essex, Mo., portray television technicians.

Rehearsals have already begun in preparation for the four performances of "Visit to a Small Planet," to be given in the arena theater March 3-6.

Convocations Calendar

February 2 — Chapel-Student sponsored worship service.

February 5 — Convocations-Mike Brown, Wichita senior, will speak on the Brethren College sponsored Junior year abroad.

Coming . . .

Friday, Jan. 29 — Basketball, Bethel at McPherson. B game at 6 p.m. followed by varsity game.

Friday, Jan. 29—After game dance. In S.U. following Bethel game. Cokes, cookies and dance contest.

Saturday, Jan. 30—Basketball, McPherson at KWU.

Monday, Feb. 1 — Regular meeting of S.N.E.A., 7 p.m. in Mohler.

Tuesday, Feb. 2—Basketball, McPherson at Southwestern.

Thursday, Feb. 4 — Basketball, McPherson at Sterling.

Friday, Feb. 5 — Macollege Concert Band concert, 8 p.m. Brown.

Macollege Students Active In Instrumental Ensembles

The McPherson College Band Department includes many curricular and extracurricular activities. Among the activities that many students participate in are the instrumental ensembles.

The McPherson College instrumental group which is heard more often than any other group

College Band Will Present First Concert

The McPherson College Band under the direction of Robert Jones, director of band and orchestra, will present its first concert on Feb. 5, at 8:00 p.m. in Brown Auditorium; no admission will be charged.

The band, which is made up of 45 students, will present a program including works by Gustav Holst, Robert Ward, J. S. Bach, and John Philip Sousa. The concert will also include one number featuring the Brass Choir.

Church Events

Morning Worship (10:05 a.m.)

January 31: "The Creative Use of Anger," Pastor Bomberger

Evening Worship (7:30 p.m.)

January 31: "Moment to Act"—film on the problems of mental health

Enrollment Increases

Total enrollment for the second semester now totals 589 regular students and 47 special students, according to figures released by the Office of the Registrar.

There are 234 freshmen, 139 sophomores, 117 juniors, and 98 seniors enrolled for the second semester. This total enrollment represents an increase of 10 students over first semester.

Ladies' Trio Plans Tour

The McPherson College Ladies' Trio will be on tour Feb. 6-14. Members are Leah Standauer, senior from Worthington, Minnesota; Gloria Hull, junior from McPherson; Carol Klotz, sophomore from Fredericksburg, Iowa; and their accompanist, Kathy Andrews, sophomore from Rocky Ford, Colo.

The girls will leave Saturday afternoon, Feb. 6, for Paint Creek Church in Uniontown, Kan. From there they will go to the Springfield Church in Springfield, Mo., on Feb. 7; Mt. Grove Church in Mt. Grove, Mo., on Feb. 8; Cabool Church in Cabool, Mo., on Feb. 9; Broadwater Church in Essex, Mo., on Feb. 10; Peace Valley Church in West Plains, Mo., on Feb. 11; Shoal Creek Church in Fairview Mo., on Feb. 12; Carthage Church in Carthage, Mo., on Feb. 13; Parsons Church in Parsons, Kan., on Feb. 14; and Fredonia Church in Fredonia, Kan., on Feb. 14.

Latin Seminar Class To Feature KU Professors

McPherson College will be host to five area schools participating in a Seminar on Latin America. Schools participating are Bethany, Bethel, Sterling, Tabor, Kansas Wesleyan, and McPherson.

The seminar will feature guest lecturers from the University of Kansas. The lecturers scheduled are: Dr. John P. Augelli, Professor of Geography and Chairman of the Center of Latin American Studies;

Dr. Charles L. Stansifer, assistant professor of history and members of the Latin American Area Committee, Dr. Robert J. Squier, chairman of the Department of Anthropology;

Dr. Robert E. Nunley, associate professor of geography and acting chairman of the Latin American Area Committee, Dr. Robert D. Tomasek, associate professor of political science;

Dr. Raymond Soueza, assistant professor of Spanish, Dr. William W. Stein, associate professor of anthropology, Hugh H. Schwartz, assistant professor of economics;

Dr. Thomas M. Gale, associate professor of history and dean of the college of liberal arts and sciences, and Dr. Charles Staley, associate professor of economics.

