SENIORS AND FROSH REMEMBER BY-GONE DAYS AT KID PARTY

—M. C.—
Kids, Grandparents, And Mother Goose Characters Present Stunning Array
CHILDISH GAMES ADD LIFE

Many Youthful Romances May Be Expected Later—Adieu's Ardent

The annual Senior-Freshman Kid party was held in the Chapel, Friday night. Mother Goose Rhymes and characters were used as the central idea in planning the program.

At 7:45 the children began to arrive, dressed respectively in knickers and Kidakut dresses, carrying dolls and attacking all-day sackers industriously. Notable among them was the girl with the monkey doll, Huck Finn, barefoot, with straw hat, bait can and fishing pole, the smallpox boy and a husky "Sheeb", from Fahnstock Hall. The seniors were dressed as grandparents and Mother Goose characters.

After a period of boisterous play, the company was divided into four parts for stunts. The Old Story Teller, the farmer at the railway station, a charade, and an evening with the popular flapper were portrayed. Peter Piper, (Sam Kurtz), next announced, that, although the stunts seemed nearly equal in merit, group three would receive the prizes. All-day suckers were pulled. In quick succession the same award was accorded to groups one, two, and four. As the last lollipops began their mission "silence" descended. Blindfold pillow fights between the group representatives; John Haraly, Ralph Bowers, Harold Fannacht, and Milo Metsker, resulted in a victory for Metsker.

The Queen of Hearts, Bo Peep, Miss Muffet, Little Boy Blue, Old Mother Hubbard, Mr. and Mrs. Jack Sprat, Mary Quite Contrary, Jack Horner, Jack and Jill, and Tom the Piper's Son enacted their parts before the throne of Mother Goose. The quartet, Peter Piper, Miss Muffet, and Mr. and Mrs. Jack Sprat after demonstratively recounting the doings of Old King Cole, proceeded to the personal history of the characters present and "threw them out the window".

Kata from the Old Woman Who Lived in The Shoe, the adieu, and the usual crop of young romances to be expected later.

KINNEAR WILL DIRECT ORCHESTRA OF CHURCH

First Public Appearance Will Be Soon; Much Interest In Being Taken

Professor W. B. Kinnear of the College faculty has been secured to organize and direct the church orchestra of the local Church of the Brethren. At the first rehearsal on Thursday evening considerable musical talent was in evidence and Professor Kinnear was well pleased with the interest shown. A decided shortage of violins was evident and it is hoped that other violinists will join the organization. The orchestra plans to meet for rehearsal each Thursday evening. The first public appearance will be made in the very near future and those who desire to offer their services should do so at the first opportunity. The church orchestra offers valuable experience for those who are interested in a musical worship program.

Mrs. Teller—I hear they put that fat Mrs. Adipose on a diet of bread and water in the hospital for a whole week.

Mrs. Asker—Is that so? Did they change it at the end of the week?

Mrs. Teller—Yes, they left out the bread.

DISCIPLINE

If any pilgrim monk come from distant parts, if with wish as guest to dwell in the monastery, and will be content with the customs which he finds in the place, and do not perchance by his lavishness disturb the monastery, but is simply content with what he finds; he shall be received, for as long time as he desires. If, indeed, he find fault with anything, or expose it, reasonably, and with the humility of charity, the Abbot shall discuss it prudently, lest perchance God hath sent for this very thing. But, if he hath been found gossipy, and contumacious in the time of his sojourn as guest, not only ought he not be joined to the body of the monastery, but also it shall be said to him, honestly, that he must depart. If he does not go, let two stout monks, in the name of God, explain the matter to him.

—St. Benedict.

FORENSIC CLUB HOLDS FIRST DEBATE OF YEAR

—M. C.—
Brown, High, Dick and Hoover Start Season—Hess Outlines Program

The Forensic Club held its first meeting Wednesday evening in the College Chapel. The question, "Resolved that \$400. is sufficient for a student at McPherson College for one school year," was debated by Floy Brown and Orion High, affirmative, and Paul Dick and Ruth Hoover negative. The arguments were cleverly developed, showing preparation and knowledge of debating technique. The judges' decision was 2-1 for the affirmative but the audience voted for the negative.

Professor M. A. Hess, college debate coach, outlined the prospective activities for the College for the year. He mentioned past achievements of Kansas in this field, pointing out how McPherson College has contributed by taking second place in the National Peace Oration Contest, and predicted future successes. Professor Hess commended the work of the debaters and the interest of the audience and stated his hope that a girls' team might be organized this year for inter-collegiate debate. The widespread general interest in debate this fall was also discussed.

