M. C. DEBATERS TAKE 5-1 DECISION IN FIRST DEBATE OF THE SEASON

Rock And Lehman Win At Sterling And Huston And Lengel Here

ARGUE RUSSIAN QUESTION

Sterling Aggregation Is Out-classed By Coach Hess' Protégés—Contest Was Hot

Another victory was added to the enviable records of the forensic activities of McPherson College Friday when the Varsity Debate Team won from Sterling College a 2-1 decision at Sterling and a 3-0 decision here. The McPherson teams seemed to out-class the Sterling debaters, both in material and delivery.

Kenneth M. Rock and Harvey Lehman, the negative team, represented M. C. at Sterling. Sterling's team was composed of Kenneth Porter and Russell Porter. The M. C. negative team produced some very convincing arguments in a very convincing manner and in every instance showed excellence and superiority, but failed to secure the decision of one of the judges. Coach Hess and his debaters praise highly the utmost courtesy which they were accorded by the Sterling students.

The affirmative team, Ora Huston and Charles Lengel, which debated at home, had as opposition Everett Malone and Gray Gaston. The affirmative team out-classed the Sterling team both in organization of material and delivery. The negative team failed to present evidence of the bedrock variety upon which the proof of a question of this sort must be based, consequently the decision of the three judges went to McPherson.

Many people who attended the debate stated that it was one of the most interesting they ever attended. The question for debate was: Resolved that the United States should recognize the present government of Russia. The question is a live one and there is at the present time much argument offered pro and con by the leading men of the world.

WOMEN'S INTRA-MURAL TOURNAMENT HAS STARTED

Games Are Causing A Great Deal Of Interest Among M. C. Students

The Women's Intra-mural Basketball Tournament, started last Tuesday night, is being conducted with greatly increasing enthusiasm. On Tuesday night the "Bobbed Maccoeds" battled the "Stars" in a good game which resulted in a victory of 24-14 in favor of the "Co-eds." Thursday night the contest was between the "Zips" and the "Kollage Komets". The "Komets" won by a close margin of one point the final score being 21-20.

The student body is showing the true college spirit and giving the teams much commendable support. The tournament will be continued this week and probably will extend into the next. The winning team will be determined by the highest percentage.

Preparations are being made by the Women's Athletic Association to continue the spring sports as soon as the basketball season is over. Some new equipment including baseballs and soccer balls have arrived for these sports.

LYCEUM NUMBER FRIDAY

The last number of the lyceum course will be given by the Golden Gate Quintette, Friday night at the Baptist Church. This company comes highly recommended as a group of entertainers that will please McPherson people.

THE OPEN ROAD

It is the prime secret of the open road that you are to pass nothing, reject nothing, despise nothing, upon this earth. As you travel, many things both great and small will come to your attention and you are to regard them all with open eyes and a heart of simplicity. Believe that everything belongs somewhere; each thing has its fitting and luminous place within this mosaic of human life. The Road is not open to those who withdraw the skirts of intolerance or lift the chin of pride. Rejecting the least of these who are called common or unclean, it is (curiously) you yourself that you reject.—David Grayson.

BULLDOGS WILL PLAY THREE GAMES ON TRIP

Friends, Sterling, And Bethel Will Contest Bulldogs On Road Trip

The Bulldogs take the road tomorrow to play three games. The Bulldogs tangle with the fast Bethel team tomorrow, the Sterling aggregation Friday, and the Friends university team Saturday.

The Bethel team has the highest conference standing of any of the teams to be played and the game tomorrow night is hoped to be the hardest on the schedule. Bulldog stock has taken a raise and the trip to foreign courts is expected to enhance the conference standing of the Bulldogs considerably.

The Sterling team has a low conference standing and the Bulldogs are hoped to win rather easily from them. It is to be expected, however, that competition will be more keen on the Bethel court than it was when the Sterling team played at McPherson.

