Next Thursday

Goldsmith to speak at Colloquia

"Sorting Out Biblical Ethics" will be the discussion topic Thursday at noon in the SU private dining room as Dr. Dale Gold-

MCAA involved with furthering sports programs

To publicize and boost the total athletic program of McPherson College is the primary goal of the McPherson College Athletic Association (MCAA). The association is made up of alumni, faculty, and local civic organizations concerned with furthering athletic programs at McPherson.

Membership drives and fund raising efforts are sponsored, and the MCAA meets for the specific purpose of acquainting themselves with college players and coaches. Interest in the total athletic program is stressed.

MCAA serves to facilitate special events and projects. Awards and recognition are given to outstanding athletes and teams by the MCAA.

Acting president of MCAA is Eddie Ball. The board of directors includes Dave Gentry, Don Rominger, Gerald Kassin, Tony Voshell, Don Widrig, John Heidebrecht and Verne Moore.

Meetings are held frequently enough during each sports season so that the membership of MCAA can remain informed of college athletic activities. Progress reports of Mac teams and film sessions are scheduled for MCAA meetings in order to promote interest in all areas of the college's athletic program.

MCAA hopes to generate enthusiasm and aid McPherson College athletics financially through their organized community efforts.

smith, philosophy and religion, delivers the third lecture of the "Colloquia 1978" series.

According to Dr. Goldsmith, most college students assume the Bible is all about ethics and morals.

"The fact is that morality plays a subsidiary, dependent role in the Bible," he explained. "The problem is, how do you teach Bible in such a way as to get away from this misconception and still allow ethics to have the minor role they should have (in the Bible)?"

"The solution I am suggesting is to take one gospel and show how little explicit ethical material there is — almost none," Dr. Goldsmith said.

Dr. Goldsmith sees many people interpreting the Bible as having a "monolithic ethic." His interpretation is that each Biblical

writer has his own ethical concepts.

During Thursday's session, Dr. Goldsmith will examine the Gospel of Mark and, through structural and literary analysis, develop a picture of Mark's ethics.

Dr. Goldsmith will also be presenting these interpretations at the Southwestern Regional Meeting of the American Academy of Religion in Fort Worth, Texas, March 19.

According to Bob Green, chairman of the faculty, the purpose of "Colloquia 1978" is to increase the intellectual climate on campus.

The last colloquium of the 1978 series, "A Different Approach to the Energy Debate," will be presented by Dr. Gilford Ikenberry, biology, April 13.

All sessions begin at noon in the private dining room and are open to the public.

Backstage crew involved in production

by Becky Baile

Hammers, paint, needles, long hours, and dedicated people are just a few of the ingredients that Rick Tyler, director; the cast; and crew of the play, "The Night Thoreau Spent in Jail", are putting together during the next few weeks.

This production is being sponsored by the Alpha Si Omega organization in cooperation with the Theater Department. Funds are being appropriated through Student Council.

When asked why this play was chosen, Rick Tyler responded, "It is one of the finest scripts written right now with comic aspects as well as having something to say."

This drama does not portray

Emerson and Thoreau with God-like images as many people think of them. Instead it gives an inside look at these two men's lives.

Six hours is the average time spent each day rehearsing, while the set and costume crews work whenever they have a spare moment. Sickness has hurt the practice schedule, but Prof. Tyler feels there won't be much of a problem in making up the lost hours.

Russell Carswell is in charge of the set construction with help from five other people. The stage will consist of a series of platforms with lights placed to show where the cell area and the Emerson's home are located.

"This will be the most com-

plicated technical production done at McPherson College," commented Rick Tyler.

The lighting effects will be one of the most impressive parts of this production. Chris Whitacre is in charge of this area. A scrim is being used to reflect water and the effect of a lake, trees, sun rays, clouds, and a church stained-glass window will also be projected.

Janet Sheaffer is head of costume construction. Most of the clothes on hand are too fancy for this play, so several costumes are being sewn for the women in the cast.

Any one wishing to have a walk-on part or help with set or costume construction should contact Rick Tyler.