President Howard Keim presented the plans, purposes, and activities of the Forensic Club, and invited interested students to present their names for membership with the secretary.

The Chapel Committee announces an interesting address in chapel October 5, by Dr. Foote of Japan.

QUADRANGLE CONTRACT IS LET; SONDERGARD AND ROCK ARE BUSY

—M. C.—
Rock Has Insight and Ability For Work—Sondergard Plans Carefully
ENGRAVING BY BURGER

Walker Will Do Photography Work Campus Services Already Taken

"Better than ever," is the promise of Kenneth M. Rock, editor-in-chief of the 1925-26 Quadrangle, in speaking of the annual McPherson College year book. The contract for the book has been let and the editor and his staff are hard at work.

KENNETH M. ROCK

After having held prominent positions on the Quadrangle staff for the past two years Mr. Rock should know whereof he speaks. His many and varied activities and interests in McPherson College give him an insight into the life, spirit, and activities of the College that few former editors have had. His talent as an artist, his ability to cooperate with his staff, and his powers of selection assure M. C. students a successful annual.

The business ends of the Quadrangle will be under the direction of Sidney L. Sondergard, who successfully managed the Spectator finances last year. His plans have been carefully mapped out and are well under way.

The contract was let to the Burger Engraving Company of Kansas City, Missouri. This company publishes many high class annuals every year. Engraving in the Savitar, the year book of Missouri University, which took first place in the National Year Book Contest last year, was done by the Burger Company.

Leonard M. Walker, downtown photographer, conceded to be one of the best in the state has been secured to do the photography work. He has already obtained many summer scenes of the campus.

SENIORS SELECT JEWELRY

The senior class jewelry was selected Friday morning. The committee chose a design by the Star Engraving Company of Fort Worth, Texas. This was adopted by the class after a spirited discussion. A plan for a permanent design to be chosen by the faculty was rejected.

ATTITUDE

I am inclined to believe that the intention of the sacred scriptures is to give to mankind the information necessary for their salvation.

But I do not hold it necessary to believe that the same God who endowed us with senses, with speech, with intellect, intended that we should neglect the use of these, and seek for other means of knowledge which these are sufficient to procure for us; especially in a science like astronomy, of which so little notice is taken by the scriptures, that none of the planets, except the sun and moon and once or twice only Jesus, under the name of Lucifer, are so much as named at all.

This therefore being granted methinks that in a discussion of natural problems we ought not to begin at the authority of texts of scriptures, but at sensible experiments and necessary demonstrations.

STUDENT CONFERENCE WILL CONVENE AT M. C.

—M. C.—
Oct. 23-25 Is Date Set For 100 Representatives to Meet At M. C.

A student conference on International Friendship will convene at McPherson College October 23-25. This conference, which will attract student delegates from ten colleges in the western section of the state, has for its purpose to study the international situation from the students' point of view, especially with reference to the Harmony Peace Plan and the Student Friendship movement. Colleges in the eastern section of the state will represent at Kansas University.

The conference will bring to McPherson leaders and speakers who are prominent in the various peace movements. Mr. Kirby Page, who is remembered for his work on the campus last year will appear on the program. Various phases of the international situation will be presented by authorities in their particular fields. Preliminary plans were drawn at a meeting of representative student Y. M. C. A. and Y. W. C. A. officers at Topeka last Saturday. It is estimated that 100 or more students from other colleges will attend the conference. McPherson College is fortunate in securing this conference for the local campus.

CONFERENCE AT LINCOLN

The annual conference of the Church of the Brethren will be held this year at Lincoln, Nebraska. This conference, which attracts from 10,000 to 15,000 people, promises to be one of the largest in the history of the Church of the Brethren.

BULLDOG ELEVEN WILL BATTLE AGAINST IRISH GRIDSTERS OCTOBER 1

—M. C.—
Coach Gardner Has His Team In Prime Condition For First Battle Of Season

WILL PLAY AT ST. MARY'S

Heavy Line And Flashy Backfield Will Give M. C. An Advantage Over The "Micks"

Four weeks of grilling practice under the capable coaching of George D. Gardner, southwestern athlete, will have the Bulldogs growing their old time when they meet the Irish eleven at St. Mary's next Thursday. This will be the first game of the season, and the Coach feels that he has the team in the very best of condition. Bulldog rosters feel that there is no doubt as to the outcome of the game.

