Melhorn Visits Macollege To Plan For Next Year

President elect J. Jack Melhorn, arrived on campus yesterday afternoon and will be here through tomorrow.

This morning in assembly he was scheduled to be introduced to the student body, and this afternoon will be meeting with the Administrative Committee.

At 6:30 this evening he will meet in the Student Union with faculty members and their wives over dessert.

Tomorrow afternoon he is scheduled to meet with the Executive Committee.

Prof. Melhorn is on campus for the purpose of meeting with

the Administrative and Executive committees to make plans for next year and to get acquainted with students and faculty members.

Prof. Melhorn is presently serving as mayor of LaVerne, Calif. He was director of admissions at LaVerne College from 1949 through 1964 and is now acting chairman of the social science division.

He is a graduate of Elizabethtown (Pa.) College and Yale University Divinity School. He has an M.A. from the University of Southern California and is now a candidate for a Ph.D. in sociology at U.S.C.

Officers Elected for Mac Association of Professors

Dr. Gilford J. Ikenberry, Jr., professor of biology, was elected president of the recently organized local chapter of the American Association of University Professors. The group was established on the McPherson campus at an organizational meeting March 23.

Dr. Harley Stump, professor of English and Literature, was elected vice-president; Dr. Wayne L. Miller, associate professor of speech and director of religious life, is the secretary-treasurer.

After the McPherson chapter obtains its charter from the na-

tional organization, the local group will be affiliated with both the state and national divisions. Dr. Ikenberry will serve as delegate to the Kansas Conference of the A.A.U.P.

According to Article one of the constitution, the purpose of the Association is "to facilitate a more effective cooperation among teachers and research scholars in universities and colleges for the promotion of the interests of higher education and research, and in general to increase the usefulness and advance the standards, ideals, and welfare of the profession."

Mac Faculty Plan Itinerary

Several faculty members on the Macollege campus are planning exciting itineraries for the 1965-66 academic year.

Dr. Wesley DeCoursey, professor and head of the chemistry department, has received a Fulbright-Hayes grant to lecture in a Pakistan university during the 1965-66 school year.

He will spend next year on sabbatical leave from McPherson. Dr. DeCoursey will teach at Jinnah College in the seacoast city of Karachi.

Mr. Sai Kwang Lee, assistant professor of chemistry, will serve as acting head of the chemistry department in Dr. DeCoursey's absence.

Guy Hayes, director of admissions, is planning a tour of Europe next year with his family. They plan to sail for Europe on Aug. 13 on the S.S. United States and return by plane Oct. 1.

While in Europe the family will visit their son and his wife. He also plans to visit several European universities where he will study the contrasts between selected education and mass education.

After returning to the United States, he plans to spend several months visiting American universities. He will observe the total admissions process of solicitation, selection, screening, and record testing of students.

Mr. Hayes will return to his job as director of admissions on Feb. 1, 1966.

Edith Martin, assisting professor in business and English, has accepted a position at Coleman's Manufacturing Company in Wichita for next year. She will be working in the budgeting and accounting department and plans to live in Wichita.

Miss Martin has received a study fellowship in the area of accounting at Bloomington, Ind., at the University of Indiana. She will follow through with this fellowship and will not take up her new responsibilities in Wichita until her summer educational experience is completed.

Professor S. M. Dell, professor of industrial arts education, will be retiring after this school year from his full teaching load. He will receive a citation from McPherson College for rendering a long time service to the school. He will also receive a national citation in recognition of his service at the Church of the Brethren Annual Conference in Ocean Grove.

Professor Robert Porter, assistant professor of German and literature has resigned to pursue study toward his doctorate degree. Mr. Jan van Asselt, Berkeley, Calif., will replace him as Associate Professor of Languages.

Band Will Give Final Concert

McPherson College Concert Band, conducted by Prof. Jones, will present a concert in Brown Auditorium, Fri. April 30, at 8:00 p.m.

Three numbers on the program will feature student directors, Larry Kitzel, Omaha, Neb., Larry Blair, Kansas City, Mo., and Merlin Grady, Waterloo, Iowa, all seniors in music education with an instrumental major.

The program includes works by Alfred Reed, Vincent Persichetti, Prokofiev, Shostakovich, and Sousa. Admission is free and the concert is open to the public. This is the final concert of the year.

Convocations Calendar

Tuesday May 4: Awards Assembly.

Friday May 7: "Becket," returning deputation students.

Coming . . .

Friday, April 30—MCY Picnic, 5 p.m. Band Concert, 8 p.m.

