

CHAMBER OF COMMERCE CLOSES SUCCESSFUL SCIENCE HALL DRIVE

W. J. KREHBIEL, AS CHAIRMAN OF EXECUTIVE COMMITTEE, DOES ADMIRABLE WORK

The College is indebted, beyond expression, to the McPherson Chamber of Commerce for the success of the recent Science Hall Drive for \$75,000.

W. J. Krehbiel.

Mr. W. J. Krehbiel, Editor of the McPherson Daily Republican, is the one man to whom we owe our greatest appreciation for the success of the Science Hall Campaign.

Being forced to work and forced to do your best will breed in you virtues which the idle never know.

For Better American Citizens.

The American Legion and the National Education Association have co-operated to hold an American Education Week December 4th to the 10th.

The man who takes no thought of tomorrow will wake up some morning and find it yesterday.

Patronize the Science Hall subscribers.

MR. EDWARD L. PETTUS AND MR. P. R. DAPRON PLAY IMPORTANT PART IN SUCCESSFUL DRIVE.

Campaign Headquarters Still Open.

Mr. Edward L. Pettus and Mr. P. R. Dapron of the National System Company of Minneapolis, Minnesota, who were employed for two months by the Chamber of Commerce to take charge of the campaign, were also very instrumental in making the drive a success.

On November 2, when these two men closed their eight weeks of strenuous services, the amount of subscriptions had already passed the \$67,000.00 mark with late donations still coming in.

While the active part of the campaign is over, however, the campaign headquarters are still open with Rev. R. S. Waggoner, the Field Secretary of McPherson College, in charge.

Patronize the Science Hall subscribers.

MEMBERS OF COLLEGE DEBATE TEAMS CHOSEN

FOURTEEN CONTESTANTS ENTER TRY-OUT

Bishop, C. Brubaker, Fleming and Waas Win First Places—Anna Lengel and D. Brubaker to Be Alternates.

In the debate try-out which was held last Wednesday the following persons won places on the college debate teams: W. E. Bishop, C. Brubaker, L. A. Fleming, and B. F. Waas. The alternates are Miss Anna Lengel and David Brubaker.

The judges in the try-out were Miss McGaffey, Dr. Harnly, and Professor Studebaker. The other contestants were Estella Engle, Ada Kurtz, W. W. Gish, Ralph Loshbaugh, Samuel Maust, J. L. Mohler, O. J. Swanders, and Roy Terflinger.

DR. KURTZ TO LEAVE FOR LECTURE TOUR

Dr. Kurtz will leave McPherson December 15 for a three weeks lecture tour thruout Central and Southern California. He will give lectures at La Verne, Lindsay, Fresno, and Modesto.

ORCHESTRA TO GO TO CANTON

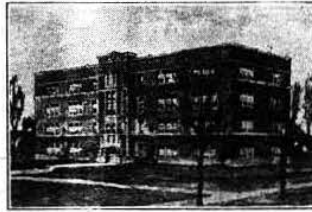

The McPherson College Symphony Orchestra will go to Canton next Monday evening to give a program in the auditorium at that place.

EVOLUTION OF THE NEW SCIENCE HALL

IDEA ASSUMED DEFINITE FORM FIVE YEARS AGO

Actual Steps Taken By Trustees In 1919 to Erect \$160,000 Structure.

Thirty years is a long time for an idea to evolve into a reality. Yet it took that long for the carefully cherished dream of Dr. Harnly's to materialize, the dream of a new Science Hall. His scientific mind saw the

PROSPECTUS OF NEW SCIENCE HALL.

need of such a building before there was a sign of a laboratory, physical apparatus, or even so much as a microscope. The Science department, consisting of chemistry, physics, botany, zoology, and geology, held forth in a single room thirty years ago, which was divided into two recitation rooms.

But even that arrangement did not prove entirely satisfactory for with the further growth of the institution and the recognized standing of McPherson College by other institutions and organizations of the United States the idea of Dr. Harnly's came to be a real necessity and a Science Hall we must have.

This idea assumed the form of a definite plan about five years ago. At that time the plan was to retain the chemistry department in the administration building and erect a Science Hall to accommodate the other science departments.

(Continued on Page 1.)

DR. KURTZ IJKED IN MICHIGAN

One of Prof. Mohler's friends in Michigan, after hearing Dr. Kurtz at the State Sunday School convention of that State some time ago, writes as follows: "We had a splendid time at our State S. S. Convention. We were unusually favored by hearing Dr. Kurtz. He is surely wonderful, and I am simply bewildered in attempting to tell you what the people thought of him."