The technical crew for the drama is as follows: Kathy Frantz, stage manager; Chris Whitacre, lighting; Janet Sheaffer, costumes; Deb Stong,

Interterm refunds...
Wilderness experience...
Summer jobs...
Student teachers...
Bloodmobile March 16...
Mac Ambassadors...
Li'l Abner weekend...
Seminar postponed...

Those students who think they have a refund from interterm coming, please stop by the Business Office within the next couple of days. This is especially important for people who took Independent Study, or who did work through another college.

Wilderness Experience-1978. If you or some of your friends want to participate in this course this summer, you should contact Dr. Ikenberry for application forms and /or information. The class is almost full. Dates for the experience are June 2-21, 1978.

Jobs: Summer jobs, part-time jobs, full-time jobs. A bulletin board has been set aside in the basement of the SU, across from the career counseling office for the posting of job announcements. If you are looking for work, check it out, also consult the Career Counselor for other ways to discover job openings.

The Spectator apologizes for the omission of the following student teachers at Moundridge: Gardell Stucky, Grade 3; Dexter Leach, P.E., M.H.S. and the Middle School; Dalene Moore, Home Economics, M.H.S.; and Melody Swanson, Art, at the Middle School and M.H.S.

The Bloodmobile will be on the McPherson College campus in Friendship Hall on March 16 from 10 a.m. to 3 p.m. instead of March 6 as printed in the calendar. Joanne Hamilin is the campus coordinator and Dave Crist, Glenace Baldner, and Joan Cunnick are also assisting. Sign up sheets for volunteers will be posted next week.

The Mac Ambassadors will be holding an "Anything Goes" competition between teams composed of students on campus this Saturday at 10 a.m. Anyone wishing to participate as a player, or referee, or time keeper feel free to attend.

Guys get ready for the upcoming Li'l Abner Weekend when the young men will be asking the young ladies to several events including a dance, meal, and possibly bowling.

The Women in Transition Seminar scheduled for March 10-11 has been postponed until a later date.

makeup; Russell Carswell, set construction; Rick Judy, publicity; Donna Huebner, props; and Diane Schroeder, sound.

The next play which will be presented at McPherson College will be "Antigone". This drama is about two sons and two daughters of Oedipus, a deceased king of Thebes, and his sister-in-law Creon who is now Queen.

The two brothers kill each other because of internal problems and Creon leaves them in the streets unburied. Antigone, one of their sisters defies Creon's cruelty and buries them in a grave. As punishment for doing this, she is buried alive. Several other suicides are committed that leave a lasting impression on Creon.

Aspiring actors and actresses should begin thinking about trying out for this production to be presented during the latter part of April.

Volunteers to participate in annual telethon event

Bulldog Immense Generosity or BIG is the theme of this spring's fund raising telethon. The alumni and development offices are currently preparing for the annual telethon which will take place in March. Calls will be placed from the McPherson telethon center at People's State Bank during the last three weeks of March. Calls will not be placed on Friday and Saturday nights or on the night of Maundy Thursday.

Over one-hundred callers are needed to telephone alumni and

friends of McPherson College. Twelve students have volunteered to make calls for one night. Others who would like to help with the telethon should contact the alumni office.

Besides the McPherson telethon center, calls will be made from Manheim, Pa, Des Moines, Kansas City and LaVerne, Calif. The callers will attempt to contact 3,500 alumni and friends. Those contacted will be asked for news about themselves and for a contribution to the college. The 1978 telethon goal is \$50,000.

Singing one of his favorite Greek love songs to a pretty Columbian senorita is Andreas Christoforou, fr, Limassol, Cyprus at the evening entertainment during International Day.

(photo by Ward)

Black Student Union carries out packed week of events

"This is the one week in the year when we blacks try to make the rest of America aware of us as a people in our own right. Not just as any other Americans, but as a people."

Jerald Legins, soph, Aurora, Colo.

"We've been downtrodden through the centuries. Yet Black Awareness is not new. I don't know how it started, but we've been aware of it for years."

"We are not of this country originally. We were brought to it. There is a difference in coming to a country and in being brought to it. We were bought and brought. We have been free for many years-physically."

"We still need to make America aware of us as a people. And not as a people to be taken advantage of. We want to be recognized as fellow American citizens. We are black and proud of it. We wouldn't normally be so 'pushy' about it if it wasn't for the fact that we were so looked down upon."