Saturday, May 1—Movie, "Butterfield 8", 7:30, Brown Auditorium, Spring Formal, 9 p.m., Student Union.

Sunday, May 2—Senior Recital, Lee Harris, 2:30, Brethren Church.

Monday, May 3—Saturday, May 8—Fine Arts Festival.

Wednesday, May 5—Laboratory Theater productions.

Church Events

Morning Worship (10:05 a.m.)

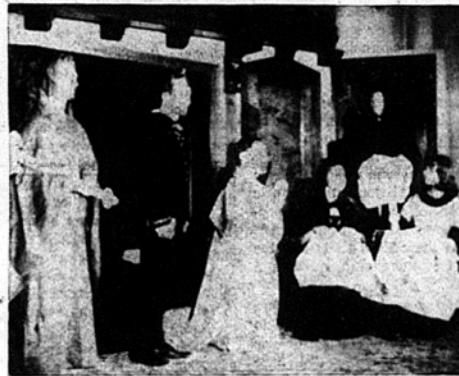

May 2: "To Drink or Not To Drink" - Rev. Bomberger.

May 9: "Benediction" - (Grace of the Lord Jesus Christ) - Rev. Bomberger.

May 16: "Sex: the Bible vs. Playboy" (Mother's Day) - Rev. Bomberger.

Evening Worship (7:30 p.m.)

May 2: "McComb, U.S.A." - Report from students who worked in Mississippi during Easter vacation.

The traveling cast of "Becket" left on tour April 24 and will be returning to campus May 2. "Becket" will be presented in assembly May 7.

Drama Department Plans More plays

Anticipating renewed interest in dramatics after the Easter recess, the dramatics department has scheduled for the coming weeks several presentations in both laboratory theater and major stage productions.

On tour from April 24-May 2 are the cast members of Jean Anouilh's "Becket," to be staged throughout Missouri, Iowa, Minnesota, and Kansas.

Ken Dauer, Ron Cassidente, Velma Hoyer, Ellen Sell, and Dennis Davies will enact the stirring conflict involving church and state during the reign of King Henry II of England and his Archbishop of Canterbury, Thomas A. Becket.

According to Loren D. Reyher, professor of speech and dramatics, "Becket" presents a challenge to both actors and audience because it deals with a question fundamental even in contemporary thought; whether or not the state has the right to discipline clergymen who have committed crimes outside

the church.

"Becket" will be staged on campus in Brown Auditorium Friday May 7 during Chapel.

Besides sponsoring the deputation tour, the dramatics department will present two laboratory theater productions on Wednesday, May 5.

"Any Wednesday," a recent Broadway hit, will be staged and directed by Colleen Gearhart, senior, McPherson. Her cast includes Jane Funk, Harriet Swinger, Jim Lambert, and Charlie Dadsman.

On the same bill is an adaptation of Carson McCuller's short story, "A Rock, a Tree, a Cloud," directed by Vance Alexander, senior, Geneseo. Taking the roles are Gary Wilson, Rusty Birchard, David Heffley, Curtis Christy, Steve Larson, and Mark Werner.

Prof. Reyher reminds everyone who is interested in dramatics that rehearsals begin Monday, May 10 for the dramatic recital to be given May 15.

Teaching Program To Undergo Change

"The first major change in the professional semester for student teachers since the block program was formed will be initiated next school year," Dr. Dayton Rothrock, professor of education and psychology said. "It is an attempt to make a better combination of methods and content and of theory and practice."

Student teaching assignments will be made in the spring. The student teacher will then be required to do his opening week of observation in his student teaching situation.

"The major change will be that the student teachers will observe one day a week in this school during the first seven weeks of classes," Dr. Rothrock said. "Then there will be an eight week period of student teaching followed by three weeks of classes with one day of observation per week so that the student can see the semester being ended in his student teaching situation."

"A concerted attempt will be made to establish a closer working relationship with the supervisors over this longer period of time," Dr. Rothrock said. "The new program should help the supervisor and student teacher to become better acquainted. It should also help the student teacher become better informed on the school's program and organization and see the students develop over a longer period of time."

More effort will be made to teach the methods material during the student teaching period in the weekly seminar classes.

"Student teachers will be allowed to enroll for eight hours of student teaching in the block

if they so desire. Some additional work will be required for those that enroll for eight hours instead of six," Dr. Rothrock states.

An assessment of \$10 will be made next fall to cover additional expenses occurring during student teaching. Most of the charge will be used for travel expenses to the students that are assigned out of McPherson and for the Teacher Appreciation dinner for all supervisors.

Student teachers having additional questions may contact the personnel in the Education Department.