They will lecture on topics related to Latin American history and development, politics, social structure, literature, and economic problems.

These lecturers will also participate in a program of informal interfaculty exchanges.

Bittingers Will Host Students And Faculty

Dr. and Mrs. Bittinger invite students and faculty to an open house at the President's home. It is their desire before they leave to greet their friends in their home.

Hours are arranged as follows:

For Students—
Saturday, February 6, 2:00 to 5:00 p.m. 7:00 to 9:00 p.m.

For Faculty—
Sunday, February 7, 2:00 to 5:30 p.m.

Board Of Trustees Votes For \$3,000,000 Program

McPherson College Board of Trustees recently voted to enter into a financial drive. The drive will encompass two phases; the first phase will end in 1967, the 50th anniversary for McPherson College. The second phase, scheduled to culminate the drive, will be completed in 1972. This will also be the 85th anniversary of the college; each phase will end with the appropriate celebrations. The total amount of money raised by 1972 will total \$3,031,000.

"The purpose of this drive is to enlarge the faculty; improve faculty salaries, which are low; obtain additional scholarships, aids, and grants for students; build a new library and a classroom building; and purchase improved laboratory and teaching equipment," Dr. Bittinger, pres-

ident, said.

Some of the sources include increased giving from alumni, churches, the McPherson community, and the many McPherson College friends who are not alumni. Also, funds will be raised from various foundations and business industries.

At the present officials are seeking to contact all churches in the Western Region to encourage better support of the college and are in process of visiting, through personal contact, all the churches in the region. Therefore, the finance drive is presently in operation.

"The whole purpose of the drive is to make McPherson College a better college for students and faculty", Dr. Bittinger said.

is the Basketball Pep Band which performs at all home basketball games.

This band consists of 26 musicians who were selected from the concert band and are mostly under the direction of student conductors Larry Blair, Sr., Kansas City, Mo.; Larry Kitzel, Sr. Omaha, Nebraska; and Merlin Grady, Sr., Waterloo, Iowa.

For the Moundridge Tournament, which was held in December, the Macollege pep band was selected as the official tournament band.

The Trombone Quartet, whose membership is determined by audition, includes Merlin Grady, Sr., Waterloo, Iowa; Larry Kitzel, Sr., Omaha, Nebraska; Tim Matthaai, So., Wichita; and

Mike Fox, Fr., Garfield.

This group, aside from its many appearances in McPherson, will be on deputation trip in Okla., and Texas from Feb. 14 through 21.

The members of the Brass Quartet, whose membership is also determined by audition, are Larry Blair, Sr., Kansas City, Mo.; Gary Flory, Fr., McPherson; Dave Weimer Jr., Haxton, Colo.; and Larry Kitzel, Sr., Omaha, Neb.

This group will also make a deputation trip in Colo., Neb., and Kan., from March 14 through 21.

All of these groups are under the direction of Robert Jones, assistant professor in music, who is directing while Irvin Wagner is on a sabbatical leave.

Larry Blair, Kansas City, Mo. and Merlin Grady, Waterloo, Iowa; both senior music majors, watch approvingly as Connie Kitzel, freshman from Omaha, Neb. practices for the coming concert band performance.

Arts Festival Set For May

The McPherson College Fine Arts Festival Committee has announced plans to schedule the 1965 Fine Arts Festival from May third to ninth.

This festival is a challenge to the creativity of every Macollege student. This year, for the first time, the festival will run for a full week.

There will be several areas for possible entries: Music, Poetry, Short Story, Essay, Drama, Painting, Drawing, Sculpture, and Ceramics. Areas may be added or dropped according to need.

Any script for a play or any musical composition will be due March 15. All other entries will be due April 1.