Camellia Lewis, fr, Denver

Black Awareness Week is, in other words, an attempt to recognize a people-a race. During this week, black artists are brought into the limelight. Emphasis is put on the works of black painters, black poets and black authors.

McPherson College celebrated this week with a variety of programs. The week began on Sunday with the first segment of the T.V. movie "Roots" shown in Miller 101. The movie was shown in the same place between 3 and 5 every afternoon for the rest of the week.

On Monday evening, the semi-formal buffet and dance took place in the cafeteria.

Tuesday evening at 7:30 p.m. a concert was presented by Living Sound in Brown Auditorium. Yesterday evening at 7:30 p.m. Dr B. Sam Hart spoke at a convocation on the topic "In Unity We Stand," which was also the motto for the week.

Tonight, another dance in the SU will feature Underground Movement. Saturday, the final day of Black Awareness Week, the movie "Claudine" is scheduled.

Mariners 'dig it' in Oregon

by Celia Stover

While many of us were cozy in our darkrooms or basking in the sun on the beaches of the Bahamas, one contingent of students from the ACK was poking in the mud for clams and scrambling through swamp water in Oregon.

Thirty-eight students from the six ACK schools spent their interterm in Coos Bay at the Oregon Institute of Marine Biology.

Ten McPherson students were members of the class: Cosette Button, soph, Conrad, Ia; Dave Crist, sr, McPherson; Tracy Ikenberry, jr, Quinter; Cyndy Lyne, sr, Bavaria; Jeff Miller, soph, Rocky Ford, Colo; Dean Minns, soph, McPherson; Ken Nagamatsu, fr, Anaheim, Calif; Grand Odokara, jr, Nigeria; Lothar Stahl, jr, West Germany; and Allan van Asselt, sr, McPherson.

They spent some of their time collecting different species of marine life and a lot of time in the lab trying to classify what they collected. Every now and again they had some free time to check out the two grocery stores and the one gift shop in the nearby town of Charleston.

"Collecting was governed by the tides," explained Tracy. "We went out eight to ten of the 18 days we were there. Those were at the first and the last. In the middle we went on field trips and did lab work."

"One day we caught an octopus," exclaimed Cosette. "It had legs about 3-4 feet long! They can bite so it was a real traumatic experience getting it back to the lab."

They went to different areas of the coast line and picked up dif-

ferent plants and animals and figured out the species of each at the lab.

To go collecting they put on several pairs of socks, long johns, jeans, and topped it all off with hip waders.

The students had to keep a journal and make note cards on all the species that were found, noting the habitats and a description of the hapless specimen.

"There was so much there to learn," commented Tracy. "A lot of it was individual motivation. Free time depended on how much time you wanted to spend in lab."

On the days they couldn't collect specimens, the professors in charge, Dr. Burkholder and Dr. Ikenberry, and Dr. Wayne Wiens from Bethel, organized field trips to points of interest.

"We saw a wood chip ship," enunciated Cyndy Lyne, "and a myrtle wood factory and a saw mill. There was time to do a lot of hiking up the trails around the lab."

It rained 11 inches out there in January. During one of the downpours the group battled its way across two miles of mountainous sand dunes and then tackled the "deflation plain", the area between two sets of dunes on the way to the ocean.

"That was the low point of the month," grimaced Tracy. "The water was way over the tops of the hiking boots most of us wore. It was usually drizzly - but that day it poured."

The group stayed in "dorms" near the lab. Each of the girls had a single room while the 25 guys slept in two barracks. "It wasn't so bad," commented Tracy, "but after four days it started to smell like dirty sweat socks."

by Harold Briscoe
Que pasanustedes todos? The Cisco Kidd here, comin' at cha' with the hottest pair of 45's in McPherson.

Commercial Rock: "Waiting For Columbus," is the new double album by Little Feat; and if the discs are as uncanny as the album cover, I think you're in for a treat.

Hey, Manhattan Transfer has a sharp album out entitled, "Pastiche". Want to hear where the Rock is headed? Then check out the new l.p., "Level Headed." Those crazy Tubes have come up with a double live l.p. called, "What Do You Want From Life."