"People are already wondering if he will attend our Convention at Lansing next year. We will need no further advertisement if he does. Coupled with his breadth, and depth, and scope, and magnanimity,—was his simplicity which made him all the greater. It was surely a rare privilege that we enjoyed."

A dollar spent with Science Hall subscribers has more cents than a dollar elsewhere.

FACULTY SOLICITS IN SCIENCE HALL DRIVE

During the last two weeks of the Science Hall Drive the Executive Committee directed house to house canvassing and personal solicitation. The College Faculty members gave a great deal of their time to this work and the financial results of their efforts were large.

Be master of yourself.

SPLENDID INTEREST TAKEN IN REVIVAL

REV. AND MRS. AUSTIN, THE COLLEGE EVANGELISTS, CONDUCTING EXCELLENT MEETINGS

The revival meeting under the leadership of Rev. and Mrs. Oliver H—Austin is progressing splendidly. There is an excellent interest taken in every meeting, the attendance is very good and keen attention is given to the Word preached.

The College and church of McPherson are very fortunate in being able to secure these people to conduct this special meeting. Their winsome personality and agreeable attitude captivate all with whom they come in contact.

MALE QUARTETTE GIVES PROGRAM AT WINDOW

Under the auspices of the McPherson Y. M. C. A. the College Male Quartette gave a program last Tuesday evening at the Window, High School at a joint meeting of the Y. M. and Y. W. C. A.

BECKNERS LIKE CHICAGO U.

Late word received from Professor and Mrs. W. O. Beckner, who are now students in the University of Chicago indicates that they are busy and happy in their work.

LIBERAL DONATIONS MAKE SCIENCE HALL PROJECT A REALITY.

OVER FOUR HUNDRED NAMES ON LIST OF SUBSCRIBERS

The liberal donations made by the citizens of the community, and the students and alumni of the College to the appeal for funds to build the new Science Hall, were instrumental in raising over \$60,000.00 toward making the erection of the building a reality.

A list of the subscribers of the fund follows:

Table listing subscribers and amounts: H. J. Harnly and family 3,415; F. A. Vaniman 2,000; J. J. Yoder 1,500; Poehler Mercantile Co. 1,000; A. J. Shaw Investment Co. 1,000; McPherson Mercantile Co. 1,000; McPherson & Citizens Bank 1,000; Wall-Rogalsky Milling Co. 1,000; Lake Superior Lumber Co. 1,000; Strain Grocery Co. 1,000; Pioneer Motor Co., Jones & Gibson 1,000; McPherson Lumber Co. 1,000; A. K. Curtiss 1,000; Mrs. J. G. Hill 1,000; Dr. W. C. Heaton 1,000; Mrs. Amanda Fahnestock 1,000; Dr. D. W. Kurtz 1,000; W. R. Carlsson 1,000; W. J. Krehbiel 1,000; Dr. J. W. Fields 1,000.

(Continued on Page 2.)

FINE ARTS FACULTY MEETS

The Faculty of the School of Fine Arts met Thursday evening in the regular monthly session. A committee from the College Faculty was entertained to consider plans for a closer liaison with the college department and for a greater solidarity of the various departments involved.

V. M. TO PUT ON DISARMAMENT CONFERENCE IN CHAPEL SAT. AT 8:30 P. M.

Representative Men of the College to Take Part of Big Leaders.

Do you know what is going on at Washington? Do you know what Japan experts from the Conference. How has she taken the American proposal for Naval Disarmament? Will she withdraw from China? How about Great Britain? Is her claim for reservations to the American proposals justified? Can France disarm morally and keep her army up to its present standing? What does Italy want? Is there any chance for China to get her claims?

Come to the chapel Saturday evening and find out what the Conference is doing. Wine, Houser, Tracey, Roy Brachnell, Bishop, Stover and a few more of our fellows know what England, France, Italy, China, and Japan want and they will tell you about it. Hughes, Briand, Baron Kato, Balfour, Schanzer, and Wellington Koo will all be there.

Conference called at 8:30 promptly. Admission 15 cents, or two for a quarter provided you bring "her" with you. Get the information you have been wanting and have not found.

