

SERIES XII.

NUMBER 5.

AUGUST, 1923

PUBLISHED BY McPHERSON COLLEGE
McPHERSON, KANSAS

BULLETIN
OF
McPHERSON COLLEGE

The College Bulletin is issued in February, May,
August and November of each year.

Entered as second class under Feb. 14, 1913, at the post office
at McPherson, Kansas, under Act of July 16, 1894.

THE OPENING

The school year 1923-1924 at McPherson College begins on Monday, September 10. Students should be present to register that day. All graduates of high schools or those desiring advanced standing should bring with them complete transcripts of their credits so that they may secure correct standing. This will greatly aid in avoiding any delay in enrollment. This matter may be facilitated if such transcripts are sent immediately to the Registrar, McPherson College, McPherson, Kansas.

NEW TEACHERS FOR 1923-1924

The following are new members of the McPherson College Faculty. We take pleasure in presenting them to the students and patrons of McPherson College:

DR. P. H. PEARSON, Education, Literature and Philosophy

—Dr. Pearson is one of the best known educators of Kansas. Formerly a member of the Bethany College Faculty, Lindsborg. During the war he was called to Washington, and has since been connected with the United States Bureau of Education. McPherson College is especially fortunate in securing Dr. Pearson who will give advanced courses in education and literature, and a course in philosophy.

FLOYD E. MISHLER, Coach

—Coach Mishler is an A. B. graduate of McPherson College, 1919. During the war he had a year and half experience in naval aviation. He was for two years principal and coach at Windom, Kansas. The past two years he studied in the Y. M. C. A. College and Chicago University, taking the degree Bachelor of Physical Education. The past summer he attended the Coaching School of the University of Illinois, under Zuppke of Illinois and Deble of Cornell. Coach Mishler is one of the best trained men in Kansas.

GEORGE N. BOONE, Professor of Manual Training

—Prof. Boone, A. B., McPherson, 1911, was for two years Manual Training instructor in McPherson High School. The past summer he was a graduate student in the University of Wisconsin, under several of the foremost authorities in Industrial Education. Because he has made good he was elected to this position.

VERA HOOVER, Physical Education and Music

—Miss Vera Hoover, who will be teacher of physical Education for girls and Assistant in Music, is a graduate

of La Verne College, La Verne, California; Music, 1918, College, A. B., 1922. Miss Hoover has attended two summer sessions, 1922 and 1923 at the University of Southern California, specializing in Physical Education and Music. Miss Hoover comes highly recommended. She is an experienced teacher of Physical Education and Piano, being a specialist in piano with children.

ESTELLA ENGLE, Teacher in Academy

—Miss Engle, A. B., McPherson, 1923, is a student of high scholarship. She was the Editor of the 1923 Quadrangle, and will prove a most valuable addition to the Academy Faculty.

E. F. SHERFEY, B. S. L.

A Bible student and experienced pastor will teach an Academy Bible class.

HAROLD LUNDEEN, Painting, Drawing

McPherson College is fortunate in securing Mr. Harold Lundeen as teacher of Art, of whom Dr. Birger Sandeen, says: "He is very talented and has had more than three years of instruction here at Bethany College in painting and drawing. He has done very fine work, and I am sure he will make a very good teacher." Mr. Lundeen is spending the summer in Chicago in studying design and Normal Art.

THE NEW ENDOWMENT CAMPAIGN

At the annual meeting of the Board of Trustees of McPherson College in January, 1923, a new endowment campaign was authorized. The plan is to raise \$350,000 for the College of which \$300,000 is for additional endowment, \$15,000 for the enlargement of the chapel, and the balance to cover the shrinkage and the expenses of the campaign.

Why this new endowment? In the first place, the new standards for an accredited college demand it. By 1925 every standard college must have \$300,000 paid up endowment; by 1926, \$400,000; and by 1927, \$500,000. This amount is for a school of 200 college students. The law demands also an additional \$50,000 for every 100 additional enrollment.

In the second place, every educator knows that this endowment is needed. We realize that a standard college must have a faculty, library, laboratories, and buildings adequate to do standard work. No

one can expect a college to grant degrees and fit students for state certificates, and prepare them for graduate work in the universities unless the College is adequate for the task.

When the law went into effect in 1917 demanding \$200,000 endowment, McPherson College met the requirements. As a result, the College has grown and is now one of the leading institutions of the state. But what met the needs in 1917 does not meet the needs in 1927. We now have several times the student body; the cost of living is double; and the growing standards in education demand this increase in endowment. We need it.

In the third place, what will happen if we should not get it? We must face stubborn facts. Unless the College gets \$300,000 additional endowment she will lose her standing as an "accredited college." That means, that the students will go elsewhere." That would mean great annual deficits until the College would have to close. This is a real crisis and it must be met, and I am sure will be met.

The plan is to get subscriptions within the next nine months for this amount, to be paid in five annual instalments. Annuities will also count. Those who need their income can give big annuities and help the cause while saving themselves.

Christian Education is the only hope of the future. The young people of today make the world of tomorrow. Only as they receive a Christian Education can they build a Christian Civilization for the future. For the next five years, there is only one **BIG THING** before us—the establishment of our colleges on permanent bases. This is the Cause—this is our task. This Cause must win or all is lost. "Man liveth not by bread alone." We must provide for Christian Education to create a Christian civilization.

D. W. KURTZ.

PROFESSOR DEETER WILL REMAIN

Due to the resignation of Professor E. M. Studenaker from the faculty of the Bible School, Professor J. W. Deeter has been asked to continue teaching courses in that department. While there will be a few minor changes in the courses offered there will be no material difference as to the character of the work given under Professor Deeter. The schedule has been arranged so as to accommodate the change referred to above.