"Endless Wire," is the latest from Gordon Lightfoot. Be sure and catch, "Waitin' for the Night," by the Runaways.

The students interviewed all agreed on this: "It was an awfully lot of hard work," commented Cyndy, "but we learned a lot from the experience."

Home Economics travelers reflect on a variety of trip experiences

by Myra Nye

Universal Studios, Farmer's Market, the Sunkist juice processing plant, and Horikawa Restaurant, which serves authentic Japanese cuisine, were sites that students taking the Home Economics Interterm trip visited. Most of the trip was spent in Los Angeles.

Those students from Mac enrolled in the interterm course were: Lucy Fridley, sr, Mt. Morris, Il, Gloria Heyer, fr, Portis, Kim Kirkdorffer, fr, Eldora, Ia, Deborah Lolling, soph, McPherson, Diane Miller, fr, McPherson, Daylene Moore, sr, McPherson, Teri Netolicky, soph, Lisbon, Ia, Comfort Okokora, sr, McPherson, Pat Schrag, soph, Moundridge, Kim Thiessen, soph, Wichita and Kathy Thoreen, fr, Pleasant Hill, Oh.

The preparation for the trip consisted of a large amount of reading from four out of five possible areas. During the trip the students were required to keep a log. A term paper was due at the end of the course.

The Horikawa Restaurant was an enjoyed site by all Mrs. Nichols described it as "one of the highlights of the trip."

Students dined on a wide choice of authentic Japanese cuisine plus

Well, this ought to hold you for now, so until we rap again- Chow!

Dance has emotional effect

Dance. That is what eight Mac College students did last weekend during Marymount College's 24-hour dance marathon for Muscular Dystrophy.

"A tiring experience" is how Mark Slafkovsky remembered the marathon. "But after it was over, you felt like you'd accomplished something - all for a good cause," he commented.

Leanne Royer, another participant, remarked, "I felt like I hadn't done enough when we came out of there (the marathon)."

With the help of many faculty and students, Leanne was able to donate \$145.86 to the cause, while Mark raised \$221.41. The marathon raised a total of \$6709 for Muscular Dystrophy, which is more than four times their goal of \$1500.

Many people don't realize the impact of something such as a

marathon, according to Mark. He reflected, "Seeing a young kid in a wheelchair... not being able to do the things we take for granted, we're lucky we're not in wheelchairs."

"More people should think about that," he added.

The eight participants wish to thank all those who supported them in their efforts. They agreed that "it was tough and our feet hurt, yet the pain was all worth it."

There is a possibility of having a dance marathon locally, but nothing is definite. Mark stressed that the active support of the student body would be necessary for a dance marathon for Muscular Dystrophy to be successful.

Mark concluded, "Once you've done it (participated in a dance marathon), you'll always remember it."

a wide variety of steaks. The group sat at eight tables with each table having its own Japanese chef.

The cooking was done on an open, Teppan grill. Green tea was the drink chosen by most and for dessert the group had a choice of ginger, green tea, or vanilla flavored ice cream.

Both Kim Kirkdorffer and Gloria thought that, "Watching the chef cook the food was the best part."

Deb Lolling commented, "It was an experience everyone should have."

Another experience that was high on the list of favorites was the tour of the Sunkist orange juice processing plant. The students saw the process of fresh oranges being made into frozen concentrate juice.

A morning at Universal Studios provided the opportunity for the group to talk to Edith Head, a fashion designer who has won several Oscars for her work.

Mrs. Nichols was very impressed with Miss Head. "I found her a very warm, friendly and unique lady," Mrs Nichols stated.

Students expressed varying impressions of the designer. While one student described her as "talking down to the group",

another felt that she was "down to earth" and "interested in the group."

Above all, Edith Head emphasized the need for a four year liberal arts education over attending a vocational technical school.

Another interesting occurrence was the discovery of Teri Netolicky as a star of the stage. Yes, Mac College supplied some of the entertainment for those attending Mayfair Theatre one special night.

Against the better judgment of their supervisors, a group of students spent an evening at Mayfair Theatre attending an Edwardian variety show.

For the opening act two women and a man came out and the man searched the audience for someone to come up on stage. Teri was the lucky one and onlookers thought her dancing was most entertaining.

