McPHERSON COLLEGE, McPHERSON, KANSAS

VOL. XI TUESDAY, OCT. 25, 1927 NO. 7

DR. SCHWALM SPEAKS AT CONFERENCE

Home Mission Secretary And Returned Missionary Also On Program.

Dr. V. F. Schwalm was considered the outstanding speaker at the District Conference of the Church of the Brethren of Southwest Kansas which was held at the McPherson Church, October 15-18, by those who attended the conference. Other important speakers were Eld. M. R. Zigler, secretary of the board of home missions, Elgin, Ill., and Miss Sadie Miller, a missionary from India.

Dr. Schwalm gave the address at the education meeting Saturday night. In this address on the aims and purpose of the Church school, he emphasized that the Church school should have as high scholastic standards as the state schools, that it should instill in students Christian ideals, and that it should develop Christian leadership. Dr. Schwalm also gave the sermon Sunday morning, using for his subject the character of the early church. Those who heard this sermon had only words of praise for it. His talk Monday afternoon on "The Making of Future Leadership" was also much appreciated.

Mr. Zigler spoke at the Young People's Conference Sunday afternoon on "An Adequate Young People's Program for Midwest Kansas." He spoke again Monday morning at the Ministerial Conference on "The Future Ministry of the Church of the Brethren." Miss Miller talked Sunday evening at the Missionary Meeting on the problems of missionaries.

The Young People's Conference was an important feature of the District Conference. Two meetings were held, one Saturday afternoon and the other Sunday afternoon. At these meetings problems of the Young People's work of the church were discussed. The officers for the coming year are Rev. Frank Howell, Conway Springs, president; Miss Ruth Romine, Newton, vice-president; and Francis Berkebile, McPherson, secretary-treasurer. Miss Della Lehman, teacher in the English department, was elected adult adviser.

The business meeting of the conference was held on Tuesday. At this time Dr. Schwalm was selected to represent the district on the standing committee of the General Conference of the Churches to be held next June. The district decided to send Rev. H. F. Richards as a delegate to the Kansas Council of Churches, which will have a meeting at Topeka, Monday, October 24. The conference next year will be held at Conway Springs.

AUTO INDUSTRY DISCUSSED

"The Automobile Industry and the Chemist," was the theme for discussion at Chemistry club last Thursday. The following phases of the subject were presented.

"The Automobile and Metallurgy" Emery Metzger.

"Chemistry of the Rubber Tire," Raymond Trostle.

"The Storage Battery," Daniel Johnson.

"Automobile Lacquer," Mabelle Roakam.

The next meeting will be given over to the showing of a scientific moving picture. The picture is provided through the courtesy of the General Electric Company.

"Justin" Brumbaugh offers \$100 reward to anyone who will swear they stole his sweet meats. Stay within the law men!

SOPHOMORES PICNIC AT ANDERSON'S

After donning their jolliest holiday spirits and hiking apparel, the sophomores of McPherson College hiked Friday evening to Anderson's grove, two miles north of McPherson.

The major event of the hike on the way was a race between Prof. C. B. Williams, class sponsor, and Miss Iva Crumacker. Prof. Williams proved his worth as a sprinter.

When the picnickers arrived baseball was played until dark, after which a fire was built and supper eaten.

After supper the group went to town and attended the show. Miss Ruth Anderson, class president, and Miss Margaret Devillibus, secretary-treasurer, were the only ones of the hilarious group to meet with disaster, when they lost the heels off their shoes.

Many were heard to express their appreciation of the picnic, which would indicate that it was a success.

STUDENT'S COUNCIL ADOPTS BUDGET

The ghosts and goblins have promised the student council to be at the gymnasium next Monday night at eight o'clock to meet all M. C. students at the Halloween masquerade.

Booths Planned That the affair is to be conducted on the carnival plan has been announced by Miss Dorothy Swain, junior class representative to the student council, who is in charge of the affair.

Appointed persons will be in charge of booths which will sell their wares, or admit the curious to the depths of their individual secrets for a small fee.

The money received by the booths will be applied on the student council deficit.