Mac Profs Get Grants

Two McPherson College professors have been awarded National Science Foundation (NSF) grants for the coming summer.

Dr. Wesley DeCoursey, professor of chemistry will attend a five-week NSF Institute at the University of Minnesota in Minneapolis. Dr. Gilford Ikenberry, professor of biology, has received an NSF grant to do research at Oklahoma State University at Stillwater.

During the five weeks from June 14 to July 16, Dr. DeCoursey will be involved in an Advanced Inorganic Chemistry Institute. The Institute will include college teachers from various parts of the country and will be led by professors from several universities. The purpose of the institute is to acquaint chemists with the latest

(Continued on Page Three)

Formal Will Create Spring Atmosphere

By Linda Kurtz

Cool gardens and a blamy spring evening will be the enchanting setting for "Apple Blossom Time," Saturday, May 1, from 9-12 in the Student Union.

To create a misty impression of spring, decorations of pink and white will be simple. Apple blossoms cascading down windows and scented candles will evoke a sense of the outdoors. Punch will be served from a milk glass punch bowl.

George Hunt and his quartet, which was so well received at last year's spring formal under

a different name, will provide music for dancing.

The dance committee wishes to thank Prairie Gardens for the trees and McPherson Floral for flowers used in decoration, and to remind students that there is no special admission to the dance.

With Kathy Kienberger acting as general chairman, the dance has been planned by the decorations committee headed by Joy Lybrook; publicity, by Rayna Hamm; refreshments, by Mary Ellen Scott; and clean-up, by Doug Rapp.

Two Films to Be Shown For Fine Arts Festival

Two films will be shown next week in conjunction with the Fine Arts Festival. On Monday the French art film "Last Year at Marienbad" will be shown and on Thursday "In a Dark Time."

"Last Year at Marienbad" is unique in that the events, as they are portrayed, are not only shown as they happened, but as the characters would have liked them to happen.

The past is fused with the

present and the future, and the real scenes with those imaginary ones in the minds of the characters.

"In a Dark Time" presents a wide variety of readings of the poetry of Theodore Roethke, a contemporary American poet. With the readings, Roethke gives illuminating remarks on the source and function of poetry.

"In a Dark Time" will be shown twice on Thursday to avoid conflict with the night classes.

Group Felt Tension of South

During Easter vacation nine students, Beth Brumbaugh, Carolyn Lehman, Robert Albin, Steve Rogers, Norman Howell, Roger Schrock, Dan Zimm, Malcolm Cheek, Charlie Horner, and Robert Porter, assistant professor of English and language, worked in McComb, Miss., taking an economic survey in a Negro community. The following editorial gives a few of the observations of one of the students.

By Robert Albin

From what little time our group was present in the South, I think we were somewhat able to notice the overall feeling of tension. We were fortunate to be able to work at a time when dissension between races was at a minimum.

We were told and were well aware that the situation has improved greatly since last year, although there is to be a regression during the summer.

The leaders there informed us that months prior to this time, Negroes or civil rights workers were in danger to step out of their houses after dark; now, there is little need for this precaution.

The friendship shown us by these people was unexpected

and appreciated. There were those who were suspicious of our activities, and this we expected, but we were pleased that the majority of persons welcomed us warmly, and many expressed their thankfulness that someone was taking an interest.

Our duties were to go from house to house, taking an economic survey to find the percentage of unemployment, the educational achievements, and the voting privileges.

Most of the homes, except for housing projects, were run down, but clean, the projects being more modern.

The education is very poor; many persons had only an eighth grade education or less. The educational facilities are equally as bad, most students having no more than two books apiece.

Voting privileges are practically unknown in the community with most people discouraged or apprehensive and many continuing to try with failure or imprisonment resulting after each attempt.

Many persons told us that the whites went to the extent of not allowing several large businesses into town, because Negroes would be hired to work in these plants.

At the time we were in McComb, the white citizens were fighting against a much needed hospital, because integration would be required in the hospital after it was built.

These are only two examples of the extremist measure the whites use to enforce their subjection.

These actions might be understandable if there were any reasoning supporting them, but their belief that the Negro will take over if given the chance

is sheer lack of desire to understand. The Negroes do not necessarily want integration, but just the equal opportunity to live and do as freely as their white subjects.

We enjoyed taking this survey, because we received a picture of the situation and because we were shown kindness and respect by the supposedly hate-filled Negroes.

Any work toward the advancement of a race is work toward the improvement of society as a whole.

The Commentator Try Something Different

By C. L. Dadisman

We find ourselves in the second week after our Easter vacation, and for most of us it is a week in which we recover from fifth degree burns, engagements, disengagements, tornadoes, hurricanes, hemicanes, and probably a few problems, too.