The Bulldogs met St. Mary's early in the season last fall, and defeated them 17-0. Despite the fact that a number of M. C.'s best football men graduated, the old dope bucket has a comparatively easy victory for the Bulldogs slated for October 1. Most of the vacancies in the Bulldog eleven were in the line, and from the wealth of material that has come in, Coach Gardner has built up a line that will average in weight about one-hundred eighty-five pounds.

The Irish rust from last year's eleven, both guards, both ends, and one tackle. Very little new material has come in and Coach O'Rourke (thinks prospects for St. Mary's are rather gloomy. With the recent arrival of Murphy and McElreath, however, O'Rourke, with the assistance of Lane, a former St. Mary's and Creighton University star, is attempting to build a line that will hold the Bulldogs.

Prospects in the "Kennot" are not in the least gloomy. With both first and second teams showing some snap work in practice, prospects at M. C. look brighter than usual at this time in the season. About thirty are reporting regularly for practice, and from these the coach is getting a tentative line-up for the clash with the "Micks".

Mars, husky freshman candidate for tackle was out of practice Thursday night on account of a game leg, resulting from a hard fall in scrimmage Wednesday night. The other three candidates for tackle position are showing up well. Eakes has

(Continued on Page 4)

FAHNSTOCKIANS ELECT THEIR GOVERNING BODY

Will Cooperate With House Mother Young and Be Example To Other Students

The Student Governing Body of Fahnstock Hall has been elected by the men who reside in the Hall. The following men were elected from the first floor: Earl V. Reed, Lester Chapman, Elbert Saylor, Paul Lanier, second floor: Kenneth M. Rock, Truman Horgan, Raymond Trostle, third floor: George Merkey, Paul Hutchinson, Marvin Hill.

The purpose of the body is to cooperate with House Mother Young in making the dormitory a more home-like place in which to live. It is the duty of the board to preserve order in the dormitory both by precept and example. They cooperate with the faculty and the management in getting needed repairs and in cases may be needed.

"What was the name of the last station we stopped at mother?"

"I don't know. Be quiet. I'm working out a crossword puzzle.

"It's a pity you don't know the name, mother, because little Oscar got out of the train there!"—Kasper (Stockholm).

J. J. Changes Mind And Decides The 400 Is Too Exclusive

The price of learning is self-censure. A man's words often echo back upon him from more enlightened ears, and the speaker turns from his own untruth.

Prof. J. J. Yoner, champion of the Anti-Tenorial League, who recently stated in one of his homilies that a student could go through a year of college on four hundred ringers (it would be more factual to say that a student could go through four hundred ringers in a year of college), has awakened from his dream . . . though it would be as hard to prove as would be the theory of evolution at a Fundamentalist lawn party (if any).

Matron Trostle suspected that his calculations were fashioned to fit only the wasp-like waist, and when J. J. was named as head of the social and refreshment committee of the faculty romp a week ago Fri-

day night she refused to go. She knew there wouldn't be enough to eat. And the Matron was right, for the mathematical Yoner, determined to make the grade on the proverbial four hundred, failed to provide sufficient force and gastronomically speaking, the romp was a flop . . . So J. J. has decided that he must either raise his waist or lower the tuition. He has concluded that the 400 is too exclusive for him, economically—if not socially.

It is hoped that stating the fact that the upper crusts are keeping their Friday night antics under the old bonnet is not reflecting on their real characters. But the facts have escaped them, and if immediate action isn't taken to abolish the Honor Point System and compulsory Chapel attendance, abolish the F grade, and promote the organization of

frats and sororities, there are a number of professors and Doctors of Philosophy who will soon be pleading insanity or self defense against some surprising charges (surprising to the outsider!)

The only info on the social aspect of the affair came in via several devoirs, but it is reliable. It is to the effect that Prof. Pokrantz literally knocked their teeth loose with a reading that laid the Barrymores in the shade of the old apple tree. However, Prof. Pokrantz doesn't seem to remember much about it, but it is hoped that her memory will clear with her vision in due time.

More must not be said; the Canons of Journalism prevent further details from coming to light. And the Canons of Journalism act as a check you can be sure there's something interesting that can't be printed.

REPUTATION

Do you live above your reputation or below it? Do your friends think you are better than you are or do they place a lower value on your capacities than they should? Should you care what value they place upon you? Are you trying to make a reputation for yourself or are you just plugging away and letting the reputation take care of itself.

