

Harlan Yoder

**HARLAN YODER SPENT THE SUMMER TOURING THE EUROPEAN LANDS**

(Continued from Page 1.) which was the first country visited in which student relief has been given. From Vienna, the largest university of Austria, the party went down the Danube River to Budapest, Hungary, and then to Prague, Czechoslovakia which serves as an open door to 2,000 Russian refugee students. The tour led from Vienna to Cracow and Warsaw, Poland, and on to Berlin, Germany, where three days were spent in sightseeing trips in company with German and English speaking students. At Cologne, Germany, the official group broke up and Mr. Yoder, in company with others, traveled on through Belgium and Holland back to Southampton, England, and finally to the United States in time to resume his school work at McPherson.

"Dick" Kelm, Capt., Guard

"Dick" has made two letters in football and last year was a popular choice to lead the Bulldogs for this year. He received mention on the all-conference teams last season and is the type of a player whose value to the team is incalculable. "Dick" is a most consistent and dependable man, having played the entire season last year without missing a minute of play.

Let us show you the season's new things and make our store your headquarters when down town.

### By The Way

Mr. Saylor Neher and family were here visiting Saturday. Mr. Neher is teaching at Durham this winter.

Foster and Maxine Hoover spent Sunday visiting in McPherson.

Mr. Templeton arrived Saturday night, making the trip in his car.

Emmert Pair left Saturday evening for Burr Oak, Kansas, to attend the funeral of his cousin, Fred Pair.

Len Harden arrived Saturday evening. He made the trip in a Ford stopping at Little River for a short visit.

Ralph Strohm was visiting in M. C. the first of the week.

Mr. Henry Stover was on the campus Wednesday. He is the minister at Monitor this year.

John Haraly and Harold Strickler waited in California to see the total eclipse of the sun before returning to school.

Elva Shirk and Lorinda Leatherman came Monday evening to enroll, and went back to Hutchinson to work for a few days.

Miss Adelyn Anderson has enrolled at Bethany College, Lindsborg, where she will study voice and expression the coming year.

John Harnly, Harold and Hoyt Steinkler, and Pauline Shirk of La Verne, California, waited to see the eclipse before starting for school.

Professor and Mrs. Forrest W. Gaw spent the summer in Kansas City in musical study.

Mr. and Mrs. J. F. Metzker of Lawrence were guests of Dr. and Mrs. E. L. Cralk last week. Their daughter, Miss Ethel Metzker has enrolled in the college.

Mrs. F. A. Vaniman was the donor of many beautiful flowers which were placed on the dining hall tables. The students appreciate the thoughtfulness of Mrs. Vaniman.

Miss Cecel Durst was visiting friends on College Hill Friday night. Mrs. Templeton is the new matron in Cline Home.

Herbert Martin and Cecel Holloway spent the summer in Kansas City. The latter has not yet arrived.

Earl Linholm left for Lawrence where he will attend K U. the coming year.

Theodore Helbert visited on the campus last Thursday.

### NEW FACULTY MEMBERS ARE WELCOMED TO M. C.

McPherson College has six new faculty members for 1923-1924, all of whom are well trained for their work. The college welcomes them and gives them best wishes for a successful year.

Cocher Floyd E. Mishler, A. B., '19, is a graduate of McPherson College. During the war he had a year and a half experience in naval aviation. He was for two years principal and coach at Windom, Kansas. The past two years he studied in the Y.

M. C. A. College, Chicago, and Chicago University, taking the degree of Bachelor of Physical Education. The past summer he attended the Coaching School of the University of Illinois, under Zuppke of Illinois and Doble of Cornell. Coach Mishler is one of the best trained men in Kansas.

George N. Boone, A. B. McPherson, 1921, was for two years manual training instructor in McPherson High School. The past summer he was a graduate student in the University of Wisconsin, under several of the foremost authorities in Industrial Education. Because he has made good he was elected to this position.

Mrs. Millicent Throstenburg Lundgren, instructor in the new department of Public School Music, is a graduate of Bethany College. She has had two years experience in Kansas City and Lincoln, Nebr., in public school music. She has been music instructor in colleges in both Kansas and Nebraska. She practically built up this department at Bethany. Two years ago she was forced to give up the work there on account of failing health. McPherson is very fortunate in securing such a successful teacher as Mrs. Lundgren for this department.