It seems as though we needed to come back to Mac to recuperate from the vacation we needed to relax from school.

Upon my return from Iowa to this place, I was so pleased to discover the campus very much in the same condition as it was when I left this hallowed ground.

The ceiling of the lounge in Vaniman Hall was falling down, the bookstore wasn't always open during its open hours, the coffee line at the snack bar following chapel was the same length, cigarette butts outlined the campus in various shades of white, Miss Harris was complaining about her car, and Pop Ruhser was watering the sidewalks.

It was, indeed, a comforting thought that nothing had changed during the eleven day vacation. I was perhaps afraid that a miracle metamorphosis had taken place and that some things had changed. But, alas, all was in the same time-worn rut.

Well! you say, he finally got to his topic. And you are right. I am commenting about running through life, through col-

lege, in the deep rut that many thousands of others have run through in their lives.

I doff my hat to those who have the imagination, the courage, the fortitude to try something different, something on their own.

To put this on our level here at college, I admire the person who says, "That's all well and good, Mr. Professor, but...," or the student who doesn't sit through a class sucking his pencil wishing he could think of something intelligent to say.

Never hesitate to try something that you don't know what the outcome will be. Never hesitate to take the first step or the first mile of steps toward that which you believe in, or that which you would like to attempt. "He who hesitates is lost."—Richard M. Nixon.

In an attempt to thwart the feeling of vagueness in your mind, another way of saying the same thing might prove fruitful. Don't be afraid to be different.

It has been to our advantage that, since man himself was created, individuals have been different and have had the imagination and courage to be different, for because of them, we have the advancements that we enjoy today. For instance, the atomic bomb, the Mets, the John Birch Society, and many other worthwhile things.

College provides the most opportunity. (Continued on Page Four)

Stuco Should Seek Student Participation

Dear Spec Editor,

To achieve the high ideals of student government set forth by Mr. Cassidente, truly, some sort of revolution or revolt is needed at MacCollege. However, you needn't get puffed up, for you don't hold this arant notoriety exclusively.

The president of the SUI Student Senate also faces the "how to direct an effective organization" questions, as the enclosed article from the April 6 "Daily Iowan" reveals (quotes in this letter are from that article).

The D. I. article's analysis of student government points out three alternatives the governing body has traditionally had: (1) continuing past programs and activities; (2) emphasizing "student services"; or (3) a "yet untried approach of transforming the Senate into a student forum and voice for problems beyond the myopic brain of the stereotype, peep-club-oriented collegian."

As the article points out, the first is more of a rut than a road.

The second might be more useful to McPherson than to SUI where 14,000 students are more or less represented; however, Pres. Hendricks could also, by encouraging concentration on "services", obliterate any change of forming the Mac Stuco into a meaningful institution for those with concerns beyond those of the "raccoon-coated" crowd. Many services could and should be handled by a council commission.

The third alternative has had trials at McPherson, I believe, and been successful (Sunday library hours?) in contrast to the example cited in the Iowan article (approving a tuition raise, post facto). "It shouldn't matter if the Senate's view doesn't find favor with the president of the University, the Board of Regents or the CSL (Committee on Student Life).

Few dissenting voices are heard now with respect to administration policy . . . and for the Senate to assume this role would be a welcome and need-

ed relief."

No matter what alternative is followed, the council needs to deal with concerns of students and, to get their participation, make them aware of the council's attempts to deal with these concerns.

I must confess complete ignorance of what this year's council has done to make known its activities, but its predecessor went through most of the year before deciding to publish a report on its activities after each meeting, not to mention any advance notice on what the council would be considering.

Perhaps the Spectator is not timely to be of use (or the council meeting is untimely) for council publicity. Perhaps no council activities have been newsworthy (while bowling gets two columns); I don't recall having read in the Spec anything on Stuco activities all year till the campaign began.

If the council is significant and is not served by other publicity coverage, is not the Spectator neglecting responsibility in failing to assign a reporter to Stuco?

Perhaps more widely received would be candidate Barrows idea for regular reports at assemblies; but is monthly often enough? In electing Pres. Hendricks, did you vote for a suggestion box, through which the council can be given things to do, and reject Barrows announcements of what happened to them for a bulletin board which can be more easily avoided than chapel? However, a bulletin board would surely be welcomed by those who can read.

Another means of getting outside council participation is to ask. What little council action I saw at Mac (meaning that I saw little, not that little was to be seen) seemed excessively intra-council. Does the council draw upon the student body resources (for committees, advice, ideas) or only hope for them?