Little words of wisdom
Many words of bluff,
Make the teachers tell us,
"Sit down, that's enough."
The majority of us can "get by" with horse sense but the poor Freshie who is not a stable thinker can't even get in this category.
A dollar spent with Science Hall subscribers has more cents than a dollar elsewhere.

By-the-Way

The Adelpian Sisters have found a beautiful homey way of reading the Gospel of St. John, which the Austins requested should be read during the revival services. Each night as the 10 o'clock whistle blows all of the girls drift into the parlor and listen to one of their number read one chapter of the book. Thus, by reading one chapter each evening, when the services are over they will have read the entire book as one family.

Other schools are doing it, why can't we? What? Be vaccinated.

Ethel Whitmer's mother is staying with her in Arnold Hall during the revival meetings.

A dinner was given in the dining hall last Saturday evening in honor of Miss Rush. Those present were: Nellie Derrick, Eunice Wray, Estelle Engle, Ruth Pentecost, Ada Rush, Sam Merkey, Roy Neher, Ralph Strohm, Ralph Holsinger, and Prof. Unruh.

The Spurgeon sisters' mother, Mrs. J. B. Spurgeon, and their sister, Mrs. W. H. Brenton, arrived from Iowa last week for a short visit with the girls.

Misses Watkins and Vanscoyoc and Messrs. Watkins and Vanscoyoc were guests in Arnold Hall Sunday.

Matron Trostle received a letter from the Clinton Detters in Canada. They say they have had zero weather for over five weeks and that the thermometer has gone as low as 30 below. Pretty chilly, but they find it quite easy to keep cozy warm, as they do not have Kansas winds.

Miss Anne McVey is in New York City studying Child Welfare in a Civic Reform Club.

Eunice Frey, Glenna Wrightsman, and Eshelman motored to Ramona

last Saturday with the Stricker brothers.

Misses Hadley and Howard entertained at a 6 o'clock dinner Saturday the 26th. Covers were laid for Misses Edgcomb, Sondergard, Heckman, McAvoy, Gish, Peck, and Fasnacht.

Harry Gilbert is going to teach in the Chemistry Department of the University of Southern California next summer. Mr. Gilbert received his A. B. from M. C. in '20.

Miss Alta Mohler entertained Misses Ira Brammell, Mildred Fisher, Ruth Martin, Mrs. Austin, Messrs. Roy Brammell, Earl Fisher, Rev. Austin, and LeRoy Doty at a dinner in Adelpian House Sunday noon. The occasion was the birthdays of Mrs. Austin and Miss Mohler.

Last Wednesday P. M. at 4:30 a jolly bunch of students jaunted out to a pretty place northeast of town, built a campfire, and sat 'round it eating lots of good things. The lucky ones were: Misses Ring, Vaniman, Jones, Carpenter, Wrightsman, Leatherman, and Messrs. Unruh, Clark, Kelm, Jones, Eshelman, and Rupp. Late in the evening they killed the fire and returned home.

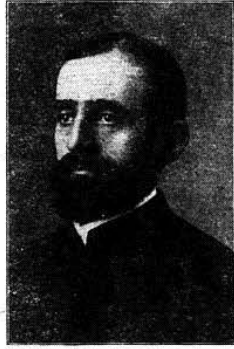

DALKE HAS GROWING SCHOOL

Professor D. L. Dalke, A. B. 1910, reports success in his new position as dean of Missouri Wesleyan College at Cameron, Mo. The college has pulled its enrollment up to 350. Last summer a new dormitory was built and another building, a science hall, is in contemplation. Mr. Dalke has spent many years in public school work and is thoroughly enjoying the change to college administration. After finishing the college course in M. C. he took his A. M. at K. U., having been elected class fellow. He is a classmate and friend of Professor Craik.

Among Our Graduates

Samuel J. Miller, '95, another of our alumni who has attained high rank in the educational field, was born on a farm in LaGrange county, Indiana, on December 2, 1863. His early educational advantages were limited because of the fact that he had to spend a great deal of his time working on the farm.

About the time his school preparation had enabled him to take up the teaching profession, his parents moved to McPherson county, Kansas and settled on a farm, living for a time in a "dug-out." For several

S. J. Miller, '95.

years Mr. Miller engaged in teaching, farming, and clerking. His ambition to attend the State Normal at Emporia was never realized because of his meager supply of money. Finally in 1889 he entered McPherson College for the spring term of twelve weeks. After a college career that was characterized by the utmost sacrifice and self-denial, Mr. Miller graduated with the A. B. degree in 1895. Post-graduate work in Kansas University entitled him to the Master of Arts degree in 1897.