The overall view concerning the trip was that it exposed the different areas of home economics which had not been obvious before as being professions.

"The trip helped me see the different professions that can be accomplished with a Home Economics major," Pat commented.

Mac sponsors International Day

by Laurelee Duncan

McPherson College hosted International Students Day which was sponsored by the Associated Colleges of Central Kansas (ACCK) Dean of Students Committee last Friday.

With the help of McPherson's Dean and Assistant Dean of Students, Joanne Hamlin and Jim Chipman, and Chairperson Martina Odakara, fr., Nigeria, around 100 students from foreign countries attending ACCK colleges were invited to participate in the International Student Day.

At 2:30 p.m. the students registered for the day's activities which included a social hour from 3 to 5 p.m. and an excellent foreign foods meal.

The McPherson College food service, under the guidance of Leah Awotundum and Grand

Odakara both from Nigeria, and Yasmi Weljie from Tanzania, prepared the meal. The day culminated in a presentation at 7:00 p.m. given by students from different countries.

The event was initiated by the introduction of the Masters of Ceremonies; John Waba, jr., Nigeria, and Ruben Carrion, jr., Waterloo, Ia. Dr. Paul Hoffman, delivered a speech to the audience which consisted of McPherson students, students from foreign countries, and visitors from the ACCK area.

Various presentations included poems, songs, dances, a skit, explanation of international flags and modes of dress, a Japanese tea ceremony and a martial arts demonstration.

"The goals of the day," said Martina, "were to stimulate more communication between international students of the ACCK

schools and to hopefully spark interest in the creation of an International Club at McPherson College."

Martina wishes to express her thanks to the President of McPherson College, McPherson's Dean of Students, Harold Briscoe, fr., Kansas City, Mo, Franchiel Spencer, soph, Kansas City, and the students who attended International Students Day.

The inquisitive faces of Martina Odakara, fr, Nigeria, and Camelia Lewis, fr, Denver, Colo., are captured as they register students during International Students Day in Friendship Hall.

Enrollment not easily calculated

by Bambi Crumpacker

Little did I, an unsuspecting Spectator reporter, know what I was getting myself into when I went to the Registrar's Office to ask a simple question. I was looking for the enrollment figures for the 1978 spring term.

I knew that this information was there to be found amidst the bureaucracy of McPherson College. However, the Registrar's Office didn't have the enrollment data. They directed me to Norma Tucker, Dean of Students.

Dean Tucker had to do some final calculations before she could give me the enrollment figures. I assisted in these calculations by going through schedule cards and sorting out the cards of full and part-time students. It became apparent why my simple question was not so easily answered. (It is no small task to determine enrollment figures.)

Dean Tucker and I eventually came to the conclusion that full time student enrollment this spring is 391 students and that total enrollment is 440. Dean Tucker explained that, "Spring enrollment is usually less than the fall." In comparison to last spring's total enrollment of 460, the enrollment hasn't dropped very much.

Dean Tucker was able to supply information about the full time equivalency of students. This equivalency statistic is the number of total hours taken by full time students plus the number of hours enrolled in by part-time students. This total is then divided by 13.5, which is the approximate average load of a full time student.

I asked about the male-female ratio of students who are attending McPherson College this spring. These figures were reported at 197 females and 239 males on the computer print-out sheet. There's only one problem here — 197 plus 239 equals 436. Just exactly what are the four which are left over?!

I just received word that the total enrollment figures mentioned above are wrong. The total enrollment is really 448.

We Want to be Your Bank.

Stan Sargent
President
Peoples Bank & Trust

"Over the years, we've made our best efforts to provide you with the most innovative and useful banking services, and to deliver those services in a most friendly and personal manner.

"It is unwise, however, for a bank to stand on its merits of the past. In recognizing this, we've made a pledge to continue offering you the newest and finest banking services as they are developed, and to continue our attitude of warm and personal banking.

"We want to be your bank' is symbolic of this pledge. And it stands as more than just a statement. It's a commitment

... not just from me, but from our entire staff. And it's an attitude you'll find in every service of every department in our institution.

"Let us prove it to you."

Mac senior women end college careers

by Lisa Gaskill

Five women seniors concluded their college basketball careers last Saturday as the McPherson College Bulldogs lost in an effort against Tabor, 45-54.