As students, we can demand anything of the Stuco (within

(Continued on Page Four)

Mac Expects Too Much Of Students

Dear Editor,

After reading a few of the latest letters regarding Mr. Butt's letter, I would like to make a few comments of my own. I am a member of the smoking and drinking group—but I sincerely hope that minds will not be automatically closed without a bit of consideration on them.

McPherson College has the right to decide whether there is to be smoking on campus and in the dormitories. In fact, I do like the sight of an unlit cigarette.

However, it still does seem to be a bit discriminatory to force smokers into the parking lots in inclement weather?

If all the smokers would either field strip or otherwise dispose of their cigarette butts, the parking areas would look somewhat better to non-smokers.

I do not wholeheartedly agree with Mr. Nettleton's idea that drinking is a messy habit. If he means it is messy when it is done to excess, he is right, but there are not that many drunks on campus.

Most drinkers here seem to be somewhat moderate, especially when compared to drinkers in other schools.

The Church of the Brethren does not condone this type of activity, but McPherson College

accepts students from many denominations, beliefs, areas of the country, and different cultures. Then M.C. wants these people to change, give up their former habits, joys, and ideas and to conform to the model Brethren student.

This does not seem fair. It seems to me that if McPherson wants to be a well-rounded, growing institution, it must learn to face the problems of getting along with persons who do not believe exactly as it does, and enjoy a different type of dissipation than the Brethren student.

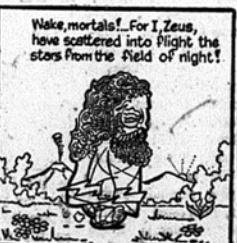

Concerning the "class" of our college, I don't believe that some of the passionate scenes which are displayed in the public areas on campus are appropriate, nor do they do anything for our "class."

This display of affection is embarrassing to many people, shows little discretion, and is generally considered to be a sign of immaturity and insecurity.

I do feel a bit silly entering in this controversy, but only at McPherson College and other such small schools could smoking be a big issue. Drinking is another problem, but it is not really a problem unless the drinkers infringe upon the rights of others.

Czaplinski Captures Ping-Pong Crown

George Czaplinski, junior, McPherson, captured the McPherson College ping-pong crown Sunday, April 25 after eliminating 16 tournament finalists.

This final tournament climaxed the ping-pong ladder the Macollege Social Committee set up in February.

The top 16 on the ladder were paired on Sunday and Czaplinski came from the losers bracket to defeat Jamie Oxley, junior, Lamar, Colo., two consecutive sets to win the title.

Earlier Czaplinski had been defeated by Oxley, who continued on to win the winners bracket of the tournament.

Third place finisher was Lynn Warner, senior, Union, Ohio, with Clarence Clark, senior, Wheaton, Ill., finishing fourth.

Prizes were awarded the two first place winners by the Social Committee. Czaplinski earned a wallet for his efforts, while Oxley won a pen and pencil set.

George Czaplinski, junior, McPherson, winner of the Macollege ping-pong tournament last Sunday.

Spring Sports Back in Action

The McPherson athletic program was back in high gear soon after the end of the Easter vacation. On Tuesday, April 20, the Bulldog tennis team downed Kansas Wesleyan by a 9-0 score at Salina. The same day the golf team beat Friends 11½ to ½ in a meet at Wichita.

On April 22, the Sterling tennis team handed the McPherson team its first defeat by a 6-3 count. The next day the golf team traveled to Newton where it won a quadrangular match, beating Bethel, Sterling, and Friends. Gene Czaplinski recorded the low score of the meet.

Also on April 23 twelve members of the track squad participated in the Southwestern Relays at Winfield. Although they did not win the event, the distance medley relay team came within one second of the school record, Ron Seaman, John Chance, Vernon Mathes, and Lynn Warner covered the 2½ mile distance in 10:58.6. Gary Coleman placed third in the pole vault.

Saturday the conference favorites from Bethany defeated the Bulldog tennis team 8-1 to drop McPherson's record to 6-2. On Monday, April 26, the golf team knocked off Southwestern in a match played at McPherson by a 15-0 score.

Treadwell Fastest On Track Squad

By Les Bloom

John Treadwell, senior, Youngstown, Ohio, is perhaps the fastest man on the McPherson track squad. He runs the 100 and 220 yard dashes and on some relay teams.

A transfer student from Tuskegee Institute in Alabama, John has run track for two years and played one year of football at McPherson. At Tuskegee he lettered two years in football and track. In 1961 John ran the 100 in 9.3 second at Tuskegee.

