With only a few rehearsal public April 18 at 3 p.m. and April 19 at 8 p.m. A special high school performance is sche-

Professor Sai Lee, faculty member and professor of chemalong with "moon shine." joying his part, Professor Lee has been able to work closely with the students and their

Individual group practices have met daily working on characterization and mechanics with a group practice at the end of the week. Memory work has now been the goal of the cast with only a few practices, left before spring break. "We can't do anything till they know their lines," says Linda Taplin, stage manager

One problem the drama de partment is facing is the financing of the play. The budget is quite low and many of the costumes will have to be furnished by the cast.

With a lot of work and little time left, the cast will be busy. "I have confidence that the cast can put it together, because the cast can do it and has the potential," Linda explained.

McPherson College students. faculty, staff, and families will be admitted with I.D.'s. Tickets will be sold at the door. The cost is \$1.00 for adults and \$.50 for students through college.

Reservations for the formal opening can be made with the drama department or in the S. U., before Friday, April 16.

### "Elephants" Parley at Annual Convention by Vincette Goerl

The Kansas College Republican Federation held its annual convention in Wichita, March 26-27. Sixteen delegates from McPherson College Republican Club were in attendance.

Activities included a dinnerdance at the Century II auditorium with Senators Robert Dole, James Pearson and Congressman Garner Shriver as

McPherson College Republican Club received the award for the largest per cent of members in comparison with the number of students attending the college. This is the second year they have received this

As a delegate to the College Republican convention last weekend, I received a slight introduction into party politics on a small scale. Being a history and political science major, the convention provided a good opportunity to really look into party organization and pro-

From voting procedure to party caucuses, the convention was organized and held in a similar pattern to national party conventions. One does not really comprehend the underlying tensions or excitement that generates within delegates, officers. or nominees during the convention until he has actively par-

Good "politicking" is of the essence even in a convention of this size. In observing the delegates, it was not hard to identify influencial officer-holders, and even less difficult to identify party nominees for the state

officer election. These people went out of tineir way to meet every delegate and to provide any information about themselves or their slate.

Posters and buttons, placed strategically throughout the hotel, made particular names quite familiar.

Sometimes convening at 12:30 at night, the frequent party caucuses nevertheless proved the McPherson delegation to be one of the most informed at the convention. This in itself only helped their voting power to be that much stronger in the general session.

As one of the largest delegations at the convention, McPherson demonstrated the activene of their club by being the only delegation to have full sponsorship to the convention and by taking a full delegation plus alternatives.

In another perspective, the convention provided the chance to pull away from the drag of compus life and to participate in formal activities with other college students that require dress and a certain atmosphere quite distant from blue jeans

Student life in stop-motion!

### Around Campus

munity Council will be held Thursday, April 1, at 6:30 in Miller Library. The agenda was posted Wednesday, March 31.

#### What is WCA?

Students, faculty and administrators will have an opportunity to learn about 1971-72 aca-demic plans for World Campus Afloat - McPherson College, then Susan Webb, representing the World Campus Afloat Association of Colleges and Universities, visits the campus.

Miss Webb will be available rom Wednesday-Friday, April 21-23 from 9 a.m.4 p.m. at a display table in the Student Union or by appointment through Dr. Merlin L. Frantz, World Campus Affoat adviser.

Schedule for showings of the color motion picture "Semester at Sea." which describes the also is available program, through the adviser.

ploration, Introduction to Sociology, Philosophy of the Far East
and Professional Problems of founding institution for World trying to "live the life."

visiting member institutions the Association, bringing latest itineraries, course offerings and other details of the former R. M.S. Queen Elizabeth, rechristened S.S. Seawise University.

Five students will be spending their Easter Vacation with Professor Baxter. The students are Dennis Coffman, Evan Ruff, Richard Shreckhise, Jerry Snyder, and Glenn Stevens. These six will be "roughing it" in New Mexico, Colorado, and Arizona persuing a study of the Anasazi Plateau Culture, The Pueblos. Even though it sounds like as much fun as work, the course is a legitimate sociology credit.