Janis (Sam) Cordell, Denise Creevan, Celia Stover, Deb Enos and Lisa Gaskill all participated in their final game. The team's season record was 7-13.

Sam led scoring with 17 points. Lisa followed with 16.

Wednesday, the Bulldogs lost to Bethel 66-46 with Kathy Howell leading the Mac attack with 18 points.

Bulldog Coach Gaylord Gillette hosted the team Monday night at the Red Coach Inn for a dinner.

Practices begin

Soccer team to begin season on Sunday

by Ruben Carrion

The soccer club is ready to begin its 1978 season on Sunday with a home game against Bethel College. During the month of February, the team's objective was to recruit players. They have accomplished this task and have signed up the following people: Jack Rader, Jay Carroll, Jim Stevens, Curtis Thill, Kirk Higgins, Allen Rebman, Ruben Carrion, Andreas Christoforou, Allan van Asselt, Wayne Flora and Lothar Stahl.

Also participating on the team will be Grand Odokara, Luis de Curi, Ken Nagamatsu, Ken Hogle, Paul Neher, Curt Baldner, Kent Harris and Bruce Wagoner.

These individuals have been registered with the Kansas Soccer Football Association. With the assistance of an allocation from Stuco, the soccer club will be able to participate in league play.

The possibilities of the team winning are very good this season since it will be playing new teams that have just been incorporated into the league; also because of the enthusiasm among the team members.

The results of the team elections were announced that evening.

The Most Improved Player award went to Deb and the Most Inspirational Player award was given to Sam.

Lisa won the Most Valuable Player award. Plaques were given to these team members and also to Anne Ward for her help throughout the season as statistician and manager.

Sam led the team in scoring with 276 total points. Denise Creevan led the rebounding with 211 for the season.

Top free throw shooter was Janell Baldner with 18 of 24 for 75 percent. Lisa Gaskill recorded 47 steals and 49 assists to lead the team in those categories.

The first game will be played at Central College on Sunday. Everyone is welcome to attend.

Along with the many area soccer clubs that Mac will confront this season, there will be tournaments and exhibition games for the team to participate in. It all depends on the interest of the members of the team and the support of the college.

Practices will be every day, Monday through Friday, although not all players will be able to attend.

It will be possible for all the members to practice at least twice a week. Equipment will be

Young Bulldog basketball squad finishes 1978 season in style

by Keith Hunter

The McPherson College Bulldog's basketball season is over. They did not win 50 percent of their games, but the town and the college should be proud of the way they came on at the end of the season.

The Bulldogs have had to play around a number of roadblocks this season. Seven out of the original 12 varsity players did not end the season; some left and some did not show up. This made for a very young team.

To the hoop

Lone Bulldog Guy Bourke drives for the basket, but the shot is blocked by a Bethel opponent. Mac came out on top, 81-79 in a close contest at the Roundhouse, Feb. 22.

(photo by Ward)

"It is tough to take a very young and inexperienced team out to play veteran ball clubs and expect to come out on top," said Coach Paul Graber.

In the Tabor game, the Bulldogs played well, except for their poor shooting. The Bulldogs shot only 34 percent from the field. The Bulldogs were only out rebounded by Tabor 51 to 48 percent.

One of the biggest factors in the game was that the Bulldogs made 21 of 32 from the charity line. Also the Bulldogs forced Tabor to turn the ball over 25 times, while the Bulldogs as a team only turned it over 12 times.

Point guard Tom O'Reilly led Mac in scoring with 19. Captain Dave Romo finished his career at Mac with 18 points for the game. McPherson pulled out a 77-70 win over Tabor, the third place team in the conference. Neal Rogers led Tabor in scoring with 23.

Mac finished the year 6-10 in the conference, which earned them a 7th place finish with St. Mary's. The Bulldogs finished 8-16 overall.

On the year, senior Captain Dave Romo led the Bulldogs in scoring with 22.3 points an outing. Sophomore Mark Mueller led the team in rebounding with 12 off the boards a game, and sophomore Tom O'Reilly led the team in assists.

The young McPherson Bulldog

team will lose Dave Romo, but should be very strong next year.