Try a little introspection and see what the results will be. If your friends do not appreciate you, have a truth meeting and try to find out why. If they over-estimate you try to live up to the estimate they have of you. Live so you will not have to worry about your reputation and remember that, "A good name is rather to be chosen than riches, and loving favor than silver and gold."

"The men of Fahnstock Hall seem one disadvantage in having House Mother Young with them. Things are so quiet that the noise made by the women of Arnold Hall became so distracting that study is many times almost impossible.

THAT SCIENTIFIC ATTITUDE

We hear a great deal about the scientific attitude toward life which accepts nothing as a fact until it has been substantiated by concrete evidence. It is that search of truth for truth's sake and gives little heed to the real needs of humanity. Many men spend their lives in search of some obscure fact which, when found, will not be of the slightest use to humanity. Many however do spend their lives in the search for commercial truth that benefits the world in a physical way. Many lives and many dollars are spent every year in the advancement of science. Many of these lives and dollars are used in a constructive way but many are also sacrificed in the destructive science of war.

Is the scientific attitude a good attitude to develop? When we see its results we can hardly say it is. The Germans were taught that they were a superhuman race. They were scientifically educated and scientifically militarized. German educators were sure they had the truth, and

using the scientific attitude, they applied it. The result was disaster for the world. War and the militaristic spirit are outgrowths of the scientific attitude.

The scientific attitude is mechanical and everything is reduced to system. It leaves no place for moral and philosophical truths that cannot be concretely proved. The scientific attitude is cold and calculating. It looks with suspicion on every movement that does not follow the line of established fact and stops at every place where there is no definitely proved fact in sight. It is like a tourist who inquires the way at every cross-road though he can plainly see the main highway stretching ahead. The scientific attitude demands the exploration of every by-road while the fundamentalist travels along the main highways of moral and philosophical truth and reaches his destination at the centers of the unmitigable truth.

Resolved that an underclassman should not be allowed to wear a mustache should be resolved into action by the men of Fahnstock Hall.

Y. W. C. A. CHAPEL

The second Y. W. C. A. chapel of the year was held last Tuesday morning. An inspirational program was given. Harriet Mohler spoke on, "What the Y. W. Means To Me", and Nellie McGaffey on the subject, "The Scope of the Y. W.". These helpful talks were much appreciated by those attending.

M. C. STUDENTS ENJOY OTTAWA CONFERENCE

Of interest to many McPherson College students during the past summer was a conference of the young people of McPherson College territory who were interested in the work of the Church of the Brethren held at Ottawa, Kansas, August 11-16. The conference, which was the first of its nature held in the section, was conducted under the auspices of the General Sunday School Board and was a part of the young people's program of the Church. The aim and purpose of the conference was to acquaint and interest the young people in the program and work of the denomination. This was accomplished by securing leaders in religious activity who met with the students in classes and in personal conference.

The natural surroundings contributed much to the success of the conference. Ottawa Forest Park provided an ideal camp ground and the outdoor life was enjoyed by all who attended. Under the giant trees with which the park abounded the handiwork of the Creator was in evidence and the special devotional services were easily entered into by those in attendance. A spirit of earnestness pervaded every session. New visions of the work and program of the church were experienced and church loyalty in its broadest sense was developed.

The program was widely varied. Every need of the young people was considered from every angle. A wholesome recreational program was given a place and the afternoons were devoted to learning to play. Seventy-seven delegates were regularly enrolled for the entire period and many others attended a portion of the sessions. Three members of the College faculty and eight other church leaders comprised the faculty. Details were arranged by a committee comprised of McPherson College students.

Attend Church and Sunday School.

Barks and Wags

By Wendell Johnson

Indeed We Would

We would like to know if this "dealer in hugs and kisses" who had his card on the bulletin board recently has found that it pays to advertise. It is usually easier to believe so than to think so.

Anatole France said that ideas are as old as thought and belong to everybody. And it seems so. At least we have observed that nearly everyone has some pretty old ideas.

We would say that the Campus Katy who leans so romantically against her dancing partner (if any) while the orchestra tears off a red hot is, for the moment at least, musically "inclined".

Certain authorities tell us there is no jazz music—only jazz notes. But, what a blessing there is jazz!

Experience is like some other teachers we know—usually late.

After all about the best educational course is the course of time.

A professor is known by the secrets he tells his wife.

Cromwell went the modern flapper one better—he kept his powder dry.