All works entered in this festival must be original creations by the entering student. The art work will be exhibited in Friendship Hall. Musical compositions will be presented in a concert on Sunday afternoon, May 9. The Social Committee

plans to have a reception following the concert.

Another committee is planning the evening programs. There will be a program of cultural interest each evening.

The Student Committee chairman for the festival is Gary Wilson. Serving on the committee are Guy Ward, Ann Rodabaugh, Carolyn Lehman, David Heffley, and Kenneth Daurer.

Miss Robinson is the faculty advisor. Each department is represented on the committee by at least one other faculty member.

A literary magazine is also being planned in conjunction with the festival. Material for the magazine will be chosen from works submitted to the festival and from any other literary sources that come to the magazine committee's attention.

If you have any questions or want to express your interest, see one of these people.

Four of the many new students this semester, from left to right: Keith Schradel, freshman from Elmhurst, Ill.; Ed Freedman, sophomore from Montreal, Quebec, Canada; Mike Glasser, freshman from Far Rockaway, N.Y.; and John Richter, freshman from Great Neck, N.Y. meet in the S.U. to talk.

Why Are You In School?

Here we are at the beginning of a new semester. For some students this is just the beginning of college; for seniors it is nearly the end. Now is the time to take a long look at our situation and analyze our purposes in school.

What does one expect of a college education? How many students really know why they are in school?

Some people think that a college education teaches a person unlimited skills, and when he graduates he can do anything. However, a general college education does not teach specific skills—these come later on when one specializes in his field.

A college education provides the basic tools for further learning. It teaches the student to think and reason logically, thereby giving him a basis on which to grow and learn many skills and to specialize in his own field.

Education is a constant process. Just because formal education is completed, it does not mean a person is completely educated. A student just out of law school is not going to be a "Perry Mason" over night. He cannot win all his cases from law

school theory. He has much more to learn, but his law school training has prepared him with the basic tools of logic—it has made it possible for him to learn.

If one does not enjoy thinking, he does not belong in college. It does no good to study history or literature if one does not analyze these in terms of their relationship to himself and to humanity. Knowing that George Washington was the first president is a useless fact unless one looks at him in terms of his effect on America, yesterday and today.

Many students go through college memorizing facts and figures, never wondering why they are learning them, and never bothering to find out why. These students consider themselves educated when they have received their diploma, yet they have completely missed the point of education.

As we begin this new semester, it is time to evaluate our purpose here in college. Unless one has some definite objectives in mind, school becomes nothing but monotonous grind. **CSL**

The Commentator

"Give Or Take Five"

By C. L. Dadisman

Hello once again from the desk of the Commentator. If by chance you are one of the many new students who have moved onto the campus to have a go at college life at Mac, allow me to introduce myself and my column. I am Charles (Charlie) Dadisman, a first semester senior majoring in music. I now hail from Nevada, Iowa, but, due to certain circumstances, that will be changed after this coming June.

Let me welcome you not only to McPherson College, but to another destination where you had no intentions of journeying. As you read this, settle back in an easy chair, kick off your shoes, take a few relaxed deep breaths, and lock your door, for you are now in a certain kind of TWILIGHT ZONE!!

Touch the chair, touch your arm, make sure you are really where you are. Take everything into view and try to rationalize its existence. Because at this very second the people in the next room, in the next building, perhaps even the person standing next to you, has a different time. Wait! Don't panic! We have been in a Twilight Zone since the beginning of the first semester. We have seen a few students who have nearly gone out of their minds because they find themselves existing in as many as fourteen different time zones.

Perhaps the most used time zone on campus is that which is found in Dotzour Hall. As the fellows check out their dates in the evening, they silently groan as they synchronize their watches to avoid the wrath of Mrs. Irons. This time, however, varies by nearly four minutes from those beautifully clanging bells which are situated atop Brown Auditorium.

Yet, even as these messengers miss and dismiss us from our classes, we find that the times in the separate classrooms and halls are all varied by one, two, three, ten, twenty, or more minutes. Fahnstock Hall lingers by three measly minutes behind Metzler Hall, while Arnold Hall sometimes hits as high as twenty minutes behind any time anywhere.