Estella Engle, A. B. McPherson, 1923, is a student of high scholarship. She was the editor of the 1922 Quadrangle, and will prove a most valuable addition to the Academy faculty.

E. F. Sherley, B. S. L., a Bible student and experienced pastor will teach an Academy Bible class.

Harold Lundeen will head the Art Department. Dr. Birger Sandzen says of him: "He is very talented and has had more than three years of instruction here at Bethany College in painting and drawing. He has done very fine work, and I am sure he will make a very good teacher." Mr. Lundeen spent the summer in Chicago in studying design and Normal Art.

### M. C. WAS REPRESENTED AT CHICAGO UNIVERSITY

Many former and present students and teachers of McPherson College have taken advanced work in Chicago University the past summer. Both Miss McGarvey and Professor Hershey did post graduate work in their respective courses. Professor Hershey's thesis for his Ph. D. has been accepted, and he is now awaiting his oral examination.

Among the former students now teaching, the following attended Chicago University last summer: Ray Frantz, Emery Wine, Eulah Crumpacker, Willa Davenport, Oliver Trapp and Grace Greenwood.

Although not in the University, Harry Bowers and Elsie Klinkerman attended the Music School in Chicago, and Irma Witmore took work in the School of Expression.

### Social Events

Coronado Heights was the setting for a delightful gathering of young people of McPherson College on Saturday evening, bent on a hamburger fry. The party left town by motor early in the evening bound for Lindsborg's famous play ground, where fires were lighted and a delicious picnic supper prepared. The evening was spent around the camp fire toasting marshmallows, telling stories and singing rollicking college songs. Those enjoying the outing were Misses Ruth Green, Selma Engstrom, Julia Jones, Aenid Gray, Helen Freeburg, Eunice Almen, Messrs Earl Linholm, Russell Jones, David Barnes, Gordon Henston, Herkie Wampler and Earl Morris.

**A Week End Trip To Twin Mounds**  
On Friday, September 8th, eleven members of the Y. W. Cabinet went to Twin Mounds for a good time and to arrange for the year's work.

The girls met at Helen Elliott's home and from there they went in two cars. They arrived at their destination at five o'clock and soon the cook, Miss Winona McGarvey was busy with the meal which disappeared suddenly when the girls started to eat.

The evening was spent around the camp fire, singing M. C. songs and telling about the interesting experiences of the summer vacation.

After the morning devotions conducted by Mrs. Morris, the girls all ate a hearty breakfast and then the business meeting was held. The meeting occupied the whole morning and much was accomplished.

The girls ate a good chicken dinner and after cleaning camp they returned home tired but happy, all saying they had gained much from the meetings.

Those enjoying the good time at Twin Mounds were: Winona McGarvey, Reetha Studenaker, Hazel Vogt, Mabel Hoffman, Gertrude Witmore, Helen Elliott, Grace Ebaugh, Mrs. Morris, Minnie Edgcomb, Elberta Vaniman, Elsie Forney, and Margaret Wall.

**Old Girls Entertain**  
Excitement and curiosity ran high among the new girls on third floor of Arnold Hall Thursday afternoon when each pair of roommates found tacked upon their door a mysterious note requesting their presence at Room 34 at 9 P. M. Promptly at the appointed hour two dozen lassies assembled. After a few minutes of gay chatter each girl was asked to tell her name and her home address. The next event was a contest to see how many could write correctly the names of all present. Other simple games were played, with plenty of unplanned jollity sandwiched between. Light refreshments were served. The party dispersed shortly before ten o'clock, each girl glad that she had been present and feeling better acquainted with her neighbors.

### WHAT IS A FRIEND

A friend is a person with whom you dare to be yourself. Your soul can go naked with him. He seems to ask of you to put on nothing, only what you are. He does not want you to be better or worse.

When you feel 1.-Jwd1 MC.

When you are with him you feel as a prisoner feels who has been declared innocent. You can say what you think, so long as it is genuinely you. You do not have to be on your guard. He understands those contradictions in your nature that lead others to misjudge you.

With him you breathe free. You can take off your coat and loosen your collar. You can avow your little vanities and envies and hates and vicious sparks, your meanness and absurdities, and in opening them up to him they are lost, dissolved in the ocean of his loyalty. He understands you. You do not have to be careful.