His track career started when he was in the sixth grade. He has always been a sprinter, although he also was a broad jumper in high school in New Castle, Pa.

John is a history major with special emphasis on American History. He wants to go on to graduate school at Howard University in Washington, D. C. After this he plans to teach

John Treadwell

history and coach track.

John's athletic career will end soon, and he looks back on it with mixed emotions. He said that there have been dark spots and bright ones too. He states one method to get in competitive shape: "Just run till it hurts, and then run some more."

In the future John plans to take up some less strenuous activities. "I'm going to take up fishing, golfing, and bowling," he sighed.

Four Teams Participate In Intramural Softball

The final intramural program of this year began yesterday when the first game in the intramural softball program was scheduled to be played.

Four teams, composed of 15-16 members, are participating this year. Bob Fox, Jamie Oxley, Laurel Patrick, and Arthur Newburger are serving as team captains.

The games will be played at the college softball diamond and will be played according to standard slowpitch rules, with 10 players on each side.

Over 62 men and women are taking part. The games will be played late in the afternoon and each team will play at least once a week.

Gary Wilson intramural program coordinator, urged all players to bring their own gloves.

The athletic department will furnish ball, bats and umpires. He also urged all participants to watch the bulletin boards for team schedules.

Mac Golfers Beat Builders

The McPherson College golf team added another victory to its record April 26 at the McPherson Country Club. The Bulldogs defeated the Southwestern College Builders 15 to 0 in a one-sided match.

Following are the individual results of the match: Gene Czaplinski, M, 39-41-80, defeated Steve Smith, SW, 46-43-89. Ancel Neuberger, M, 45-37-82, defeated Dick Swindler, SW, 52-50-102; Bob Williams, M, 42-39-81, defeated Dave Schindler, SW, 50-52-102; Phil Grove, M, 42-44-86, defeated Bob Eagle, SW, 50-46-96; George Jones, M, 46-49-95, defeated Craig Williams, SW, 55-52-107.

information in the field of inorganic chemistry.

Dr. Ikenberry will spend six weeks from May 31 to July 9, involved in research on the alternate host of the wheat leaf rust organism. The study will be carried on in association with Dr. H. C. Young, Jr., Professor of Plant Pathology, in the Department of Botany at the University.

From July 10 to August 21, Dr. Ikenberry will teach a graduate course in plant morphology at Kansas State Teachers College at Emporia. The course is an NSF institute for high school teachers.

Bowling

In the men's bowling league last Tuesday the Hawaiians recorded the high team series with 1901 total pins, followed by the '007's with 1890.

Ed Myers recorded the high series with 565 pins followed by Terry Wakoty with 537. Myers also had the high individual game with a 208 followed by Jamie Oxley with a 201.

In the Girl's league the Holy Rollers rolled the high team series with 1503 total pins. The Gutter Gals recorded 1434 pins to have the second high series.

JoEtta Krehbiel rolled the high series with 429 total pins. Next high series was Nancy Schroeter with 418 total pins. Diane Ebberts rolled the high game of the day with a score of 166. Donna Sharp followed close behind with a 161 game.

Dell Retires After 34 Years At Mac

By Ahlie Benton

"Samuel Milton Dell typifies the dedicated and committed teacher who devotes his life to the thing he believes in most. Professor Dell, known to several generations of students as 'Prof', has spent most of his academic life as a student and as a teacher at McPherson College," President Bittinger said.

Professor Dell will be retiring from his full teaching load following the completion of this school year.

Professor Dell came to McPherson College from Nebraska, his home state; he received his B.S. degree in 1926. After several years of teaching in Marion, he returned to McPherson College in 1931 as Head of the Industrial Arts Department, a position he has filled for 34 years.

"He married Miriam Wenrick in 1925. They have three children: Leona, Mary Jo, and Robert. 'Mrs. Dell has served with her husband in all his responsibilities,' President Bittinger said.

In 1937 he accepted the responsibility as Dean of Men. "For 27 years the welfare of the men of McPherson College became one of his primary concerns," President Bittinger added.

"Professor Dell has had the satisfaction of seeing some of his students enter into teaching, or other responsibilities, and become strong leaders; some have become regionally and nationally known for their outstanding

services." President Bittinger states. "He probably knows as many graduates of McPherson College as any other teacher or person related to the college."

Professor Dell has not limited his concerns to McPherson College, for he is also active in state, area, and national affairs. He is a contributing member of such organizations as the American Vocation Association, the National Association of Industrial Arts Teacher Education, the Kansas Guidance Association, the Kansas Association of Deans of Men, and others.