But the time zone which looms as the highest in importance is located in the Mecca of the campus, the Student Union. Its clocks are set permanently to be three minutes forty-two and three-quarters seconds ahead of the classroom clocks, unless you're hungry, and then its behind time.

Inadequate English

by Judi Halbleit, editor.

An editorial in the Kansas State Collegian

America's English ability is very inadequate because the teaching of English in the schools is disgracefully bad.

This charge is made by education critics and laymen in this country and abroad. The National Council of Teachers of English recently issued a statement which was emphatic agreement with the charge.

The ultimate blame correctly is placed at the college level preparation of future teachers. Too many college programs are built on an assumption that the ability to teach writing comes naturally, or that it isn't worth teaching, or that it comes from teaching literature.

A council survey pointed out that only 50 per cent of the high school English teachers majored in English in college. Only 39 per cent were expected to complete work in composition beyond that included in the standard freshman English course.

The survey showed that although English instruction makes up 40 to 50 per cent of all elementary school education, elementary school teachers devoted less than 8 per cent of their college studies to that subject. With this teacher preparation suggests that most of time spent in grade school English instruction is wasted.

New textbook material is being prepared at 15 curriculum centers at universities across the nation. But curriculum requirements also need to be readjusted in the majority of the colleges.

The relative ease with which most students pass tests of English proficiency is no proof of their preparation to teach English.

African Family Life Based On Cooperation Of Members

Editor's note: Students from many different cultures attend McPherson College. The following story was written by a student from Nigeria and points out some of the interesting contrasts of life in Nigeria and life in the United States.

By Martin A. Alugbuo

In some cultures the word family simply means father, mother, and their children. In others it means a body of persons who descended from a common progenitor, and usually live in the same compound (houses), with one man as their leader.

This is the type of life the family I come from lives. My own family consists of my parents, two sisters and two brothers, two uncles and their two wives, who have seven children altogether.

My senior Uncle is the head of my family. We live together in a compound known as "Alugbuo's family compound." Alugbuo is the name of my grandfather and every member of my family has this name as his or her surname.

The family is small compared with some other families like that of the chief of my town which comprises of seven wives and sixty-five children.

My uncles and their wives and children live in separate houses while my parents and their children live in a house in the same compound which has a concrete fence all around it.

Food is cooked in each of these houses and any member of my family can eat in any of them whenever the food is ready. On feast days food is usually cooked together and everyone serves himself. Women usually eat with their husbands while children eat together at a table.

What I like most in my family life is the spirit of cooperation among all the members from planting to harvest time. Anything harvested is stored in the barn for family use. There is division of labor among men, women, and children.

Women take care of food; men have their different occupations like trading, carpentry, and tailoring; and children attend school and perform some domestic services when needed. The responsibility of any member is regarded as a family concern or rather as a challenge to the family as a whole.

Any child who qualifies for entrance into the high school is asked to go and his school fees are paid by the family as a whole. Every member of the family is supposed to care for any child in the family who needs it. On some feast days like Christmas, all children attend Mass in the same uniform and the women do the same. Men do not have a uniform.

It is common in my country for young men and women to leave the villages and move into the large cities to work when they leave school. But even when this happens, the young man or woman visits his or her country home (village) very often.

Such a person is said to have two homes—a city home and a country home where he is supposed to be buried when he dies, regardless of where he dies, unless his family is so poor that it cannot afford to transport his remains to the

village.

My junior uncle who is a top civil servant in the Ministry of Education, Enugu, Nigeria, lives in the government quarters in the city of Enugu, sometimes alone and sometimes with his wife and children, but spends his holidays at home in the village.

He is a great asset to my family since he defrays most of our expenses. If my junior uncle were not a member of my family, I would not have been financially able to come to the United States for further studies because he is paying my expenses while I am here a responsibility which my father alone cannot shoulder.

The idea behind his paying for my education is that I shall be responsible for his children's education should he die or lose his job unexpectedly. His own children will train mine when I marry and have children. For instance, it was my father who paid for my uncle's high school education. With the existence of such "esprit de corps," families in my country have raised their standard of living to a great extent.