You can abuse him, neglect him, tolerate him. Best of all, you can keep still with him. It makes no matter. He likes you. He is like fire that purges all you do. He is like water that cleanses all you say. He is like wine that warms you to the bone. He understands.

You can weep with him, laugh with him, sin with him, pray with him. Through and underneath it all he sees, knows, and loves you. A friend, I repeat, is one with whom you dare to be yourself.—Anonymous.

FACULTY ADVISERS

Prof. McGaffey Dr. Craik

Address all correspondence to The Spectator, McPherson, Kansas.

INAUGURAL

It is with a keen feeling of the responsibility of the task that the new staff takes over the work of the Spectator. We also realize the vast amount of service to our fellow students and alumni which we may contribute, and we earnestly hope and shall endeavor to serve them in a measure that will be worthy of their support.

We gratefully receive the rich legacy which our worthy predecessors have bequeathed to us, for without their labors, their established practices, and well planned policies, we would feel unprepared for the tasks which loom so high before us.

We must in endeavoring to publish this school paper, work together as students on the campus. By turning in all notices, locals, jokes, news items, opinions and suggestions you can, to a considerable extent, alleviate the work of the staff, and make possible a better and more representative publication.

STUDENT OPINION COLUMN

Students who wish to express their opinions on student and campus problems will have a chance to do so in the Spectator. A column will be reserved each week for contributions of this nature.

A few rules are necessary, however, which should be closely observed. The article MUST be signed and must be of a suitable nature for publication in the Spectator. If so desired the name of the writer need not be printed.

This column should be of great interest to all and should be a means of getting before the students body the problems of the campus.

As We See It.

By this time we think that everybody knows that everybody else has no bananas and we wish that everybody would cease announcing that fact to everybody else.

We also think that the freshmen ought to be informed that the front rows of seats in chapel are reserved for the seniors. The underclassmen don't mind being deprived of their seats but it is mortifying to a senior to be forced to sit behind the verdant ones.

We are wondering if the tennis court will be ready for use before skating becomes the popular sport.

Some college people are exceedingly childish in their tasted for amusement. Whoever found any fun in playing Flying-Dutchman, Last Couple Out, et cetra?

And still some insist on visiting in front of the bulletin board while others stand helplessly by, wishing for a periscope.

Sympathetic Observer.

SIX STATES REPRESENTED AT ESTES PARK MEETING

The June Y. M. C. A. Estes Park Conference was enjoyed by two hundred college and minority students from Kansas, Nebraska, Colorado, Wyoming, Ohio, and Iowa, and also

from many foreign countries. McPherson College was represented by Dale Strickler and Emmert Pair. The body of delegates grew throughout the conference due to the heavy mountain rains which delayed several delegations.

The Camp is situated in a beautiful park completely surrounded by mountains. This very suitable location where heaven and earth seem to meet adds much to the spirit of the conference. The grandeur of the old Rockies surrounding this regional camp prepares the mind for the world problems to be presented.

The well planned program consisted of topics related to the great problems of society, war and religious outlook, race prejudice, and the industrial situation. These problems were acted upon by leader and student alike in lectures, discussion groups, delegation meetings and open forum. Emphasis was placed upon the necessity of the student thinking problems through for himself and arriving at a definite outline of action. The different phases of the question were presented and discussed by very competent leaders from all parts of America as well as foreign countries.

Ben. Cherrington, regional secretary, presided over the conference. Col. Raymond Robins; Dr. Libby, ex-lesonator of Washington; "Dad" Elliott; Dr. Herbert A. Gray, of Scotland, world traveler, author and speaker, were among the conference leaders and were men of exceptional type.

Kansas led in the number of delegates among the states. Many strenuous but enjoyable trips were made to the snow-capped peaks and ice ringed lakes. Sports and games also featured in the daily schedule. Every man who was there reports that the ten days were well spent and well worth the time, effort and money.

The inspiration and fellowship of those ten days was a never-to-be forgotten experience for all those who attended. It is in such a place that one can not help but get that deeper relationship with God that so much enriches the life of service.

'Tis The Last Roar of Summer

We welcome you, September,  
The month with rain and frost,  
We're glad to part with summer  
With its enormous cost.  
We paid the ice-man plenty,  
The ice cream man a lot  
For fiz and ice cream soda,  
And still we sweated—hot.