Suitable Program

La Verne Martin, president of the student council, states that a program is being planned which will consist of varied numbers including some especially fitting to the eve of spooks and jack-o'-lanterns.

Prize For Best Costume Everyone is urged to use his resourceful originality and appear masqued in the cleverest costume he can manufacture. A prize will be awarded for the best costume.

BIG HALLOWEEN PARTY DON'T MISS THE HALLOWEEN PARTY NEXT MONDAY NIGHT AT EIGHT O'CLOCK IN THE GYM. IT IS TO BE CARNIVAL STYLE AND VARIOUS BOOTHS WILL FEATURE THE LATEST MARVELS OF THE AGE. BRING YOUR NICKELS AS WELL AS YOUR FRIENDS.

Those who visited the Republican office were: Harriet Hopkins, Ruth Anderson, Mabel Beyer, Doris Ballard, La Verne Martin, Lloyd Janson, Kenneth Eisenbise, Oliver Ikenberry and Prof. Williams.

COMMUNITY HALL TO BE READY BASKETEERS WILL HAVE NEW COURT FOR 1927-28 SEASON

According to Hans Sandstrom, of Hjerpe-Sandstrom, contractors, the McPherson Community Hall, in which the College is to play the home basketball games in the future, will be ready for use on the first day of January. The structure is steadily going up, work on the foundation having been completed, and much of the outer wall being in position.

Will Seat Crowds The whole quarter block directly north of the postoffice is the location for McPherson's long-suspected assembly hall. The building is to have two main parts: on the west side will be the auditorium, with removable seats, which, when filled to capacity will hold 2,500 people. On the east side will be the convention hall, with kitchen and band-hall, with the kitchen and band-room in the rear and above. This room is to have a cement floor and will seat 1,400 persons, and in case the special drop floor is used for basketball games, will seat 1,500 persons.

Below in the basement are to be the shower and the heating plant. The ardent basketball fans of the city will not now find themselves so inadequately equipped for their attendance at the games. The old College Gymnasium in times past will be used to house the crowds, which jammed together for the big games, even though others stayed away to avoid the trampling.

JOURNALISM CLASS VISITS REPUBLICAN

The Journalism class, taught by Prof. C. B. Williams of the English department, visited the office of the Daily Republican to observe the linotype machines and printing presses.

W. J. Krehbiel, editor of the Republican, explained to the class the principles on which these machines work and the steps of making a newspaper from the time the copy is handed to the linotypist until it is addressed for mailing.

STUDENT COUNCIL ADOPTS BUDGET

At the meeting of the Student Council on Tuesday evening, Oct. 18, the first semester budget which had been previously submitted by Elmer McConigle, Council treasurer, was discussed and finally accepted.

It was also decided that student activity tickets should be sold to trustees of the college and their wives at regular rates charged faculty members. A motion was passed that there shall be in the future a statement of the financial standing of "The Spectator" three times a year.

BULLDOGS SCORE AGAINST PUPS

Nonken and Mann Cross Goal Line—Bigham and Barngrover Lead Seconds

Keeping a continuous, but not decided, advantage over the regular string team, the Bulldogs regularly won a practice game by a score of 14 to 9. The game was played on the college field at 4 o'clock Friday afternoon.

The first quarter came in the opening quarter when Nonken went over the line on an end run. Crumacker kicked goal for point. Score, Bulldogs, 7, Pups, 0.

No scoring was done in the second quarter, the regulars being unable to advance consistently against a fighting defense. In the third quarter Mann recovered a fumble and ran for a touch down. The try for point was good, Crumacker kicking. Score Bulldogs, 14, Pups, 0. The fourth quarter was scoreless.

CONCERT POSTPONED

The Fine Arts concert originally scheduled for Friday night, has been postponed because of the serious illness of Mrs. Brown, mother of Miss Jessie Brown, director of piano. A new date for the program will be announced later.

THE CALENDAR

Thursday—State W. A. A. Convention at Wichita.
Friday—Wichita U. game at Wichita.
Saturday—Souza's band at Salina.
Monday—Halloween masquerade.
Tuesday—Y. M. and Y. W.