It would be, however, an over simplification if I said that life in my family is entirely free of all problems which are characteristic of groups of people who live together.

Women are usually the sources of disagreements or quarrelling in most Nigerian families. Occasionally, women in my family try to gossip against themselves or even incite their husbands to be at loggerheads with one another.

In conclusion, I would like to say that my family life is a very happy one with cooperation and love as its chief features.

Skate Club Teaches Retarded Children

Editor's note: This letter was written by a student in reference to the Skate Club's project of teaching retarded children to skate.

"Inasmuch as ye have done it unto one of the least of these, my brethren, ye have done it unto me."

Could our Lord have written these words for us? Could it be that we have been working with "angels unaware?" Why is it that such an opportunity has been given to us students who have been working with the 13 retarded children?

Why? Because in our world today, the need for people to give of themselves in time and service to others is just as great as ever. Why? Because as Christians living among people, it is our vocation—our purpose—to carry on His work in those ways which He opens up to us.

One cannot mention a project such as this, without thinking of the rewards which far outweigh the little time spent at the skating rink. To see the gratitude in the eyes of one of these children makes it more than worth our time.

To see the look of eagerness in their faces as they come rushing in the door and to see Johnny trying his utmost to please those helping him say more than words can express.

Yet this is not all. When one can look back at the beginning of the year and see the progress that they have made, it's easy to feel happy just in being a part of it. Yes, the progress is a great encouragement.

But the benefits of the project go on. The Wednesday afternoon sessions are not only good therapy for the children but we college students, too, have found physical and psychological therapy in being able to relax and take time out from a busy day to do something we enjoy.

Mac To Face League Foes

By Tim Bomberger

The Bulldog basketball team will be kept busy this weekend, playing both tonight and tomorrow night. On Friday, McPherson will host a strong Bethel team in the McPherson High School gym.

Earlier this season, Bethel defeated McPherson by two points in the semi-finals of the Moundridge Tournament. However in conference play, the Bulldogs later avenged this loss by defeating the Threshers 68-52.

Bethel will probably start Arlo Schmidt or Bob Pankratz, Jim Nickel, Ken Koehn, Larry Schmidt, and at the post position, Robert Fairbanks.

Saturday night the Bulldogs tangle with another tough foe, Kansas Wesleyan University. So far this season McPherson has not fared well against the Coyotes. Wesleyan spoiled the Bulldogs first game of the season by defeating them 82-79. Later in the semi-finals of the Mc-

Pherson Holiday Tournament, the Coyotes again were victorious. They defeated the Bulldogs 95-93 in the semi-finals of the tournament and went on to win the tournament.

Lead by their fabulous center, Jim Rash, KSU will bring a very tall and good shooting team to Mac. Jess Howard, La Verle Martin, Paul Peters, and Randy St. Clair will probably round out the Coyotes' starting team.

Coach Smith commented on the importance of these two games, stressing that from here on out, all games are musts for the Bulldogs if they are to remain on top of the K.C.A.C.

The Bulldogs have four starting players averaging in double figures. George Czaplinski is leading the K.C.A.C. with an average of 22.3 points per game. Marion Enke is averaging 19.1, John Tegeler 15.6 and Dick Welch has averaged 10.4 points per game.

Exercise is essential for all students who live in an academic atmosphere. Charlie Horner, junior from Carelton, Neb. and Russ Burkholder, junior from Preston, Minn., try their hand at ping-pong while getting an easy dose of exercise.

Bulldogs Will Meet Previous Victims

By Tina Bomberger

February 2 the Bulldogs will travel to Winfield, Kansas, to tangle with the Southwestern Moundbuilders.

Earlier in the season, the Bulldogs easily defeated Southwestern 69-64 in a game played at McPherson.

The Moundbuilders will probably start Bob Jackson and Ron Diesel at guard, Sam Beam and Brent Mantzen at forward, and Ken Bradford at center.