We spent our coin for coolness,  
But little did we get;  
We and our ice both melted,  
And ran most all to sweat.  
We were blondes the first of April,  
Caucasians in the list,  
But now we're brown, and Mayia,  
By Sol we've all been kissed.

Our maidens—fair in winter-time,  
Spite parasol and fan—  
In spite of cold creme lotions,  
Now show a trace of tan;  
And men—at no time very fair,—  
Yes; every man in town,  
Who pass quite well in April,  
Now look a chocolate brown.

We simmered 'long in April;  
In May we sizzled some;  
In June we stewed and parboiled,  
'Till we were nearly done;  
But when it came to August,  
The month of torrid heat,  
We fried, and cooked, and roasted,  
Just like the butcher's meat.

We fanned, and fanned, and fanned us,  
Till elbows 'most unblinged,  
We gulped ice cream and sherbet,  
'But still we scorched and singed.  
We sat by open windows,  
To basements we repaired,  
We camped beneath the maples,  
But still we baked and seared.

We're frayed out at the edges,  
Feel ravelled and forlorn,  
We've symptoms of the hookworm,  
And mourn that we were born.  
Sure, you're welcome, old September!  
We hale you with delight;  
We'll work with joy in daytime,  
And snooze more sound at night.  
A. J. McKinney.

Get those snap shots ready, now for the Quadrangle.

Prof.—"Can you give me an example of a collective noun?"  
26.—"Garbage."—Wasp.

ROCKY MOUNTAIN SUMMER SCHOOL WAS BIG SUCCESS

The Rocky Mountain Summer School at Palmer Lake, Colorado, has just completed its second year of educational work. The school proved a great success from every angle of consideration. The enrollment reached a total number of 107 for the two terms, of which twenty names were duplicated, leaving eighty-seven individual students for the summer.

A very well outlined department of education was added to the curriculum, of which Miss Sadie Gnucklich, the supervisor of education from Salina was head. The class in hand work and primary methods was especially popular, and very helpful for the public school instructors. The Colorado State Board of Education sent one of its members, Dr. Polly to investigate the Rocky Mountain Summer School, and after spending a day in the school in visiting all of the departments, Dr. Polly reported that the type of work done in the Rocky Mountain Summer School was equal to the work done by Boulder University and the Colorado State Normal School. We also had the good fortune to have Dr. Kurtz with us a few days, and his public lectures were enjoyed not only by the students but by many of the inhabitants of Palmer Lake.

The prospects for next year are even brighter than the history of the past. We expect to have a still larger number of students there next year, and we expect to add two new departments to the curriculum. Instead of offering a few classes in English as we have done in the past two years, we expect to add a full time English teacher. And to satisfy an ever increasing demand, we shall be compelled to add a department of mathematics to our course. We have also been granted the use of the Glen Park Auditorium to accommodate the ever increasing number of students; which will soon out-grow the accommodations of the Palmer Lake School.

The first-class environment and

the cool climate together with a curriculum of first class collegiate instruction makes Palmer Lake an ideal spot for a summer school.

See that your picture gets in the Quadrangle this year. Use your kodak now.

Don't fail to be in the assembly room the evening of September 27.

CUPID REAPS BOUNTIFULY

Again and again and yet again throughout the summer months has sounded the tinkle of wedding bells, sometimes distantly and sometimes near at hand. During the 1923 vacation there has been presented to the marriage altar the largest number of M. C. students ever entering the nuptial state in one year.

The list includes:

Samuel Maust ..... Anna Lingle  
Earl Fisher ..... Iva Brammell  
Arno Rodes ..... Grace Fike  
Silas Miller ..... Phyllis Toeys  
Louis Bowman ..... Mary Miller  
Lloyd Whitmer ..... Mae Vanscoyoc  
Laurence Vaniman ..... Laura Prussell  
Seth P. Osborne ..... Edna Greenbank  
Robert Kuns ..... Letha Heckman  
Franklin Haas ..... Lila Kiazie  
Harold Beam ..... Bertha Mugler  
O. T. Funkhouser ..... Mary Garber  
Frederic Roland ..... Blanche Spurgson  
Ellwood Bales ..... Ida Moyer  
Preston Wain ..... Grace Miller  
Engene Kistner ..... Violet Wilson  
Price Howell ..... Maggie Brubaker  
Paul Harnly ..... Iva Curtis  
Edwin Fink ..... Rose McKinney  
Jay Tracey ..... Margaret Bish  
J. Howard Engle ..... Bertha Frantz  
Samuel Merkey ..... Nellie Derriek  
John Spicer ..... Laura McClelland  
W. J. Graber ..... Inez Heaston  
Wm. Riddlebarger ..... Jessie Kittell