He was a sponsor of the Recreational Council of McPherson College for more than 25 years. He has led or participated in numerous vocational workshops and seminars in America and Europe. He is an active church member and has served in numerous church offices.

He has been active in civic and service clubs. In rotary he has been a local secretary and president; he will serve as Rotary District Governor in Kansas for 1965-66.

He secured his M.S. degree from Iowa State University; he took additional graduate work at the University of Kansas and several other universities. He has written numerous articles in his fields of preparation.

"Above all, he is known as one who is willing and eager to serve and one who carries more than his share of whatever task becomes his responsibility," President Bittinger concluded.

Hossler, Czaplinski

Mr. and Mrs. F. A. Hossler announce the engagement of their daughter, Jane, to George Czaplinski, son of Mr. and Mrs. Vladimir Czaplinski of McPherson.

Jane is a junior education major and George a junior history major at McPherson College.

An August 14th wedding is planned.

Peterson, Leinen

Mr. and Mrs. Ernest Peterson, Wichita, announce the engagement of their daughter, Jeanne, to Warren Leinen, Jr., son of Mr. and Mrs. Warren Leinen of Simpson.

Miss Peterson is a sophomore, majoring in sociology. Mr. Leinen is a junior, majoring in business administration.

An August 27 wedding is planned.

Banquet Held Saturday

An "Evening in Venice" enchanted the seniors and their hosts, the juniors, Saturday evening at the 1965 Junior-Senior Banquet.

Broiled lobster tails, baked garlic clams, water melon boats, and other exotic foods whetted the appetites of the guests while they enjoyed singing and an oral interpretation. Dancing amidst the moonlit canal waters of Romantic Venice to the music of the McPherson High School Dance Band concluded the evening.

New Officers Elected

The McPherson College Home Economics Chapter has elected its officers for the coming year.

They are: Chairman, Anita Morlan; Vice-Chairman, Carolyn Pieratt; Secretary, Jeanette Bartel; Treasurer, Glénice Frazier; Historian, Karen Johnson; Publicity, Janice Howell.

Bazaar Nets Profit

The International Fair held last week was well received by its many visitors. Of the \$2700 worth of international goods to be sold, the amount of sales totals \$750 including orders. Of this amount \$150 was earned by its sponsoring group, the MCY.

The money earned by the MCY is to be used for scholarships for students attending the Estes Conferences in Estes Park this summer.

In addition to the money, it was felt that much had been gained through this fair in the international cultural and educational aspects.

It has not been decided yet if another International Fair will be held next year.

Harris to Give Recital

Lee Harris, senior music major for from Jennings, La., will give his Senior Recital at 2:30 p.m. at the Church of the Brethren May 2.

The Sunday afternoon recital will be given on the church pipe organ. Lee will perform numbers by Dietrick Buxtehude, J. S. Bach, Flor Peeters, and Cesare Franck.

"Butterfield 8" Set Tomorrow At 6 P.M.

Elizabeth Taylor, Laurence Harvey, Eddie Fisher, and Dina Merrill star in the film "Butterfield 8" to be shown by the Social Committee tomorrow evening.

The movie will be shown at 6:00 p.m. so that it will not conflict with the spring formal.

This film is a drama about a beautiful model who patterns her life to suit her desires. The film has an authentic Greenwich Village, fashionable East Side Manhattan, and suburbs of New York background to add to the fast moving drama.

The picture is in cinemascope and color.

Joy Lybrook, sophomore, Kokomo, Ind., and Dick Welch, junior, Delhi, Ind., display items at the MCY International bazaar last weekend.

MCY Chooses Officers

In the MCY election recently held the following people were chosen as next year's officers: Mark Werner, Jr. Bern, and Kathy Simpson, Jr. Abilene, were elected co-presidents; George Snively, So., Lebanon, Penn., and Carolyn Pieratt, So. Emmetsburg, Iowa, were elected co-vice presidents.

Glenn Frazier, So. Denver, Colo., and Janet Livengood, So. Milledgeville, Ill., were elected co-secretaries; Roger Schrock, So. Harmony, Minn., and Sally Warrick, Limon, Colo., were elected co-treasurers; and publicity chairmen are Neal Lundquist, Fr. Denver, Colo., and Mary Holderread, Fr. Twin Falls, Idaho.

One of the projects that the officers of the MCY hope to get into full-swing next year is a tutoring project.

The Service Committee is interested in initiating a tutoring project centered around interpersonal relations between McPherson College students and McPherson High students.

This tutoring program would be on a voluntary basis for all participating students and they would be available from two to four hours a week to help high school students who desire special tutoring in a certain area of study.