Friends university team, since its defeat by the Bulldogs February 17, has hit a steady stride downward, but judging by the fight put up at McPherson the Bulldogs will have a real tussle if they bring home that scalp.

The Bulldog machine seems to be going good and recent games prove that they have the pep and the teamwork to raise their conference standing three notches in the three game trip.

NOTICE

The annual student elections will be held March 5. Enter your candidate at once. Read editorial on elections for particulars.

M. C. STUDENTS MAKE DIAMONDS FROM IRON DIRECTED BY HERSHEY

Loren Beckwith Finishes Experiment Of High And Fisher

HERSHEY GIVES METHOD

Artificial Diamonds Have Same Composition As Real Ones But Are Much Smaller.

The McPherson College Chemistry Department has recently finished the synthesis and separation of some artificial diamonds. The experiment was begun last year, under Dr. Hershey's direction, by Marathon High and Glade Fisher, of the class of '25, and was recently completed by Loren Beckwith. Dr. Hershey's account of the process is as follows:

"Very fine iron filings with sugar charcoal were packed in a sand crucible. The mixture was heated between the poles of an electric arc with a very high amperage and 110 volts. Under these conditions the iron melted and dissolved much of the carbon. The temperature was raised at least to 2600 degrees Centigrade when the mixture was white hot. This hot mass was suddenly plunged into an ice cold salt solution. The sudden cooling solidified the outer layer of iron. The pressure exceeded ten tons to the square inch in the central portion of the mass which enclosed the carbon in a giant grip.

In this condition the dissolved carbon separated out from the iron as hard, transparent, crystalline fragments or diamonds. After dissolving away the iron some of the diamonds were found, very small it is true, but just as genuine diamonds as the natural ones themselves. The largest one we found was .7mm., or one thirty-sixth of an inch long, and many smaller ones, scarcely visible to the naked eye were found.

When we compare these to the large one's naturally formed, the scientist has scarcely begun to solve the mysteries of nature."

This experiment had been tried here in previous years, but without success. It seemed impossible to pass a high enough amperage through, even when the apparatus was taken down to the light plant and connected directly.

The largest diamonds produced by Moissan, the inventor of the process, were only one five-hundredth of an inch larger than these produced here at McPherson.

GIVE THE BULLDOGS YOUR SUPPORT

History Made Us What We Are—We Should Be Satisfied!

If one chooses to indulge in idle speculation, one form is practically as good as another. Now, suppose we look back over the dusty pages of history and read of the things that have happened, and idly wonder what the world would be like if those things had never happened.

Suppose there had never been the great flood! What would the population of New York be today? Jails would be as thick as pawn shops in our cities had the flood not accomplished its purpose. Worst of all, suppose Noah had failed to get the Ark done in time. Oh, well, we wouldn't know what we should have missed.

What if Columbus had never discovered America? What if America had never even existed? Who would have made the world safe for democracy? Who would today be the teacher, the preacher, the peace-maker of the world? There would be no great world's tennis champions, prize fighters, polo players, movie stars, Zane Grey novels, Flor-

ida land boom, nothing that makes America the leading nation of the world!

And the Mayflower! Had it been sunk by a submarine or swallowed by a whale or had its keel, whatever that is, chewed off by rats, thousands of people would go down to dreary graves whose one claim to fame is that their ancestors came over on the Mayflower! And if it had not anchored at Plymouth Rock, what would now be the breed label of the big gray chickens, or would there be any at all!

What would Carrie Nation have done for notoriety had alcohol never been invented? What would the bootleggers now be doing had the eighteenth amendment never been passed? What would the Bethany athletes now be called if Bethany had not had a football team in 1904!

If Abe Lincoln had never been born, what inspiration would the American youth have to urge him on to honesty and the White House? If George Washington had died when

DO-NOTHING DAYS

Do-nothing days may be the busiest ones. They are the days in which we absorb; while on the do-much days we try to make others absorb from us whatever we have overplus; ribbons, wisdom or cheese. If we often eased the strain on our eyes and minds, we should be enriched by impressions that in our usual attent and mastering attitude we refuse to heed.