WORLD TRAVELER TELLS OF PHILIPPINE ISLES

Native Filipinos Are Better With Spear Than Plow.

The native Filipinos of the South Hill country love to fight one another and dance about a pile of dried skulls, but they must be driven to make them work. A native assumes no responsibility whatsoever. In return for a day's labor they receive 25 cents.

"And that is all they are worth," says H. J. Dietrich, a former student who, in company with his wife, is making a tour around the world. Mr. and Mrs. Dietrich make their home at Dumaqeta, a small town on one of the southern islands of the Philippines.

Assume No Responsibilities "In order to get work out of the natives," continued Dietrich, "one must be constantly driving them. The Cabos, who are the native gang bosses, are just as carefree as the laborers themselves. It keeps one busy from early morning until dark directing the work."

"Tell us about your day's work," asked the reporter. "What do you eat? When do you work? What do you do all day?"

"We have plenty to do. At four in the morning a boy blows upon a conch shell and awakens the laborers, who number about 100 on our plantation. The men are usually in the field by 6 o'clock. Our laborers eat breakfast at 8:45 a. m. and continue their work until noon. Then, after a short rest, they continue until sundown."

"That is very long hours?" ventured the reporter.

"Not for the speed that they work."

"Last year we harvested nearly 3,000,000 coconuts. Since the trees must be picked twelve times a year, it keeps a gang of men busy just picking the nuts. Others employ their time cultivating and caring for the trees, and in drying the meats of the nuts."

Corn Is Main Food "What do you feed your man?"

"For breakfast they eat cracked corn and fish, and for dinner and supper the same thing. Of course there is always plenty of fruit. The men are well satisfied with this diet."

Have Modern Conveniences "We are quite modern," boasted the coconut man; "we have all the popular makes of cars, see the same shows, and enjoy all the books and magazines that you do. On our plantation we have a number of automobiles and five big caterpillar tractors. Gasoline is 60 cents a gallon, but we drive just as much as you people."

Stay In U. S. "Would you advise a young man to seek the Philippines as a place for his life work?"

"Not unless you have a definite position awaiting you. The United States offers more possibilities than the Philippines."

Dietrich left McPherson College in 1908 to teach in the Philippine schools. He was later joined by Mrs. Dietrich, who was graduated in the class of 1910. After teaching two years, Dietrich became governor of a province in the Southern Islands. Since 1916 he has been located at Dumaqeta as manager of a large coconut plantation.—R. E. P.

Mr. and Mrs. John Jones of Crete, Nebraska, announced the birth of a baby boy, Paul Lawrence on October 18. Mrs. Jones, formerly Inez Harmon, is a graduate of Central Academy. John Jones is a former Bulldog track athlete.

Grand Success!

The editor recently received a letter from one of our many successful alumni of our institution of learning. The letter came from London which was quite an unusual occurrence for the editor although he regularly gets several from Paris. The editor liked it so well that he will print it here.

London, England, Oct. 5, '27. Spectator Room, McPherson College, McPherson, Kansas, Dearest Editor:

It gives me great pleasure to tell you of my great success during the last 14 years. By the way, I graduated from the academy in 1913 and was honor member of my class and my first name is Adam. My wife calls me this and thinks that I ought to call her Eve but I do not think so; but, being that you are an authority on matrimonial questions I would like to have you give me your opinion upon this matter when you answer this letter.

Oh! yes, I was going to tell you about my success. Well, you will have to forgive me for you know all great men have their troubles. When I

was three years old I had the measles and everyone thought I would die. Excuse me for getting off the subject. Now as to my success. For the last 14 years I have been running a plum orchard of 8 acres in Arkansas. I had a hard time to make a go of it at first but at the end of the 14 years I found that I had a balance of \$59.63 so decided to go on a trip around the world like Mr. Yoder but I have originality so I started out on roller skates. I took the northern route to New York via North Carolina.