Kilco Hall	20,000.00	
		\$44,775.00

Cash in Bank..... **1,294.00**

Total..... \$87,917.00

Loan Available

\$2,890.00

Net Total **\$100,807.00**

In the above statement dormitory values are listed, which are not strictly endowment, but are an earning power, bringing an income regularly to the College other than tuition. The buildings are kept in good repair and will continue to be a good asset to the College.

The financial aspect of the past year's work is quite satisfactory. The business shows a small gain for the year in the general school affairs, but our statement shows a small cash deficit instead of a good cash balance as of recent previous years.

Respectfully we submit,

-J. J. TODER, Treasurer,
J. H. FRISK, Assistant Treasurer.

*To the Board of Trustees of McPherson College, McPherson, Kansas.

We, the undersigned, certify that we have audited the books of the Treasurer from June 1, 1921 to May 31, 1922 inclusive and found same to be correct.

Dated at McPherson, Kansas, this 7th day of August, 1922.

Auditors: **HERT WEBB**
R. A. WALL

NOTES FROM THE FIELD

A very extensive field program has been planned for the summer. Dr. Kurtz has already made a canvass of the churches of Idaho on his way back from the Annual Meeting and was in attendance at their District Meeting. Dr. H. J. Harnly, who is at the present time looking after his farming interests in Texas, will make the Oklahoma churches, and give them something from his world tour as well as to the regular School work. Professor J. W. Deeter is working in the District of N. E. Kansas, and reports prospects good. Professor R. E. Mohler spent the first few weeks after school canvassing the high school seniors in the local communities, and after looking after the College Farm during wheat harvest, and threshing, is now completing his work in the home District. Professor J. J. Yoder will attend the District Meeting of S. W. Missouri and N. W. Arkansas where he has a special part on the program, and will also look after the interests of the School in that neighborhood. The Field Secretary is trying to cover the State Districts of N. W. Kansas and N. E. Colorado, S. E. Kansas, Middle and North Missouri, and the western half of Nebraska.

All indications from the field thus far seem to point to a wholesome increase in attendance this year despite the general depression that will keep many away who would otherwise be here. Already the dormitories are well filled, and those desiring rooms who have not already spoken for them should do so as soon as possible.

The Old Settlers Reunion held in the South Beatrice Church Sunday, June 17th, was a rare treat also to the Field Secretary. The people of the South Beatrice Church always make a fine audience, but with the great basket dinner served on the grounds at noon, the splendid program rendered in the afternoon, and the large crowd numbering over five hundred, it was a rare treat indeed. Elder N. B. Waggoner of Red Cloud, Nebraska was the main speaker

on the afternoon program, and Mr. John D. Schock of Blue Springs, known to many friends of McPherson College, gave an interesting talk on "Freighting With an Ox Team." Both men were old settlers in Nebraska, Mr. Wagoner coming in 1869 with his parents and other members of the family. He was then a young man (near) about twenty years of age. In an early day, Mr. Schock owned the farm on which the city of Wymore now stands. The School regrets to see the able Pastor of the South Beatrice Church, Elder Edgar Rothrock, leave the territory, but wishes him good luck in his work at LaVerne.

Fording swollen streams, and driving around washed out and damaged bridges was a part of almost every day's work in the northwest territory, and a little experience out in a hail storm with a balky Ford helped in breaking the usual monotony. The rough roads resulting from the unusual heavy rainfall, and the busy season added much to the "ups and downs" of travel.

The young people of the Afton Church, near Cambridge, Nebraska are quite active and are using quite an extensive program in instrumental music that adds much to the life of Church work.

A few days in the sand hills near Enders, Nebraska, will convince anyone of the largeness of the old world on which we live, and in the meantime you will find fine places to stop in the homes of Elder D. G. Wine and I. C. Snavely.

Running unexpectedly into a Love Feast is a fine bit of good fortune for the Field Man, and he enjoyed very much just such an occasion with the people of the Maple Grove Church, N. W. Kansas, during his recent travels. This church has a great opportunity out alone on the great plains of western Kansas.

Harvest was in the air when the Field Secretary visited the Quinter and Victor Churches, and also at Portia, Kansas, but the student work was done de-

spite the handicap. The little Portia church will send about seven or eight students next winter if present prospects prove good.

Best wishes for "Old M. C." friends everywhere.

RAY S. WAGONER, Field Secretary.

THE SUMMER SCHOOLS

The summer schools of McPherson College have made a creditable showing this summer. The eight weeks' term conducted at the college by Professors Blair, Morris, and Craik, more than exceeded the expectations of the institution as to the enrollment. Information as to the working of the new certificate law was late in coming from Topeka and for that reason some were deterred from coming, but in spite of this fact there was an enrollment of one hundred twenty-four. Professors Nininger and Ebel had charge of the Rocky Mountain Summer School at Palmer Lake, Colorado. A larger enrollment than that of last year is reported.

TEACHERS DO GRADUATE WORK

As is usual, a number of the teachers have been spending at least a part of the summer in school in various universities. Miss Edith McGaffey, of the English Department, spent six weeks in graduate work in the University of Chicago. Professor J. W. Hershey has spent his entire summer in the same institution working on his doctorate. Professor G. N. Boone, the new head of the Industrial Education department, spent six weeks studying in the University of Wisconsin. These teachers will no doubt return with an added amount of enthusiasm to their accustomed work.

McPHERSON COLLEGE

**A Standard Accredited School
in the
North Central Association of Colleges**

Academy

Fully standardized work for college entrance, including courses in Agriculture, Manual Training, Domestic Science Music, Art, Commerce, and Bible.

College

Broad liberal courses leading to the degrees, Bachelor of Arts and Bachelor of Science. A faculty of competent Christian Instructors.

Varied program of school activities under the direction of the students and faculty.