The Service Committee plus specified professors would select "qualified" college students for this program. The high school would be responsible for selecting high school students and will have a definite part in bringing the high school and college students together for the

best mutual basis.

The program is being sponsored in order to extend the services of the "Y" beyond the Macampus and to be more of service to the local community.

Tonight at 5:00 the Mac College MCY will hold its annual installment service. The service will be in the form of a picnic and will be held at Lakeside Park.

In addition to the regular installation of new members, the picnic will also include a vesper service. The picnic will last approximately an hour and a half, so that those attending can get back in time for the band concert at 8:00 p.m.

Approximately 65 MCY members are expected to attend, and in case of rain or adverse weather, it will be held in the Student Union basement.

Danforth Foundation Holds Conferences

The Danforth Foundation is conducting a series of conferences to assess the present position of 800 church-related colleges and to discover ways in which they can become stronger.

The conferences will report on a three-year Danforth Study now almost completed.

Representing McPherson College at the conference in Kansas City on April 23 will be Dr. Merlin Frantz, Dean of Academic Affairs, Trustee Harold Mohler, and Dr. D. W. Bittinger, President.

Gale Will Address Latin Seminar Class

Dr. Thomas M. Gale, Associate Professor of History and Assistant Dean of the College of Liberal Arts and Sciences at the University of Kansas will speak in the Seminar in Latin America on May 3.

Dr. Gale has resided in Peru, Mexico, and Costa Rica, and has traveled in Colombia and Central America. For a year he was director of The University of Kansas Peace Corps project in Costa Rica.

His topic will be "Twentieth Century Latin America."

Students Experiment On Plants, Animals

By Linda Kurtz

Should some enterprising student in quest of new and various nooks and crannies on Macampus wander into a small room adjacent to the biology lab in the nether regions of Harnly Hall, he would discover, perhaps to his amazement, a number of small, caged animals rustling about in sawdust and food pellets.

Upon examining his discovery more closely, the student should find each cage labeled scientifically—but somewhat ominously—"Control Group I: Hamsters" or "Deficiency Diet: Rats."

By the same token, all varieties of plants in the botany lab bear tags with the same kinds of terse, scientific notations.

A super plan to change hamsters into rats? A small-scale greenhouse? On the contrary, the Physiology and Anatomy class and the botany students are conducting optional project

experiments as a part of their semester's work.

P and A students think their experiments involve the more patience. A plant cannot jump out of one's hands in the inimitable manner of a wriggling, frightened hamster longing to be free of his cage.

Plants do not escape from their mornings as Pat Greenway's and Ellen Sell's hamster did several weeks ago and have to be tracked down under the threat of an incomplete project.

In the biology lab, experiments range from injecting hamsters with hormones to feeding rats normal and deficient diets, and in the botany lab, from collecting plant specimens to planting different cuttings.

Budding scientists hope to add the finishing touches to their experiments before school is over, so that they might demonstrate their accomplishments before their respective classes.

Alpha Psi Party to Have Bohemian Village Setting

A Bohemian village is the unique setting for the first annual Alpha Psi Oega "Stage Door Opens On the Village" party. This campus event will be held May 8 at 8:15 p.m. in the student union basement.

There will be a charge of 50c per person. "Letters have been sent to men upperclassmen. This week letters will be mailed to men underclassmen," said Jackie Raymond, Alpha Psi president. "The following week women will have their chance. Admission will be on a reservation basis only."

Among other items, students will be entertained by live music, a jam session, a program of some top groups from surrounding campuses, dancing, and a beard growing contest. Dress appropriately for the Bohemian air of the village.

Mike Collins, sophomore, McPherson, is the general chairman; Carolyn Lehman, senior, Lincoln, Neb., and Jackie Raymond, senior, McPherson, are publicity co-chairmen; Vida Sue

Werner, senior, Winona, is in charge of refreshments.

Bryce York, sophomore, Hope, is head of lighting; Ellen Sell, senior, Conway, will head decorations; Alan Cable, sophomore, Syracuse, Ind., is in charge of clean-up; Jim Ockerman, senior, Hollansburg, Ohio, and Charlie Dadisman, junior, Nevada, Iowa, are program and music co-chairmen; and Vance Alexander, senior, Geneseo, is head of reservations.

Stucco Should Seek

(Continued from Page Two)

limits of its constitution, which we establish; even that they present to the powers-that-be a proposal for eliminating compulsory chapel attendance. But that is controversial and controversy calls for thinking, and, besides, Stucco always meets when I have my pool & ping-pong relaxation period scheduled.