Americans ought to have a wholesome laziness preached to them, after three centuries of urging to gain and work, and several patriotic citizens make the public benefit by refraining from toil.—Charles M. Skinner.

ALDEN TELLS AUDIENCE OF LIFE'S "BEANSTALKS"

Noted Bostonian Lectures To M. C. Audience On "Jack And The Beanstalk."

"I never had an original thought in my life," said Judge George D. Alden, noted lawyer of Boston, Mass., who gave a lecture entitled "Jack and the Beanstalk," at the Baptist Church, Thursday night. Judge Alden came to McPherson under the auspices of the Redpath-Horner Lyceum Bureau.

Although he did not plead guilty to original thought and did not attempt to solve any great world problems, he did piece together the thoughts of other men in a way that led his audience into new channels of thought and interpretation.

The first "beanstalk" that he discussed was the pessimistic view of some people that the world is "going to the dogs." He proved that such was not the case. He discussed the "beanstalk" of materialism; the view that many people have that wealth means happiness. He showed that wealth in itself is not a requisite to happiness. He discussed the "beanstalk" of denominational rivalry and condemned it. One of the most universal "beanstalks" he conceived to be the "get rich quick beanstalk." He gave some wholesome advice on the subject of speculation and get rich quick schemes. The last "beanstalk" he discussed was the use of time. He stressed the elements of thoroughness, integrity, morals, and enthusiasm that must be used in the spending of time for the greatest benefit.

Judge Alden digressed from the main highway of his lecture long enough to give billboard advertising his scathing criticism.

FRIENDS FALL BEFORE BULLDOG BASKETEERS IN HARD FOUGHT GAME

Bulldogs Win From Quakers In Game Replete With Thrills

HILL HIGH POINT MAN

Rally In Last Quarter Gives Bulldogs Long End Of 24-31 Score

The McPherson College Bulldogs came into their own Thursday night and in the speediest game of the season defeated the Friends University quintette, in the McPherson College gymnasium, by a score of 34-31. The game was a fight from start to finish and the whirlwind speed of both teams made the game an exciting one.

The Quakers led early in the game, piling up an 8-4 score before the Bulldogs machine got up speed. The Bulldogs in a short time evened the score and the scoring ran up and tuck until the second half when it stood 14-14. In the second half the Quakers again jumped into the lead and were again overtaken by the Bulldogs. With five minutes to play and the Quakers one point in the lead, the uncertainty of the game was intense. It was then that the Bulldogs staged a whirlwind finish that netted them a victory by 7 points.

Every man on the Bulldog team played hard, fast basketball and the team-work was better than in any previous game. Hill, McPherson forward, was high point man of the game with 10 points and Crossette led the scoring for Friends with 7 points.

Barre and Crumpacker did great work at the guard position, holding down the Quaker score and sinking a basket apiece. They played together in a way that was pleasing to behold.

Hill played his usual fast, clean, scoring game and missed few opportunities to score. His contribution of 10 points and his fast floorwork on both offense and defense were

(Continued on Page 4.)

SIX INTRA-MURAL TEAMS IN MEN'S TOURNAMENT

Comets, T. N. T.'s, And Trackmen Win In First Round Of Intra-mural Tourney

Six intra-mural teams played first games last week in the Men's Intra-mural Basketball Tournament. Tuesday the T. N. T.'s, Hahn, Kolzow, Pankratz, Barton, Rock, Jamison, and Saylor won from the Intellectuals, Keim, Inde, L. Martin, Spohn, H. Lehman, and Paschnacht, 32-12. It was a slow and ragged game, the quarter ending 3-3. In the last few minutes of the game the T. N. T.'s hit the stride and the teamwork they had shown in practice, scoring in a short period over a dozen points.