The last named couple was successful in keeping their union a secret, having been wed in the spring and only revealing the fact in the summer when Bill came from Idaho to claim his bride.

The staff extends the most sincere congratulations and wishes for all a never ending happiness.

Alumni Notes

Grabber-Heaston

A most attractive home wedding was witnessed by a company of seventy-five guests on Wednesday evening, September 12th at eight o'clock when Miss Inez Elizabeth Heaston, youngest daughter of Dr. and Mrs. William C. Heaston, became the bride of Mr. Willard John Graber of Hutchinson. The Heaston home was beautifully decorated with palms, ferns and roses; the living room had been arranged as a miniature chapel, and a program of cathedral music was rendered by Miss Evelyn Roberts as the guests were formally seated. The groomsmen were Mr. Gordon Heaston and Mr. Ray Clark. The sacred ritual was read by Dr. D. Webster Kurtz, president of McPherson College. Following the congratulations of the assembled company, a wedding collation was served by the Misses Irene Hawley, Cecile Martin, Vineta Hawthorne, Rowena Vaniman, Laurene Kuns, Marjorie Barker and Dorothy Thornton of Clay Center. Mr. and Mrs. Graber left at once on a honeymoon trip by auto, their destination having been kept a secret. The bride is a graduate of McPherson High School and has studied at McPherson College and the University of Kansas from which she recently took her A. B. degree and is a member of the Gamma Phi Beta sorority at that institution. The groom is a graduate of Oberlin College, Oberlin, Ohio, and is a Phi Beta Kappa. Mr. and Mrs. Graber will be at home to their friends after October 1st, at 310 East Sixth Street, Hutchinson, where Mr. Graber has a home in readiness for his bride.

TRUE AT THAT

Father—Why is it that you are always at the bottom of the class?  
Johnny—It doesn't make any difference, father. They teach the same thing at both ends.—Harper's Magazine.

COUNT RUMFORD  
1753-1814

Born Benjamin Thompson in Massachusetts. Charged with being a Tory, went to England, and became Under-Secretary of the Colonies. Later, in Bavaria reorganized the military department and was made Count Rumford. Returned to England and engaged in scientific research. Founded the Rumford professorship at Harvard.

He watched the pot as it boiled

Thousands of people had watched the boiling pot, but Count Rumford wondered why it boiled. He did more than wonder; by scientific research he found out for himself.

And Rumford laid the foundation of the greatest generalization the human mind has yet conceived—the law of the conservation of energy.

Scientists in the Research Laboratories of the General Electric Company are devoting their lives to pure research, carrying on the work of Rumford and other pioneers of modern science. By methodical investigation, the frontier of scientific knowledge is being pushed steadily forward.

The General Electric Company, by continuous scientific research, has developed new and better ways of making electricity of use to mankind.

GENERAL ELECTRIC

## HARLAN YODER SPENT THE SUMMER TOURING THE EUROPEAN LANDS

Tour Was Made With a Party of American Students Studying Europe's Woes

**VISITED THE UNIVERSITIES**  
At Geneva, Switzerland the Party Visited The League of Nations

Harlan Yoder, President of the Student Council, and a member of the senior class, made a trip through Europe the past summer with a party of American students led by Mr. Legato, who is in charge of student relief in Austria, Hungary, and Czechoslovakia.

The purpose of the tour was to study student conditions and their relation to foreign relief in Europe. The party was made up of Y. M. C. A. students and leaders from the various colleges in the United States. The student relief aids students in foreign countries who need help due to the fall of money exchange.

**War Ruins Viewed**  
The trip led through England, France, Switzerland, Austria, Hungary, Poland, Germany, and Belgium. In these countries the party visited Oxford and the universities of London, Vienna, Prague, Berlin, Leipzig, and Mantz. Here it met with the English speaking foreign students and discussed the religious, economic, social, and political problems of the various countries.