On February 4, the Bulldogs will be trying to keep their

winning ways when they meet the Sterling College Warriors on Sterling's home court.

In the McPherson Holiday Tournament, the Bulldogs defeated Sterling 68 to 67 in a very exciting game which took an overtime period to decide the winner. In conference play, McPherson again defeated Sterling.

Sterling will probably start Ywain Zimmerman and Larry Blumberg at guard, Robert Smith and David Echhoff at forward, and Robert Helm at center.

Sport News

By Wendell Kuhlman

McPherson College Bulldogs and Bethany College Swedes share the lead in the Kansas Conference after the first semester round of play.

Macollege has lost only to Kansas Wesleyan and last weekend to lowly Baker, while Bethany was beaten by C of E and McPherson.

Both teams are led by their front line in both scoring and rebounding. Bethany's trio consists of Harvey Daniels, John Darrow, and Larry Harter. Mac matches them with George Czaplinski, Marion Enke, and John Tegeler.

KWU features a line-up predominately from Smith Center High School; guard LaVerle Martin and forwards Paul Peters and Jack Stroller are all SCH graduates. The Coyotes' 6-3 record leaves them tied for third place with C of E, a well-balanced quintet.

Bethel holds fifth with a record of 5-4, Ottawa and Southwestern are deadlocked for sixth, Baker is 3-6, Sterling 2-7, and Friends 1-8.

The league appears well balanced this season, and the eventual champion could very conceivably lose four games.

An independent, St. Benedict's, currently sports the top record among the state's colleges. The Ravens' 12-2 record, if continued at that pace, would be good enough for them to challenge for the right to represent District 10.

Looking ahead to the District 10 play-off to determine the representative at the NAIA tournament in Kansas City, Washburn is currently leading the CIC, but any of the teams may represent that league as their race is just getting started.

All things considered, this season is one of the most interesting District 10 has produced in several years. As of now, any one of nine teams may win the trip to Kansas City.

A final football note: Dennis Lambert of Kansas Wesleyan was mentioned on the NAIA little All-American team as a defensive halfback. Lambert did not play against McPherson this year because of a leg injury.

Bulldogs Upset By Baker Now Tied With Bethany

The Baker University Wildcats topped the McPherson Bulldogs last Friday night in a game played at Baldwin. Baker copped its third KCAC victory against 6 losses by a 75-70 score. The Bulldogs' record is now 7-2 in conference play. They are currently tied with Bethany for the conference lead.

George Czaplinski was the high point man for the Macollege team with 29 points. Marion Enke added 22 points. Carpenter led the Wildcats' scoring with 25 points.

Japanese, African Art On Exhibit In Friendship

By Linda Kurtz

An Oriental atmosphere, created by the Japanese and African art exhibits in Friendship Hall, pervades the Macollege campus this month. The Japanese prints, shown again this year due to popular request, represent various periods in the history of Japanese art.

The extreme sensitivity and awareness of life characterize the delicately contrived line drawings and washes of well-known Oriental artists. Illustrating that the eastern person has time to stop and contemplate is the meticulous attention to details.

McPherson College students have the opportunity of obtaining these prints at very low

cost. All are for sale, and may be ordered by contacting Mary Ann Robinson by phone or through the campus mail. The prints will be delivered during the first week of March.

Along with the Japanese prints are four showcases in which examples of African art are being displayed. Several pieces of hand-carved ebony and a large variety of colorful basketry make up this part of the exhibit.

The items in the African display are all from Nigeria and have been loaned by Larry Elliot, Mr. Elliot has recently returned from missionary service with the Church of the Brethren in Nigeria and is now assistant business manager of Macollege.

Heart Sister Week To Be In February

By Linda Kurtz

Mysterious slamming of doors, furtive footsteps scurrying down stairs, and muffled laughter will color the scene in the women's dormitory during the week of February 8-14.

During this time Dotzour Hall coeds and off-campus women will participate in the traditional Heart Sister Week, an annual affair at Macollege.