By a score of 33-11 the Comets, Kinzie, Nickel, Voran, Hawkins, Marrs, Hutchinson, and Whiteneck, beat the Imp team mentioned in last week's Spectator. The Imp team has since been dissolved, the players distributing themselves between the T. N. T.'s and the Trackmen.

The Trackmen, Jones, Hartell, Davis, Puckett, Martin, and Bowers, beat the Preachers, Phillippi, Elrod, Patrick, Howell, Neff and Peckover by a score of 14-13, Thursday. The Trackmen took the lead from the first, the half ending 12-6. The Preachers came back strong in the second half, but were unable to overcome the handicap. Each team did its best work on defense, and several set-ups were missed. Martin and Howell went out on personals.

Team Five, Vogel, Street, Campbell, Tipton, Dean, Wall, and M. Carlson, met Team Eight, Kaufman, Ecton, G. Garrelts, Beckwith, Ny-

(Continued on Page 4.)

STUDENT COUNCIL PROGRAM IS TENTATIVELY ARRANGED

Plans for the program of the Student Council for the remainder of the year have been tentatively arranged. It is the aim of the Council to present several high class numbers each semester to which all students are admitted. The tentative plans for this semester include, a comedy, "Dulcic", to be presented by the Theatrical Club, a lecture by Dr. D. W. Kurtz, President of McPherson College, and a lecture by Mr. Edgar C. Kaine, Arctic explorer and traveler. In addition the Council expects to sponsor one or more All School social events. The dates for the events have not yet been set but will be announced later.

"WALLS OF INTOLERANCE" ARE DISCUSSED IN CHAPEL

"Walls," was the subject chosen by Professor Florence E. Teager who spoke in chapel Friday morning. Professor Teager took as an illustration, the rock walls of New England and an expression common to that region: "Good fences make good neighbors." "The thought is pertinent," said Professor Teager. "Who am I walling in or whom have I walled out? Some people have built walls of intolerance in things social, in things religious, in things educational and in things political. With them the law and not personality is the matter of interest." Professor Teager effectively used an illustration in which a prosecuting attorney who in a strange land met with men whom he formerly prosecuted but who had escaped the penalty of the law. Here where law was no power but where men were men, personality was recognized and people were placed above the law. Here the men who formerly were enemies because of the law, became in the absence of the law, fast friends.

DR. HERSHEY DISCUSSES LIFE OF GREAT INVENTOR

"I want to speak about whom I consider the greatest man living in the world today," said Dr. J. W. Hershey in introducing his subject at the chapel period on Wednesday. "That man is Thomas A. Edison." Dr. Hershey gave a brief sketch of the life of this famous scientist and investigator in which he pointed out the early indications of his interest in science and invention. Following this sketch, Dr. Hershey spoke of the numerous inventions Edison has been responsible for and of the work of the inventor at present. "Contrary to general opinion, Edison sleeps," said Dr. Hershey in quoting from one of Mr. Edison's biographers. "He never thinks of possible failure. He never gives up. He is a tireless experimenter." "Genius," say Mr. Edison, "is two per cent inspiration and ninety per cent perspiration."

M. C. LIBRARIAN PLEADS FOR RELIGIOUS TOLERANCE

"If America" remains Christian, Christian education must prevail," said Miss Margaret Heckethorn, college librarian, who led in the chapel devotions on Monday, February 15. "It must have been economic slavery and not religious freedom that has driven men on in the last few years. This condition must be changed if ruin be averted. America may demonstrate her Christianity best by taking the Christian attitude towards those of other races and those of other civilizations who are living within her borders."

About People

PERSONALS

Dennis Kesler, Barbara Baughman, Marie Brubaker, Fern Elkenberry, Arlene Saylor, and Haven Hutchinson went to Newton Sunday as a deputation team.

Golda Duncan, of Wichita, spent several days with her sister Sylvia. Lora Shatto entertained the following people at a birthday dinner Sunday: Mrs. Ella Shatto, Mercie Shatto, Mr. and Mrs. Howard Sager, and Wilbur Lawver.