Campus Katy is convinced that there is something in heredity. She says her nose runs in the family.

Hey, Forney!

The writer of "Collegiate" who said "we don't have any use for red hot flannels" didn't have the slightest idea of the temperature around here on cold days.

That's The Worry

"Oh well, you won't be missed," said the irate wife as she took careful aim at her husband.

We're not a bit pessimistic, but we do hope the opening game just goes to the dogs.

Fight, Bulldog, Fight

Winning football teams remind us we should charge on like a flood. And our foemen leave behind us floating in a flood of blood!

Among the Alumni

MORRIS PRESENTS BULLDOG

Earl F. Morris, B. S. '25, who is attending the Kansas City School of Pharmacy recently presented Matron Trostle with a china bulldog, symbolic of the old M. C. Spirit. He also sent his best regards to the Bulldog squad of which he was for several years a member. The new bulldog graces the training table in the dining room of Arnold Hall. Mr. Morris resides at 5616 Charlotte Street, Kansas City, Missouri.

MAXCY WINS HONORS

J. W. Maxcy, A. B. '29, who is physical training director in the New York State Normal School, Potsdam, New York, was a member of the Potsdam quartette which recently took first place in competition with quartettes from all parts of northern and central New York. The contest was a part of large music festival sponsored by the Lake Placid Club, one of the best clubs in the Adirondacks. Mr. Maxcy was prominent in M. C. music circles while at McPherson and served as an aviation instructor during the World War. He paid a visit to his Alma Mater last summer.

"Why," said Smith, "you don't know what hard luck is. I have always had it. When I was a kid there were so many of us in the family that there had to be three tables at meal times, and I always sat at the third one."

"What's hard about that?" asked his friend.

"Why," replied Smith, "it was 15 years before I knew a chicken had anything but a neck."—American Mutual Magazine.

VANIMAN-SARGENT

The marriage of Miss Rowena Vaniman to Mr. Paul E. Sargent was solemnized Saturday evening, September 26, at eight-thirty o'clock by Dr. D. W. Kurtz, in the presence of one hundred thirty-two relatives and friends. Several musical numbers by Mr. Frank Barton and Miss Katherine Penner preceded Mendelssohn's wedding march played by Miss Hazel Scott. The bride entered on the arm of her father, preceded by Messrs. Earl Reed and Glen Strickler, and Mrs. August Rump and Miss Winifred O'Connor. Dale Strickler attended the groom. After receiving the congratulations and good wishes of many friends, Mr. and Mrs. Sargent left for Fruitland, Idaho, where they will visit relatives of Mr. Sargent. Mr. and Mrs. Sargent are Alumni of McPherson College.

EBAUGH-SCHNEIDER

Miss Grace Ebaugh, of McPherson, Kansas, and Mr. Earl Schneider of Liberal, Kansas, were quietly married Sunday morning at eight o'clock, at the home of the bride in the presence of a few near friends and relatives. The Rev. John R. Pennington performed the ceremony. Preceding the ceremony Elmer Brubaker sang, "I Love You Truly," Miss Helen Jacobs played the wedding march, "Midsummer Night's Dream." Following the ceremony a three course dinner was served. Mr. and Mrs. Schneider will be at home on a farm near Liberal, Kansas. Mr. and Mrs. Schneider graduated from McPherson College in 1923, and have many friends at the College.

MCPHERSON Y. W. C. A. CABINET IS ENTERTAINED AT LINDSBORG

The women of the McPherson and Kansas Wesleyan University Y. W. C. A. Cabinets were entertained by the women of the Bethany Y. W. C. A. Cabinet at Lindsayborg last Thursday evening.

After a joint cabinet meeting and lunch in the Bethany Park, the women attended Bethany's regular Y. W. meeting. A devotional service conducted by Miss Carlson was the outstanding part of the program. Her theme was, "Christ Only." Several splendid piano, organ, and vocal solos added interest to the program. The exchange of ideas and the enthusiasm created among the women was profitable and the trip was enjoyed by all the women.

PRATHER ACCEPTS PASTORATE

Rev. J. Perry Prather, A. B. 1920, was on August 30 installed as pastor of the Third Street church in Ashland, Ohio, according to a recent report. Since leaving McPherson College, Reverend Prather held a pastorate at Conway Springs, Kansas, and then entered Yale Divinity School, from which he was recently graduated with the B. D. During his study at Yale he had charge of a congregation and will enter his Ohio pastorate with a wide experience in his chosen work. His former home was at Mound City, Mo.