When I got to New York I decided to burn up the city so I camped outside and built a bonfire on which to cook some coffee. The next day I started up Broadway and what do you think happened, a cop stopped me and told me that I could not roller skate there as there was not enough room. I finally persuaded the elevator boy at Woolworth building to let me skate to the top. This sounds hard but it is was not. I just skated around a ring as the elevator went up. I was disappointed, though, because I could not go clear to the

top as the elevator did not go that high, but the elevator boy said I had skated higher than anyone ever had before so I am still happy.

While in New York I met a man who had lost his fortune, poor fellow, whom I helped out by buying 10,000 shares of stock in the underground railroad for \$21.49. This was a bargain for me and a blessing for him. He said he was also very successful once, too, but that he had lost a fortune in the board of trade so he had to sacrifice his underground stock.

I next went to the captain of the ship and told him who I was and where I came from. He said that he would gladly take me to London. He said that he could see that I was an ambitious man so he gave me a high office on the ship, and all I had to do was to wait on him. He called me his "valet", but I am unfamiliar with naval offices so I can not state its exact rank, but I think it is very high. I created a sensation skating back and forth for the captain. I was sure glad I had skates on when the water is rough, for when the ship would rock I would roll right down to the rail very

quickly, which is nice if necessary. I roller skated all over the ship until I knew all about it from the head to the stern, from the hull to the crow's nest, and from the port to the leeward side.

We at last pulled into the English Channel and I never saw so many ships in such a short time before in all my life. We then went up to the London dock where we could get all we wanted to drink. This was surely funny, because down in Arkansas we can get all we can afford but not all we can drink. A couple of Americans got drunk and came down the dock yelling, "Toot! Toot!" We're a couple of buses, and it was surely funny, they ran into enough people to be Fords, but the Bobbies at last guided them to their ship. Bobbie are London cops. I wonder if they all are named Robert so that is why they call them Bobbies. Well this is all I have to say until I get through burning up London, but I will write again as I know you are glad to hear from great men who do great things.

Yours truly,
A. Pennypacker.

Beat The Shockers Friday

POET IN CHAPEL

As a surprise to the student body at chapel, Friday, C. E. Knox, an itinerant poet from Kansas City, read some selections of his poetry, explaining the background and inspiration of each piece.

Mr. Knox spends much time in travel and is an ardent admirer of the west. He said that he had never written a poem east of the Mississippi.

His recitations included, "Kansas", "Weeds", "Opportunity", "God Give Us Men", "My Creed", "You", "Somebody", and "Wishing I Was There With You."

In conclusion, the speaker recited the poem, "Definition of a Friend," which he said he had taught to 100,000 Kansas school children.

REVIVALS COMING

On next Sunday, October 30, the Brethren church is booked to begin a series of evangelistic meetings. Rev. J. H. Heckman, pastor of the Brethren church of Fruita, Colorado, is to be the evangelist.

Rev. Heckman is a graduate of Mt. Morris college at Mt. Morris, Ill., has a B. D. degree from Bethany Bible School at Chicago, and has done graduate work in Chicago University. For several years he was a professor of sociology and ethics in Bethany Bible School.

The Rev. H. F. Richards, pastor of the local Brethren church, advertises him as a clear thinker, a master of English, a possessor of a pleasing personality, and a fine Christian gentleman.

The meetings will continue for two weeks with a service each evening, which will be confined as nearly as possible to the limits of one hour.

Students will be welcomed to these meetings. Richards says that he feels they will be amply repaid for their attendance.

Y. REPRESENTATIVE TO DISTRICT CONFERENCE

McPherson Y. M. C. A. will have a representative in the District Conference of the organization. This is

the first year McPherson has had such a representative.

This conference is to be the governing body over both civic and college associations in the Rocky Mountain District. Delegates to this District Conference will be made up of business men in Y. M. C. A. work and Y. M. C. A. directors and representatives from each of the colleges and high schools within the district.

By having each local organization represented in a district conference, the Y. leaders felt that the national organization would be more unified and receive more support. The local representative to this conference will be elected in the near future.