From 1897-1899 he taught in California. One year was spent teaching in Lordsburg (now LaVerne) College. In the summer of 1899 he became field worker for McPherson College and after one year at this work became professor of English in his Alma Mater, which position he filled for the next seven years. Because of ill health he secured a leave of absence in 1907. Three years later he returned to M. C. after having spent one summer in the University of Chicago. During the school year of 1910-1911 Prof. Miller was acting President of this institution.

In 1912 he again moved to California and was called to the presidency of LaVerne College which position he filled with great credit until 1921. At present he is holding a professorship in LaVerne College. The degree Doctor of Humane Letters, was conferred upon Prof. Miller, in 1915 by McPherson College in recognition of his long and faithful services to education in the Brethren church.

From Afar Off

The Track Coach at K. U. has issued a call for track men to begin "work-outs."

Erika Morini gave a concert at Ottawa University, November 30.

An interesting survey was recently made at K. U. where it was discovered that students get credits easier in some departments than in others. In general a student working 71.54 hours in Ancient languages gets as much university credit as one working 100 hours in Spanish or 177.57 hours in Anatomy.

Southwestern College is again planning to send her basket ball team to Kansas City to the championship basket ball tournament of the National Amateur Athletic Union. Southwestern won second place last year.

One hundred and twenty women have reported at K. U. for class basket ball.

The University of Carolina has a university laundry for the sole benefit of the students. Student washings are done cheaper and better according to the school paper.

Yale University is planning to enlarge their Stadium bowl.

How Were X-Rays Discovered?

SIR James Mackenzie Davidson visited Professor Roentgen to find out how he discovered the X-rays.

Roentgen had covered a vacuum tube, called a Hittof or Crookes tube, with black paper so as to cut off all its light. About four yards away was a piece of cardboard coated with a fluorescent compound. He turned on the current in the tube. The cardboard glowed brightly.

Sir James asked him: "What did you think?"

"I didn't think, I investigated," said Roentgen. He wanted to know what made the cardboard glow. Only planned experiments could give the answer. We all know the practical result. Thousands of lives are saved by surgeons who use the X-rays.

Later on, one of the scientists in the Research Laboratory of the General Electric Company became interested in a certain phenomenon sometimes observed in incandescent lamps. Others had observed it, but he, like Roentgen, investigated. The result was the discovery of new laws governing electrical conduction in high vacuum.

Another scientist in the same laboratory saw that on the basis of those new laws he could build a new tube for producing X-rays more effectively. This was the Coolidge X-ray tube which marked the greatest advance in the X-ray art since the original discovery by Roentgen.

Thus, scientific investigation of a strange phenomenon led to the discovery of a new art, and scientific investigation of another strange phenomenon led to the greatest improvement in that art.

It is for such reasons that the Research Laboratories of the General Electric Company are continually investigating, continually exploring the unknown. It is new knowledge that is sought. But practical results follow in an endless stream, and in many unexpected ways.

DORM GIRLS DEFEATED BY OUTSIDE GIRLS

The girls from outside the dormitories started the ball rolling last Friday evening when they defeated the dorm girls 21 to 10 in a game of basket ball. Although the outsiders had really the better team it looked as if their opponents might run them a close race after the start of the second quarter.

A number of spectators were out to witness the contest and most of them say that they saw a good game although somewhat one-sided. It looks as if M. C. had some good material from which can be fashioned a real Bulldog girl's basket ball team.

BULL DOGS BEGIN BASKET BALL PRACTICE

Big Turnout For Preliminary Work.

Last Tuesday evening saw a number of men begin basket ball practice in the gym under Coach Lonborg's supervision. Each evening finds between twenty-five and thirty men suited up to compete for team honors. It is expected that a few more will report later as there is still some good material which has failed to show up as yet. Dutch is encouraging every member of the football squad to come out for basket ball on account of the training.

Most of last year's squad is back again and anxious to try their luck

foosing baskets. The team will be somewhat handicapped this season in losing several good guards. Staats is not back in school this year. Captain Roland Jones will likely be out of the game most of the season. Jones was a consistent player and could always be counted on to hold down his part of the floor. Foster Hoover will likely be able to play the game from the rooters section only, because of injuries received in football practice. However, some new material is turning up and will no doubt prove valuable when Dutch once gets his men into fighting order.