Henry Beverman, of Lawrence, was an M. C. caller Sunday.

Laura Hammann is staying at Kline Hall for a few days due to sickness at her home.

Florence Bowser, of Abilene, spent several days last week with her sister, Viola.

Mr. and Mrs. C. A. Ainsworth, Miss Blanche, Winfield, and Mr. W. A. Mower, all of Carlton, were M. C. visitors Tuesday.

Both Heaston and Lois Dell spent Saturday in Hutchinson.

Pearl Wittfog, of Canton, spent the week-end with her sister, Dorothy.

Mr. and Mrs. W. H. Lehman took dinner with Mr. Lehman's brother, Ralph and family, Tuesday.

Leland Baldwin, of Windom, was an M. C. visitor over the week-end. Raymond Trostle spent the week-end at Nickerson.

Professor and Mrs. J. J. Yoder entertained the following people at their home Sunday: Prof. and Mrs. M. A. Hess, Miss Oylor, Viola Bowser, Sada Correll, Minnie Hutchinson, Florence and Harvey Lehman, Everett Brubaker, of Gypsum, spent Saturday with his sister Marie.

Goldie Vickers spent the week-end with Pauline Johnson at the Johnson home in Wichita.

Norma Miller spent a few days at her home in Canton.

Matron Trostle received the sad news that her cousin, Mrs. F. P. Dotter, of La Vaene, Calif., passed away Feb. 19. The Dotters are well known by many McPherson College Alumni.

To Be Exact

"Well, Mary," said the minister kindly, "you didn't come to our little gathering last night, after all. How was that?"

"Please, sir, I had a little gathering of my own that prevented me."

"O! and where was it?"

"If you please, it was on the back of my neck."—Western Christian Advocate.

The Last Word

A spaker in chapel recently was speaking of the ostrich to illustrate his point and said, "The ostrich sees very little and digests everything."

A freshman girl in the front row whispered audibly, "My what an ideal husband an ostrich would make."—Sanburr.

Dean Mohler Was A Real Artist In His Younger Days

Dean Mohler's meeting with the men of Pahnstock Hall some weeks ago, at which he promised to see, by whatever means might prove effective, that roomstacking cease in the dormitory, reminds us that it is not necessary to go back to the Dean's school days at McPherson or Mount Morris to find examples of his own proficiency in the fascinating art. For there are stackings and stackings, and a senior of '26 remembers vividly that time, four years ago, when he saw the professor stack a room.

It was the second evening this student had ever spent at McPherson College and half a dozen other freshmen were visiting him.

Professor Mohler had been visiting the boy's rooms, getting acquainted and making the fellows feel at home, and helping solve the difficulties of getting settled and he came at last to this group. But the new students felt constrained; a slightly chilly air of formality pervaded the gathering.

On leaving, Professor Mohler crossed the hall, knuckled, and after a pause opened the door. Nobody home. "Well I'll leave a reminder of my visit," and with a practiced twist he tumbled mattress and bedding to the floor. All this he did before a door-full of open mouthed student spectators.

And almost unbelievable was the lack of stiffness and constraint in the gathering where, five minutes later Dean Mohler was bustly discussing, with some McPherson College students, the prospects for a winning football team.

EMPORIA TEACHERS WIN FAST GAME FROM M. C.'S BULLDOGS LAST EVENING

Carlson And Hill Play Outstanding Game For Bulldogs

LOVELESS LOOPS 13

Teachers Lead 22-18 At Half And Score Stands 37-40 At Close Of Game

Emporia Teacher's Basketball team, under the leadership of Loveless, scoring ace of the Kansas conference, defeated the McPherson College Bulldogs on the local court last night by a score of 57-40. Both teams kept the basket hot during the entire game and the score stood 22-18 in favor of the Teachers at the end of the first half.

The Bulldogs showed the Teachers a hard fight and only in the last part of the second half were the Teachers able to clinch the victory, which was due mostly to the work of their scoring ace, Loveless. The good teamwork and morale of the Bulldogs did much in stopping the Teachers, rated one of the best teams in the Kansas Conference.