EDUCATION COMMITTEE VISITS COLLEGE

A committee from the State Board of Education, which visited McPherson College Wednesday, Oct. 12, were well pleased with what they found. The members of this committee were Miss Louie Lesslie, secretary of the State Board of Education; Dean Edward L. Holton, head of the department of education at Kansas State Agricultural College; and Dr. E. F. Engel, head of the German department of the University of Kansas.

This committee, which is visiting most of the colleges of the state visited classes and went through the buildings inspecting the laboratories and the library. They also had a conference with the officials of the college.

They expressed themselves as being well pleased with the equipment of the college, and with the faculty, and the work which they saw in the

class rooms. They made a few suggestions and assured the College that there would be no change in the rating. This action of the committee means that McPherson will remain a standard college. A formal report will be made in writing a little later.

Dean Holton stated that if he were as rich as John D. Rockefeller, he would like to give a million dollars to endow a school like McPherson College.

The members of this committee gave short talks in chapel. Miss Lesslie brought greetings from the State Department of Education. Dr. Engel advised students to get an intimacy and thirst for knowledge and then they cannot be hemmed in by limitations. Dean Holton left the thought that a student makes no mistake in choosing to get his education at McPherson College.

Pepys Diary--

interestingly chronicles an event that is of significance in the management of a modern bank, just as it was when he wrote on June 13, 1667, describing a "run" on the London Banking house of Blackwell. "They are so called upon for money," he writes, "they will all be broke, hundreds coming to them for money; and they answer him, 'it is payable in twenty days—when the days are out, we will pay you; and those that are not so, they make tell over their money and make their bags false, on purpose to give cause to retell it, and so spend time.' Thus gaining time the banker saved his balance.

Banks today meet up with the same problem—that of the management of its reserve. On the other hand, it is impelled to increase its securities as far as possible, for it is from them that it derives its profits, and the retention of a large amount of idle cash is felt as a loss. On the other hand, the maintenance of a reserve sufficient to inspire the public with confidence in its ability to continue them, is a necessity of its existence, even though a part of its resources do thus appear to be kept idle. This bank maintains a conservative policy, yet seeks to invest all its funds beyond what is needed to meet current demands, maintain public confidence, and satisfy legal requirements as to reserves.

BULLDOGS MEET SHOCKERS

With no game scheduled last week, the Bulldogs will enter the game against Wichita University's Wheat-shockers in sound physical condition. Wichita is known to have a strong team, and the Bulldogs will need all the football they know when they face the Shocker eleven at Wichita Friday afternoon.

The Shockers were badly defeated by the strong K. S. T. C. team from Emporia early in the season, but last week the Pittsburg Manuals, the heavy, winning aggregation from Pittsburg Normal, had to be content with a single touchdown victory.

After their two weeks practice period, the Bulldogs are expected to show a greatly improved form over that which allowed St. Mary's a decisive victory.

Barton, regular end, is still out of the line-up with a torn ligament in his leg, but the squad as a whole is in shape. Coach Gardner expects to take a fighting aggregation to Wichita to inaugurate the winning part of the 1927 season.

Favors Better Basketball

The new hall in its ample proportions, assures the basketballers of the city that there will be no longer a lack of space for a large court, and also will please the supporting crowds who like to see a good game played with facilities that favor better performance.

College of Emporia was victorious Oct. 14 at Emporia over Wichita university, 40 to 7. The Grannmen had the upper hand from the kick-off and scored six touchdowns against the visitors. Wichita's lone counter came in the fourth quarter when a team of College of Emporia substitutes failed to hold against an onslaught of line bucks and end runs.

C. of E. showed its strength in the first period when the backs advanced the ball 75 yards for a touchdown.

Sterling College overwhelmingly defeated Bethel college in a Kansas conference game at Sterling by a score of 46 to 0.

Sterling substituted its entire second team in the second and fourth quarters, the second doing as well as the first team.

TENNIS TOURNAMENT WELL UNDERWAY

The fall tennis tournament is in full swing. An especially active interest is being manifested in this sport for this season of the year.