Two days were spent traveling over the battlefields of the war from Verdun to Reims. In Geneva, Switzerland the party visited the League of Nations where it listened to the secretary explain the organization and function of the league as well as the various departments. Three days were spent traveling through the mountains of Switzerland to Austria

(Continued on Page 4.)

## WHO'S WHO IN THE Y. W. C. A.

President, Winona McGaffey.  
Vice-President, Reetha Studebaker  
Secretary, Margaret Wall  
Acting Treasurer, Elberta Vanlman  
Chorister, Minnie Edgcomb  
Undergraduate representative, Hazel Vogt.

**Committee Chairmen**  
Social, Helen Elliott  
Membership, Reetha Studebaker  
Finance, Elberta Vanlman  
Program, Oelo McAvoy  
Social Service, Grace Ebaugh  
Publicity, Wava Long  
World Fellowship, Mabel Hoffman  
Student Extension, Gertrude Wittmore  
Conference, Elio Fornay

## WHO'S WHO IN THE Y. M. C. A.

President, LeRoy Doty.  
Acting Pres., Harold Barton.  
Secretary, David Brubaker.  
Treasurer, Dale Strickler.

**Chairmen of Committees**  
Publicity, Paul Kurtz.  
Employment, Dick Keim.  
Athletics, Sanger Crumpacker.  
Social, Emmert Palr.  
Program, Jay Eller.

Students of M. C.: Don't Fail To Read and Take Heed

If you wish to see and hear something that you have never seen and heard before, something absolutely new, be in chapel Thursday evening, September 27, at eight o'clock. At this time, in addition, you will be told the best possible way to invest a part of your money. Come early, avoid the rush, hear a good program, and take advantage of this wonderful opportunity.

## REV. RICHARDS LEAVES TO HOLD REVIVAL MEETINGS

Rev. H. F. Richards, college pastor, left Sunday noon, for Washington Creek, Kansas, where he will hold revival meetings for several weeks. The Washington Creek church is east of Overbrook, Kansas. As a pastor Rev. Richards has had considerable experience, serving the congregation at Bethany Bible School for four years. He has also had a great deal of success as an evangelist.

## ENROLLMENT WILL BE LESS THAN LAST YEAR

TOTAL HOWEVER WILL NEARLY EQUAL THE RECORD FOR 1922-1923

The thirty-sixth year of McPherson College began on Monday, September tenth, when students began to gather on the campus after a rest of three months. Enrollment took place on Monday and Tuesday and by Wednesday most of the students had arrived.

The total enrollment of students at the end of the first week was slightly lower than that at the end of the first week last year. At present the total will reach 350, which is approximately the same number enrolled the fall of 1921. Last year the registration totaled 365 for the first week.

**The Freshmen Lead**  
The freshmen lead in the number enrolled as to class, ninety-three verdant ones having appeared. The Juniors, however have the honor of being the only class to increase the membership over that of their predecessors of last year. The senior class with an enrollment of 50 is expected to number as many by the close of the year as have the previous classes.

The number of students in the various classes are as follows: college senior 50; junior 53, sophomore 68, freshmen '23, special 27; academy, senior 20, junior 9, sophomore 9, freshmen 8, special 13. There are many new students enrolled and while no figures are yet available it is evident that the number of girls exceeds that of the opposite sex.

**Many New Faces**  
As usual the familiar faces of last year's graduates are missing and it makes the old student feel rather strange and lonely for a few days. But only for a short time, for as things begin to pick up, classes begin to organize, and new students get acquainted with others, affairs are soon running along as smoothly as ever.

By the end of the week all students should have arrived and enrolled and at that time the records are expected to show a marked increase.

Students are coming to McPherson from a wide territory, as has been the fashion for several years. This year many states will be represented and some of these are to be found in distant corners of the Union.

## IS UNABLE TO RETURN

LeRoy Doty, president of the Y. M. C. A. for this year, has been unable to return to school due to unavoidable causes. It is possible he may be able to return in several weeks and take up his work at the head of the Association. Harold Barton is acting president in Mr. Doty's absence.