When every girl has drawn a name, the fun begins. An unmade bed magically becomes the epitome of neatness under the hand of a secret Heart Sis-

ter. That dusty dresser shines brightly after a visit from one of the Sisters.

Small, inexpensive gifts may also be included in the week of friendship. These coeds living off campus may pick up their gifts at the Information Office in Mohler Hall.

The week's activities will culminate in a Valentine's Day doughnut breakfast in the Cafeteria Sunday, when each secret Heart Sister will be revealed.

For the girls not participating in the Slater Food plan, the cost of the breakfast will be \$4.6.

McPherson College Y Offers Student Activities

McPherson College "Y" offers students many activities. Group discussions which encompass various aspects of college life are held each Wednesday evening at 6:45 p.m. Leaders guiding discussions in the future are Marvin Nance, Don Flory, Janis Yoder, and Maralee Strom. An all-group session is scheduled for the near future which will include highlights of Mike Brown's, senior Wichita, year abroad. February plans include the movie, "Battle Hymn".

The MCY has put into effect several new programs under the direction and control of committee leadership. The Work Camp committee is headed by Donna Gocheour, freshman, Woodstock, Va., and consists of the following members: Carolyn Pieratt, Eileen Butler, Steve Rogers, and Malcolm Cheek. These members have been corresponding with several civic organizations in Wichita for a proposed work-camp. "Operation Knock-knock had to be called off due to bad weather.

Junior Hendricks junior, Kingsley, Iowa, leads the Service Committee; other members include: Barry Haldeman, Mark Werner, Pat Howell, Julie Standafer, and Dottie Wine. They are in the process of organizing programs in conjunction with McPherson High School counseling department and the local YMCA.

Another unique Fund Raising committee is headed by John Lade, senior, San Pedro, Calif., the students working on it are: Terry Reyher, George Jones, Mary Johnson, and Rose Marie Loveless. They are in charge of the February movie; also and international bazaar is being organized which has proved successful on a number of college campuses.

A final committee is in the process of organization concerning a spring banquet, for all paid members, to culminate the year's activities.

Professor Stern's office is a center for information about summer travel opportunities available through the National

YM-YWCA organization. Information concerning travel and study opportunities such as Russian and Japanese tours are available.

Any student interested in joining MCY may contact an officer for details:

Co-Presidents, Carolyn Pieratt, Art McAuley
Co-Vice Presidents, Barbara Bollinger, Roger Schrock
Co-Secretaries, Anjie Benton, George Snavely
Co-Treasurers, Dottie Wine, Dick Welch
Co-Publicity, LaVonna Howell, Bob Fox

The faculty advisors are: Professor Irven Stern, assistant professor of Philosophy and Religion, Dr. David Eiler, assistant professor of Philosophy and Religion, and Dr. Wayne Miller, assistant professor of Speech, Philosophy and Religion.

Any member of the McPherson College community (students, faculty, and staff) is eligible for membership in MCY by assenting to its purpose and agreeing to support its program through personal participation. This year a membership pledge of \$2 is required to be used for "fair share" payments to state and national associations of the student YMCA and YWCA, to support World Student Christian Federation, and service projects approved by MCY.

MCY also offers a magazine at special rates geared to the interest and benefit of college students. "Inter-collegian", the official magazine of the Student YMCA-YWCA, can be purchased for the school year.

Production Directors Wanted By Alpha Psi

Alpha Psi Omega, Macollege dramatics fraternity, anticipates an increase of interest in the laboratory theater program for this coming semester. Anyone interested in directing a production should contact Mr. Reyher or the Alpha Psi Omega steering committee at the earliest date.

Dance Contest Added To Last After Game Dance

Plans have been made for the last after-game-dance of the season which will be held in the S.U. basement, tonight, following the Bethel game. This is the final home game scheduled for a weekend night and is the last chance the Social Committee will have to sponsor this type of dance.

Lynne Swanbeck, freshman, Toledo, Ohio, will head the dance committee, which is planning to use special music and effects for dancing provided by Dave Weaver, freshman, Elizabethtown, Pa.