The Kansas Conference Basketball schedule has not been arranged yet, but will be out in about two weeks. Coach Lonborg and Professor Mohler will attend the Kansas Conference meeting to be held at Lawrence, December 19, and at that time will arrange the basket ball, baseball, and next season's football schedules for M. C.

INTER-CLASS GAMES AROUSE INTEREST

Much interest is being taken in the Class Tournament which is being played this week. It is hardly safe to predict who the winners will be as each of the four college classes are well represented, and as to the two academy teams, well, you never can tell what they might do. The girls had no intentions of being left out of the fray, so there are two preliminary games and one final game in which they are the contestants. The games are being played as follows: Monday, morning, Dec., 5, beginning at ten o'clock, boys—Sen. College vs. Jun. Academy; girls—Fresh., Soph., and Jun. Academy vs. Sen., Academy. In the afternoon, beginning at 2 o'clock boys—Jun. College vs. Soph. and Sen. Academy;

girls—Fresh. College vs. Soph. Jun. and Sen. College; boys—Fresh. College vs. Soph. College. Tomorrow afternoon at 4 o'clock two of the boys' teams will play off the semi-finals, at 6:15 comes the girls finals, and beginning at 9 o'clock comes the scrap which will determine the winners of the championship laurels among the boys. The results of these games will be published in the next issue of The Spectator.

M. C. is counting on a girls team again this year. Last season the girls finished with a higher per centage of games won than did the boys, and they do not intend to be outdone this year. We hear that Washburn College had twenty-four girls out to practice. Let's see if the M. C. girls will beat that; we know they can.

M. C. Player Receives Honorable Mention.

Carter, the fighting left half on the Bull Dog Eleven, received honorable mention on the All-Conference Eleven of the state.

COLLEGE CAMPAIGN COMMITTEE

The McPherson College Executive Committee in the Science Hall Campaign was composed as follows:

Prof. J. J. Yoder, President.
Dr. H. J. Haraly, Secretary.
Mr. F. A. Vaniman, Vice President
Dr. D. W. Kurtz, Ex-Officio.
Mr. J. N. Dresher

This board chose the College Finance Committee, composed of Prof. R. E. Mohler, Chairman, and R. C. Strohm, to take charge of the work of the College in this drive.

Alumnus Receives Promotion.

H. C. Crumpacker, A. B. 1908, who for the past ten years has been superintendent of schools in Sedro-Woolley Washington, was recently elected superintendent of the public schools of Hoquiam, one of the ten first class school districts of that state. In this position Mr. Crumpacker will have charge of seven schools, including a junior and a senior high school, and will have a staff of about seventy teachers. Mr. Crumpacker is a brother of S. P. Crumpacker of this city.

OBSERVATIONS AT THE LINDSBORG BAZAAR

While passing thru Lindsay one evening last week we noticed that they were staging their annual bazaar and having heard so much about it we ventured therein.

After passing the "How many, please?" window and the checking stand quite successfully, it was quite safe to venture on the main floor of the "Bethany amphitheatre" commonly known as the Gym. It was decorated quite beautifully; the posts were draped gracefully with white cloth, transforming them into stately Doric pillars. Sunflowers and "blue and yellow" were also used to a good advantage.

A programme of band and piano selections was given. After this the "money changers in the temple" got busy and things started in general. There was a Hudson Super-Six to be sold in the crowd. The candy was very good—while it lasted.

A "Little Theatre" was under the choir loft with "a change of programme nightly." We witnessed the farce—"A Bargain Sale" which was very good. The young lady who played the bargain hunting mother did her part exceptionally well.

There was a shooting gallery, a punch booth, a fish pond where they asked you what you wanted (taking all the thrill out of fishing.) We must not forget to mention the cafe where big Swedes dipped their cookies and cake into the coffee and then ate it in huge bites.

There were some potted plants donated by the McPherson Florist. In other words McPherson prefers to "Say it with flowers."

Truly it was a National affair for all Sweden turned out. The proceeds of the week's bazaar go to the treasury of the college thus helping to pay the teachers' salaries.

One thing particularly noticeable was the splendid community spirit—co-operation of the town, school, and country. And since we are on the subject, don't you think such an affair would be a good thing for McPherson College. Besides creating a community spirit perhaps the constituency would care to send articles and foodstuffs in to the school. Live and learn.