Loveless looped 13 baskets for the Teachers and was clearly the outstanding player of the two teams. Carlson played an outstanding game for the Bulldogs scoring 15 points and even at times out-jumped Duke, Emporia center who is six feet five inches tall. "Little Pi" gave a pretty exhibition of basketball and was a strong factor both on offense and defense.

Crumpacker and Barre played a fighting game at the guard positions. Barre contributed three baskets and Crumpacker shot a difficult one from the center of the court. They forced the Emporia forwards to shoot mostly from a distance and the Emporia team made few set-ups.

Blickenstaff was always at his place on the court and always fighting. While off on scoring his floor work is breaking up plays did much to help the Teachers down and to help Bulldog scoring.

Hill also was going good and connected with the basket six times. He pushed Carlson closely for the scoring honors and fought at all times, was fast on the floor and made good shots from some very difficult angles.

Chapman played a few minutes of the game but was in hardly long enough to get warmed up. He was going better than he has gone so far this season in the time he was in.

Ellwood and Miller also substituted but were in the game hardly long enough to get warmed up.

TELEPHONE CO. OFFERS \$125 IN CASH PRIZES

Patrons of the United Telephone Company are being urged to send in letters, not more than 200 words in length, telling of some particular Long Distance call they have made or the use they are regularly making of Long Distance.

Cash prizes, totalling \$125.00 will be given for the twenty-five best letters received before March 31st. All letters will be judged on the basis of their effectiveness in conveying to other telephone patrons the idea of the convenience of Long Distance calls and their low cost in proportion to the service rendered.

KINNEAR APPOINTED TO ENCOURAGE MEMBERSHIP

Prof. H. E. Malloy, president of the Kansas State Music Teachers' Association, has appointed Prof. W. B. Kinneer of the Fine Arts department of McPherson College, chairman for McPherson county, with the specific duty to persuade the teachers of music in all forms in the community to become members of the Association, and to attend the annual meeting which will be held at Hays, February 25 and 26. Prof. Kinneer will be glad to hear from all teachers not members of the organization, and he requests that they send him their name, address and teaching specialty, and this will be forwarded to headquarters, from where a program of the Hays' meeting will be sent to each one. The Association's outstanding aims are the improvement of music and teaching conditions in Kansas.

RECITAL TOMORROW NIGHT

A student recital will be given by the Fine Arts Department Tuesday, Feb. 16, at eight o'clock. Students and townspeople are cordially invited.

powerful factors in the Bulldog victory.

Blickenstaff played his first full game of college basketball and counted three times. He showed scoring ability, ability to work into the Bulldog machine, and had the Bulldog tenacity. He seemed perfectly at home in the fast company and a great deal is expected of him in the coming games of the season.

Carlson held down the center position, played a hard game, and scored 7 points for the Bulldogs. He generally out-jumped his opponent and was a strong factor on the defense.

"Big Jim" Ellwood, substitute center, showed the same fight, speed, and Bulldog tenacity that characterized him in the days when he played on the Bulldog team that was rivaled only by Southwestern in the Kansas Conference.

HER PLAY ACCEPTED BY CHURCH PUBLISHING CO.

The two act play, "For Christ and The World," written by Miss Eleanor Caldwell of this city, and recently presented at the Christian church has been purchased by the Christian Church Board of Publication at St. Louis, and will be published, and made available for use by the three thousand and more Christian Endeavor societies connected with that church in this country. The play will be distributed through the United Christian Missionary Society. "For Christ and the World," has for its theme stewardship and world brotherhood, and its action is laid in a newspaper office.

Miss Caldwell has had other of her writings accepted by this company, but this is by far her greatest effort. A pageant, "Call of Christian Endeavor," and a short playlet, "The Fabric of Life," are writings by her already available to societies over the county; published by this same concern. Miss Caldwell is to be congratulated upon her growing success.