## FROM INDIA TO M. C.

Hornor McPherson Eby, son of Dr. and Mrs. E. H. Eby of India has the distinction of having come the greatest distance to attend McPherson College. Young Mr. Eby has spent practically all of his life in India where his parents have been missionaries. He comes equipped to enter the college freshman class having had the advantage of good schools in India.

## ALUMNUS RETURNS TO DIRECT ATHLETICS AT McPHERSON COLLEGE

Floyd Mishler Is Given a Hearty Welcome After Several Years Absence.

IS A WELL TRAINED COACH

A Large Squad Has Reported For Practice and Prospects Are Good.

Floyd E. Mishler, new head of the McPherson College coaching department, received a hearty welcome upon his return to the college campus this fall after several years absence for special training in his chosen line of service.

In Coach Mishler the college has a man that it may well boast of, his athletic record while under the colors of his alma mater compares with that of the best of athletes. Added to this he has had three years of technical and practical training in the Y. M. C. A. College of Chicago, including one summer course under Coach Zupke of the University of Illinois.

**Coach Is Optimistic**  
In an interview with Coach Mishler he announced, in an enthusiastic and decisive manner, his ideas of the prospects for the coming season; he is very optimistic. With another ten days work in addition to the two weeks training already secured he hopes to have the Bulldogs in fighting form to meet the Baker Wildcats at Baldwin September 28.

**Most Letter Men Back**  
As a foundation for this year's team, Coach Mishler had most of last season's letter men. Those not reporting for practice this fall are Ray Clark, halfback; Arnold Thornton, quarterback; and Olin Ellwood, end. Elmer Brank, two year man also graduated. To fill these gaps there is a large number of men who are bidding for positions, and over fifty mole skins have been checked out to the eager aspirants.

## FOUR NEW COURSES TO BE OFFERED BY PROFESSORS

Curriculums Constantly Being Widened to Include Variety of Subjects

As the student enrollment increases and a general progress is made in the institution greater demands are being made of the faculty and a greater variety must necessarily be offered in the curriculum. Among the courses being introduced this year is a four hour course in General mathematics under Professor Morris. This course will continue throughout the two semesters and is planned to replace the former courses in College Algebra and Trigonometry, giving a more general and practical knowledge of the fundamentals of higher Mathematics.

For students of Education and the Social Sciences Professor Blair is giving a course in Social Psychology. It is a course in advanced Psychology, emphasizing a study of the crowd, the mob mind, fashion, imitation, public opinion and all other problems which are found in the social group.

The course in Public School Music, under the direction of Mrs. Lundgren, will fit students for conducting classes in Public School music, giving a State Certificate to those completing the work.

The course in Library Science offered by Miss Margaret Walters will give a thorough training in the use of the Dewey Decimal System which is the standard in Library methods. It is a practical course for all students in college as well as for those who will go out to organize and supervise the work in High School Libraries.

Send the Spectator home.

## ACADEMY FOOTBALL TEAM TO BE ORGANIZED THIS FALL

McPherson College Academy will have a football team this fall for the first time in its history if present plans materialize. Previous to last year the need for an Academy team was not felt so keenly inasmuch as academy men could play on college teams. Now they are barred from college athletics. The team will be organized under the direction of Phillip Abien, an experienced football man of Omaha, Nebraska.

## ANNUAL "Y" RECEPTION WAS WELL ATTENDED

TALKS, GAMES AND WATERMELON MADE UP THE EVENING ENTERTAINMENT

The annual "get-acquainted" party of the Y. M. C. A. and the Y. W. C. A. was held Friday evening in the gymnasium at 8 o'clock. The unusual rainy weather prevented the carrying out of the previous plans, which had been to hold the reception to the new students out of doors, but other arrangements were substituted which proved very satisfactory. About three hundred students were present and from appearances every one seemed to enjoy the occasion which had been well planned by the officers of the organizations.

**Men to the Gymnasium**  
The men assembled in the gymnasium at seven o'clock and were addressed by Professor Mohler, Professor Ebel, and Dr. Kurtz. The first speaker taught the men several verses of a beautiful song which was prepared especially for McPherson College men. Prof. Ebel gave an appreciative recommendation for the Y. M. C. A. Dr. Kurtz showed the practical value of the work which the "Y" may do on the campus and which it had done in the past. "Hal" Barton, acting president of the Association in the absence of LeRoy Doty, urged the new men to line up with the cabinet in their work on the campus.