Cakes and cookies will be served at the informal dance which will provide for both fast and slow dancer's tastes.

A special attraction to be added to this final dance will be a student sponsored dance contest.

The contest will be open for all Macollege students and their

dates, and will be in both fast and slow dance categories. More details about the contest will be announced at the dance.

Jobs Now Open On Spec Staff

Attention writers, creative thinkers, journalists or any other type of interested student! The editorial staff of this paper is currently adding new staff members and reporters to the Macollege Spectator staff.

Positions are now open for assignment and news-beat reporters, part time typists and copywriters, and assistant photographers.

Any old or new student who has had experience in Journalism, or who would like to obtain some worthwhile knowledge and experience while working on an active small college newspaper is asked to contact Ron Cassidente, Campus Editor, or any member of the Spectator staff.

People who would like to obtain credit for working on the Spectator may do so by enrolling for a one hour course of Reporting Practice while working on the Spec.

Students can be assigned beats or stories in fields that interest them most, or may report general stories and news around campus and the surrounding area.

Typists or copywriters who would rather not report can help prepare stories for typesetting and printers on Sunday, Monday or Tuesday nights.

New photographers will gain experience working with the school's Polaroid camera, capturing candid shots of games and student activities that will appear in the Spec this semester.

Chemist Lectures About Solar Energy Problems

Editor's note: Dr. Clark E. Bricker, professor of analytical chemistry at Kansas University, gave two lectures at McPherson College several weeks ago. The following account by Dr. DeCoursey gives the main content of his lectures.

By Dr. Wesley DeCoursey

McPherson College students recently heard Dr. Clark E. Bricker, professor of analytical chemistry at Kansas University, speak on some of our world's foremost technical problems.

His title was "Solar Energy and the World's Energy needs," however he pointed out that in our complex world other problems are tied together in the warp and woof of living.

He stated that the world's population graph shows 1.6 billion in 1900, 2.4 billion in 1950, 3.9 billion in 2000 and 7 billion in 2050.

The population explosion will require great amounts of food, food distribution, water to drink, water to irrigate the land, and behind it all, a tremendous need for energy to accomplish these things.

Dr. Bricker then proceeded to present an analysis of how much energy man has used of the world's resources of fossil fuels and how much we have left, and finally the obvious need to find new energy sources.

Even atomic fission of uranium can only prolong for a short time the need for a truly unlimited source of energy.

The process of fusion of hydrogen or deuterium to form helium is the world's hope of unlimited energy, but it is an extremely difficult process to control and produce.

In the afternoon lecture on "photochemistry," Dr. Bricker

described some of his research in this field of chemistry.

He pointed out that industry commonly uses ultra violet light to brominate saturated hydrocarbons through the mechanism of free radicals and that the photography industry is dependent on a photochemical reaction on silver halides in the film.

Dr. Bricker's research has led to a battery that does not run down, which involves having a halogen in the light break up to free radicals and recombine in the dark. This produces electrical energy when properly designed and uses up only the light energy that falls on it.

Committee Will Help Select New President

The Board of Trustees of McPherson College has invited a committee of faculty members to aid in the selection of a new president.

The faculty members chosen were Dr. Harley Stump, professor of English, Dr. John Burkholder, professor of biology and Dr. Wesley DeCoursey, professor of chemistry.

The committee will act only as advisors to the Board of Trustees. All faculty members were given an opportunity to suggest candidates for the office of president.

As yet the Trustees have made no contact with prospective candidates.

KWU Wins Trophy

McPherson College valiantly fought to retain the traveling trophy awarded them last year in the Red Cross Bloodmobile Contest — we lost despite a total of 169 pints of blood. The battle was won by Kansas Wesleyan University by a narrow margin of 3 pints. Kansas Wesleyan gave a total of 172 pints. The contest was held last October 12, 1964.

The trophy will be presented to Kansas Wesleyan in February. If a college wins three consecutive years they are allowed to keep the trophy. Last year McPherson College won the contest with 161 pints of blood as contrasted with the 169 pints given this year.