Attend Church and Sunday School.

Poets' Corner

OH SACRED TRUTH

Although out on broad Kansas plains,
Here not in vain are we,
For we will strive with might and main,
That right and truth may be.
The student loves to dream his dreams
Of life that's yet to be,
Of future days and years that seem
The best for old M. C.
Chorus
We'll hope for our M. C.
We'll cheer for dear M. C.
While winds do blow and sunflowers grow,
We'll long for those M. C.

True soldiers once with sword of might
Worked for our freedom long,
And now to keep our pages white,
Will be our purpose strong,
Beneath the smile of sunny days
Let truth and freedom reign;
Within our College let us praise
The deed that leaves no stain,
Verse II

We are an army—on the way,
Some day the world will see
Us larger grow and then they'll say,
Yet 'tis the good M. C.
Dear truth, without thee we must fall,
O! Then our pillar be
O! Truth, be thou our stay for all,
And stand for our M. C.

MISS KURTZ SPEAKS ON "BY PRODUCTS OF MISSIONS"

Wednesday morning chapel exercises were conducted by Miss Ada Kurtz. Her subject was, "The By-products of Missions." She used the words of Christ, "All power is given to me in heaven and on earth," as her text.

Miss Kurtz gave an impressive history of the development of Christianity. She compared the results of the missionaries of early Christianity with the results of the modern disciples of Christ. She emphasized the progress that has been made toward the advancement of the good and the beautiful in Christian countries in comparison with the low civilization in pagan countries.

Lastly, Miss Kurtz emphatically impressed the fact that every day and every hour we are indebted to Christianity for the things which we enjoy. Therefore we should be grateful for having the opportunity to live in a christian country, a christian community and a christian school.

Habit is a cable; we weave a thread of it every day, and at last we cannot break it.

—Horace Mann.

Truth is such a precious article let us all economize in its use.

—Mark Twain.

"If you refuse to marry me, the days will be dark, dull and dreary!" declared the swain.

And so, since he was the man who wrote the weather forecasts, she had to marry him—London Answers.

About People

Raymond Trostle spent the week-end in Nickerson visiting his parents who are soon to leave for the South. Mrs. John Stump, of Perryton, Texas, stopped at M. C. Saturday on her way home from Kansas City, to visit her grand-daughter, Chester Carter.

Mildred Bishop was at Roxbury visiting home folks Sunday. Bertha Unruh and Agnes Toews spent the week-end at their homes in Holsboro.

Inez Hobblesfehen visited friends in the country Saturday and Sunday.

Mrs. Bruce Meador and son, Albert, of Great Bend, spent the first part of the week visiting Professor and Mrs. Hess.

Ronald Warren, of Waukegan, Illinois, arrived Sunday to enter school. Mrs. V. D. Betts, who has been at Nampa, Idaho, the past summer returned Sunday.

Professor J. W. Deeter and Rev. H. F. Richards, left Sunday for Topeka, where they attended a meeting of the representatives of the Protestant churches of America, who met for the purpose of discussing plans for a co-operative program.

Sam R. Mohler attended a meeting of the executive board of the Student Council of the Y. M. C. A. in Topeka Saturday morning. From Topeka he went to Lawrence in the interest of the Regional Conference of the young people of the Church of the Brethren.

Marlin Kelly visited Elma Pinney in Lindsay, Thursday.

Eulah Crumpacker, of Stafford, spent the week-end in M. C.

Mr. and Mrs. Berklible of St. John, visited their son, Francis at McPherson, Saturday and Sunday.

Ralph Martin and Robert Puckett attended the Kansas Fair at Hutchinson Friday.

Everett Brubaker, of Gypsum, spent the week-end at McPherson visiting his sister, Marie, and his parents who live at Wichita.

Floyd Kurtz, former M. C. student, who teaches at Larned visited friends on the campus during the week-end.

Sidney Sondergard enrolled in the senior class last Friday.

Mr. and Mrs. Victor Vaniman of Holsington visited friends in Arnold, Fahnestock and Kline Halls while at McPherson last week.

Mim Pond of Alden spent Saturday and Sunday with Louise Muck. Norma Miller went to her home at Canton Saturday and returned Monday.

Nina Sherfy, who teaches at Galva, spent the week-end at Kline Hall visiting Marie Brubaker and Mildred Pike.

Dorothy Wiltfong visited her sister Pearl at Canton, Saturday and Sunday.