**Girls Meet in Chapel**  
The Y. W. C. A. girls took their little sisters to the chapel. The chairman in charge of each Y. W. committee had planned a little stunt for their group representing the work being done. After the work of the committees had been explained to the new girls the Dean of women, advisory board and the cabinet members were introduced. The girls then formed a double line of march and went over to the gym where the joint party was held.

**President and Dean Entertain**  
A number of very interesting and exciting games were played and all joined in the frolics. The games and stunts were chosen at the instance of Coach Mishler and each was most enthusiastically received. Dr. Kurtz and Dr. Harnly furnished the most excitement when the two pursued each other with as much agility as many of the students.

After many hearty laughs and a few hard bumps every one was treated to all the cold watermelon they could wish for and all went home with a better respect and higher opinion for the "Y" organizations.

## PROFESSORS TO ADDRESS STATE TEACHERS MEETING

Professor Blair and Dr. Craik have both consented to give talks before the state teachers at the annual meetings next month. Prof. Blair will talk at Wichita and his theme will be: "Changes Recommended in the State Certification Laws." Dr. Craik will address the group at Salina upon the topic, "Newer Emphasis in Teaching American History."

Mr. Dye, a sketcher for the Kansas City "Star" visited the campus Thursday. He was shown the different buildings and seemed to be well pleased.

## DR. KURTZ IN OPENING ADDRESS EMPHASIZES NEED FOR EDUCATION

The Hour is Not Yet Come When Too Many People Get A Higher Education.

THIRTY-SIXTH OPENING OF M. C.

Address in College Chapel Is Heard By Many Students and Visitors

"The hour is not yet come when too many people get a higher education," said Dr. D. W. Kurtz in his address Wednesday morning which marked the thirty-sixth opening of McPherson College.

The chapel was crowded with students and visitors of the city. Everyone present felt the urgent necessity for acquiring a higher education so that young men and women will qualify themselves for the best leadership in solving the problems of the world. Dr. Kurtz stated, "You cannot know the deep things of life unless you hunger for them." Students must get a vision of the meaning of life then they can launch out with all the enthusiasm and passion for truth possible which is so vital for Christian growth. Roots of study must precede the leaves of truth. The students interests may be classified into three groups, first the inorganic dealing with unliving matter, second, the organic dealing with all living things, and third, the psychic which deals with the behavior of the mind.

**Butler's Six Elements of Education**  
Dr. Kurtz gave the summary of the six essentials of education according to Nicholas Murray Butler. First, master the language of the mother tongue. Second, cultivate the right standards of appreciation. Third, acquire kind and gentle manners. Folks should be educated not trained like dumb animals for only thru Christian education comes the power to choose the right which makes for freedom, thus allowing for that inward expression of a cultured soul which loves the good, the true, and the noble. Fourth, gain the power to think. Learn facts systematically. Approach each lesson as a problem to be solved in itself. Fifth, keep the power to grow. Study to be a student. Read the latest books and articles to stimulate the growing habit. Sixth, learn the habit of doing. Educate yourself to be unselfish. Begin in college to sway men toward the truth. Make your work count for accuracy and comprehensiveness.

**Students Need a Vision of Life**  
Dr. Kurtz further emphasized the need for life's preparation. He advised specialization after finishing college. Acquire depth for efficiency and breadth for power. Exemplify the Golden Rule in this Christian institution and never lower your ideals.

The address was preceded by a song by the audience, prayer by Rev. H. F. Richards, pastor of the College Church, and a piano solo, "Sunlight," by Schumann, by Miss Jessa Brown of the Piano Department. Following the address Professor Gaw, of the Voice Department, and Mrs. Gaw rendered a most delightful duet entitled La Ci Daren La Mero (Thy Little Hand Love) from Don Juan, by Mozart.

## TO TALK AT M. E. CHURCH

Dr. Louis Albert Banks, famous Chautauqua lecturer, author, evangelist, and preacher of world renown will talk at the M. E. Church, Friday, September 21, at eight o'clock. His subject will be "Uncle Sam's World Adventure." The address will be delivered in connection with the showing of the motion picture, "The Last Raid of Sheriff Kendall," a picture depicting the last and fatal raid of a faithful officer.

Don't fail to be in the assembly room the evening of September 27.