The tennis tournament is not completed, but eliminations are being made. The principle of a survival

of the fittest operates to discard the weaklings. Promising material is being displayed for the spring tennis since there are two or three positions to be filled on the varsity squad due to letter men not returning. Coach Gardner is very anxious that all the contestants run off games as soon as possible, before the bad weather sets in.

ALUMNI ARE ON PROGRAM OF DISTRICT CONFERENCE

A number of the alumni of McPherson College were on the program of the District Conference held at the McPherson Church of the Brethren, October 15-18.

Rev. Frank Howell, Conway Springs, had charge of the devotionals Saturday morning. Mrs. Ernest Westling, Conway, spoke at the Mothe and Daughters Conference Saturday afternoon. Eld. W. T. Luckett, Hutchinson, spoke Saturday afternoon and Monday morning. Rev. D. W. Kesler, Newton, had charge of the devotionals Monday morning. Rev. W. W. Gish, Larned, spoke Monday afternoon and Eld. George W. Burgin, Nickerson, spoke

QUADRANGLE MAKES PROGRESS

The 1928 Quadrangle, McPherson College annual, is beginning to emerge from the embryonic stage. Ultimately it will become the book of photographs, campus views, snapshots, record of events, and treasure-house of future reminiscences that students desire in a college annual.

Raymond Trostle has been chosen photograph editor, and is already at work. Juniors and Seniors are now having pictures taken at Walker's studio. Most of the campus views have been selected for the 1928 publication. A few pictures representing various phases of college life have been made, including those of football games and the gala Night Shift parade.

Alvin Voran, editor, said that he was waiting for possible freshman talent to appear before choosing the entire staff.

FORMER M. C. STUDENT RECEIVES APPOINTMENT

Vivian Spilman A. B. '26 a former McPherson college student, recently received notice of his appointment as a Junior Chemist in the United States government service. He left last Saturday for New York City where he will begin his work as a chemist in a federal prohibition laboratory.

Mr. Spilman has been teaching since his graduation from college. This year he began his work in the Roxbury High School, Roxbury, Kansas. He is the first McPherson College graduate to be taken into government bureau of chemistry.

KURTZ ON IOWA DEBATE TEAM

(Ames, Oct. 25) This evening Floyd Kurtz B. S. '27 will enter his first intercollegiate debate. Mr. Kurtz, now a graduate student in the Iowa State University of Ames

will uphold his school in a debate with Cambridge College, England. Last year Dr. Kurtz was alternate on McPherson College's Championship debate team. He is now engaged in graduate work in the chemistry department of the Iowa State University, where he received a fellowship.

NO MATTER HOW MUCH YOU LEARN YOU KNOW ONLY SO MUCH IF YOU REMEMBER. Your mind will obey you just in proportion to the requirements you place upon it if you give it a chance. You can always remember if you train your mind to serve you when and as you want it to serve. You can think and talk better and clearer with training that will take but a few minutes of your time. Prof. M. V. Atwood, formerly of the N. Y. College of Architecture at Ithaca, now Editor of Ithaca Herald-Dispatch writes: "I have all memory courses and yours is best of lot. You owe it to the public to publish it in book form. In response to this and other demands this course has been issued in a handy little volume to fit your pocket and the cost is but Three Dollars postpaid until December when Five Dollars will be the price."
LIFE AND HERALD, Johnson City, N. Y.

WHY GOD MADE HELL
Do you know why? If you don't, you should learn NOW—at once. One reviewer has said: "When Dante went to Hell he must have stirred clear of the roasting aragustas and stirred clear of the roasting apparatus. It consisted, for Dr. Rosberg, to interestingly and humorously describe the rather curious, over 600,000 have read it. Why not you? One Dollar postpaid."

GHOSTS

Speaking of Halloween and its attending spectres, you can "believe it or not," there are REAL ghosts in McPherson—not the white robed pranksters who cavort about on Halloween, for ghosts are not necessarily dressed in sheets 'n things.

More often they're MENTL frights—weird creatures nevertheless, that dog the footsteps of a person who is NOT insured against fire and storms.

The Best Ghost Remedy Is a Policy In the