Glen Strickler of Ramong visited in M. C. Sunday.

Wife (reading radio page)—Isn't it just wonderful! Scientists can now multiply the sound of the human voice 100,000 times.

Hubby (thoughtlessly) — What have they done in the way of subtraction?—Science and Invention.

VIRILE TOOTERS WILL GRIND OUT VILE DISCORDS

The youthful and promising free-thinker, Jay O. Greene, has organized a group of virile tooters that he will mould into a disharmonious but melodious band. Each and every one has had his qualifying experience in mental music. Each one has made his conquest of unsuspecting and unwary intellectual invalids; in short, each has a notch in the bell of his horn.

The first concert to issue from the dexterous baton of this active director is anticipated with great nervousness, not to speak of anxiety. The public is assured of a menu of music rich in harmonious discords, dissonances, symphonic unison, and rabid and violent applause manifested by antagonistic self-preservation.

The members of this talented Anti-Gospel Band are: Jay O. Greene, director; Saxophone, Marion Krehbiel; Filtered Fiddle, Fred Perry; Corpus Cornet, Ladd Sweeney; Bunko Bass, Charlie Lengel; One-handed Clarinet, Jack Johnson; Sliding Drums, John Whitteck; Mouth Harp, Kenneth Rock; Colorature Piccolo, Mr. Elrod; Backstop, Albert Phillip; 2nd fiddle, Hayes; 3rd fiddle, Reich; 4th fiddle, Kessler; 5th fiddle, Patrick; 6th fiddle, Howell.

Best In 27 Years

McPherson, Kansas, October 19, 1914.

To Whom it May Concern:

I give me great pleasure to endorse L. Helmer Ek to the public. For the past several years he has done the tuning, voicing and repairing for myself, as well as the college, giving the best of satisfaction. Having been connected with this institution for twenty-seven years I consider him superior to any one I have employed in that line.

I cheerfully recommend him to anyone, wishing work done and will insure satisfaction to all who may engage his services.

Respectfully,
F. G. MUIR,
Director of Music Department.

WRIGLEY'S

Costs little—helps much

Among the largest one-man shovels in the world is this electric giant engaged in open-pit mining on the Mesabi Range in northern Minnesota. It picks up eight cubic yards of iron ore at a gulp, which it dumps into a waiting car.

A day's work in a minute

Mesabi Range, renowned iron ore deposit, is yielding its mineral wealth at the rate of 16 tons for every bite of an electric scoop.

A man with a shovel would work a whole day to mine and load eight cubic yards of iron ore which this 300-ton electric giant moves in one minute.

Of course, all mining is not done on the surface. But there are many mines in which electricity has changed our conception of mining operations. Wires, penetrating even to the deepest shafts and galleries, have brought light, power, ventilation and added safety to those who must work in the very bowels of the earth.

Electricity's contribution to mining may be of particular interest to the student of mining engineering, but it is of general interest to all college men as still another example of how electricity is simplifying the world's work.

In every branch of mining operations G-E equipment is very much in evidence. And there are engineers of the General Electric Company specially assigned to mining problems and requirements, just as there are others specializing in all major applications of electricity.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-L.

- Oct. 1. St. Marys at St. Marys.
- Oct. 10. Baker at Baldwin.
- Oct. 31. Friends at McPherson.
- Nov. 7. Bethel at Newton.
- Nov. 13. Kansas Wesleyan at Salina.
- Nov. 19. Sterling at McPherson.
- Nov. 26. Bethany at McPherson.

OTHER GRIDDRONS HAVE THEIR OWN PROBLEMS

With sixty candidates out for practice, Baker University has a bright gridiron outlook this fall. Baker's kicking backfield will include a southpaw booter — Morawitz, who comes from Lawrence High School.

Over at the Ichabod camp, Washburn's letter men are fast losing their places to promising freshman candidates.

Hays Teacher's College is fortunate in having sixty-five candidates out for football this fall. Ten letter men are back on the grid.

Frank McHenry, Ottawa University center, is crippled from a bullet wound in his leg as the result of a tussle with a hold-up man while en route to Ottawa.

Emporia, Teacher's College, feeling keenly the loss of a star half, met the Aggies at Manhattan Saturday. The Aggies played straight football, using no trick plays. The result was in favor of the Aggies. The game was played in the mud. The Teachers led the Aggies 7-6 at the half.

Haskell's veteran backs proved too much for Fairmount and the Shockers after holding the Indians to one touchdown in the first half, weakened, and swamped 35-0.

BULLDOG ELEVEN WILL BATTLE AGAINST IRISH GRIDSTERS OCTOBER 1

(Continued from Page 1.)

been out only a week, but is getting into form rapidly. "Charlie" Langel is showing his old characteristic fighting spirit. George Merkey has all the fight that the Dutch in his name implies, and he has been using it.

The only real shortage of men at the present time exists in the number of candidates out for end position. The best men on the slate now are apparently Kozlov, letter man from last season, and Carlson who played with the high school last year. Captain Ellwood has not yet arrived, but is expected daily.

Carlson and Knowles are leading the candidates for guard position. There are, however, a number of smaller men who are showing fine form.

Campbell and Rents are giving each other strong competition for the pivot position, and both men will undoubtedly make the trip to St. Mary's next Thursday.

The old backfield men are finding some strong competition. Hahn, Kurtz, Grumpecker and Showalter are as good a quartet as can be found in the conference. Temple, Chapman, Kaufman, and Miller are, however, showing the Bulldog fight, that promises a fast backfield for the 1925 season.

The whole thing in a nutshell is that the Bulldog eleven this season will be just exactly what every fan would have it be—a heavy line, with a fast backfield—an unbeatable combination.

RALLY DAY PROGRAM SUNDAY

At the close of the Sunday School next Sunday morning a special program will be given in which all will be interested and to which all are invited. There will be readings and special music and a number given by the three sons of Rev. and Mrs. E. H. Ebby return missionaries from India. This number will bring to us the Indian customs and methods of conducting a Sunday School. Indian costumes will be worn.

SHOWALTER WINS AT FAIR

Clark Showalter, a Sophomore at the College, was not to be seen on the Campus the first part of last week. It was later discovered that he had gone home for the purpose of entering some of his choice Ayrshire cattle in the State Fair at Hutchinson. Competition in this class of animals was strong, such breeders as the Fairfield Farm of Topeka having entries in the show, but in spite of this competition Showalter was able to carry home six ribbons; two seconds, three thirds, and one fourth. Cash prizes won were sufficient to pay a full year's tuition at McPherson College. Needless to say Clark wears a broad smile as a result of his success.

DR. KURTZ AT ELGIN, ILL.

President D. W. Kurtz was a speaker on the Community Day program at St. John, Kansas last Sunday. From St. John he journeyed east to Elgin, Illinois where he is today attending a meeting of the General Educational Board of the Church of the Brethren. The continual demand for his services and his many interests in different parts of the United States makes considerable travel necessary and students of McPherson College are always sorry when he must be away.

BREON IS PASTOR IN INDIANA

Rev. W. Earl Breon, A. B. 1925, who has had considerable experience in pastoral work, has lately been called to the pastorate of the Church of the Brethren in the Salamonia congregation, located at Huntington, Indiana.

On August 30 installation services were conducted for Reverend Breon and he is now actively in charge of the congregation. His address will be Route Six, Huntington, Indiana.

KINNEAR PLANS ELABORATE CHORAL SOCIETY PROGRAM

Oratorio, "Eli," To Be Given As First Number Of Extensive Seasonal Program

The first meeting of the Choral Society was held in the College Chapel last night. Quite a number were present and a great many more are expected next week. Professor Kinnear is in charge and is planning quite an extensive program for the coming school year.

Probably the first large undertaking will be a study and presentation of the oratorio, "Eli" by Costa. This is a Bible story of considerable merit and is adapted to choral societies such as McPherson has. Plans for the remainder of the year are rather indefinite and changes will be made to meet the needs and abilities of the Society.

The Choral Society has always been a feature of McPherson College and Professor Kinnear, this year, will attempt to provide a more extensive and elaborate program, as well as to give the members more intensive practice.

The School Girl's Choice
Here's a bit of news that should help you in selecting appropriate hose for your school trunk: Of a thousand girls at one of our state colleges, six hundred wear Humming Bird Pure Silk Hosiery. This popularity doesn't "just happen."
Humming Birds are preferred because they are first with the newest, smartest colors—shades for every frock and for every school occasion.
Humming Birds caress your tapering ankles, before and after washing. They are shaped in knitting. Humming Birds are knit of pure Japanese silk, free of metallic "loading." Lustrous long-lasting. Every pair guaranteed. Four to six pairs of Humming Birds in assorted colors should be enough for the entire season. Our popular price for these popular hose,