Gary Olander, regional director of Campus Crusade For Christ, will be speaking at the chapel service on Tuesday, April 13, at 9 a.m. in the Church of the Brethren. Due to Gary's many experiences while working with college students, he will be able to share insights into many of the problems faced in

## **Easter Brings** Newborn Life

Today is April 1st, April Fool's Day, just one day before spring break, so I would like to direct your thoughts toward this Easter season of the Christian calendar.

Easter time may bring visions of a feast, colored eggs, the Easter bunny, a lamb, new clothing or other material ideas that are easily implanted in our thoughts by society and the media.

However, Easter is more than what seems to be emphasized in our materialistic world.

It has more meaning than the custom of donning new apparel in marking the advent of spring. It has more significance than Br'er Rabbit who is supposed to hide the colored eggs for all good children. It has a deeper meaning than the breaking of the Easter egg in implying the opening of the new period marked by Easter.

Easter is one of the most celebrated Christian seasons and holy days. It is the Sunday on which Christians commemorate the resurrection of Christ.

That was the Sunday morning when three women went early to the tomb where Jesus' body was laid after his death on the cross. There they found "that the huge stone covering the entrance had been rolled aside. So they went in - but the Lord Jesus' body was gone!"

This was Christ's way of bringing new life to all those who would believe in Him. "For God loved the world so much that He gave His only Son so that anyone who believes in Him shall not perish but have eternal life."

### **Muddled Thoughts Follow** "Dead End Street"

like the dice in the church, the

hypocrisy, etc. But then all of a sudden I was lost. I don't

know what I was suppose to hear, I don't know what I did

hear, and I don't know what

by Pat Keltner

With the mood set by a movin' combo, an anything but - large audience prepared for the play, "Dead End Street" performed by the Bethany College BSU, Saturday night. Written by one of the Bethany students, Kwi, the play was very well organ-ized and produced. The musical interludes by the combo added greatly to the atmosphere.

Prominent in the production where the "fools" which made up the cast, slander directed at various objects - such as education, the church, the cops, ministers, and the god to which all of these worshipped: Yeknoh. (which you find out later is just honkey spelled backwards.)

Brought to the surface were the ways in which we are artificial, praying for superficial things, worshipping education, following the first leader who comes along, and then it gets to the real meaning of the play.

But what happens on this Dead End Street? Was I the only one who left not knowing what I had heard? I heard all the words; but we don't listen in words. We listen in concepts. I caught the concepts, but I don't know what I caught,

J thought I understood. They were saying so many things I had heard before, with symbols,

### Modern Miracles

According to President Melhorn, a miracle is an event having less than a 10 per cent probability or chance. Idle speculation suggests the following as major modern miracles:

1) 100 per cent class attendance in all scheduled 7:30 a.m. classes (ditto, 8:30 a.m., 9:30 a.m., etc.)

2) 100 per cent attendance at convocation or chapel.

3) Suppose they had a faculty meeting and nobody came?

4) The Office of Student Affairs advocating same.

5) Having a motorcycle and no volunteers to ride with you.

6) An issue of The Spectator with no mention of A.P. or J.J. "I Am Curious (Any Color)" at the Spiral.

8) A student who doesn't know how many floors Bittinger Hall

The Spectator

# Should Know

one leaves his own country he must be ready to cope with any ituation that comes his way favorable or otherwise.

Speaking from experience, since my arrival at McPherson College in June 1969, there are lots to say regarding my thoughts about the people in the states and on what I found to be their conception about my country as well as the people.

Despite the warm welcome accorded me by the people I met in the College and other places, I had to face problems of food, accompdation, language barrier, finance, social and cultural adjustments.

Not knowing that I could get the kind of food I needed downtown, I had to have hamburger (the first American food best liked) and bread with some eggs for my breakfast, dinner and supper for the first few weeks of my arrival.

Regarding accomodations, 1 found it difficult to find lodging when I was suddenly informed that I should quit Bittinger Hall for another place. The lady who informed me made it clear it was my business to find a place for a duration of a week before all the students arrived. If it were not because of one of the college professors, the situation would have been a bitter experi-

I can detect that the best way to begin education in the United States is with adequate language proficiency at the outset. Foreign students who approach it with a naive "sink or swim" attitude are all too likely to sink in the attempt.

In view of the fact that the college professors do expect foreign students to compete with their classmates academically and since they need adequate English to cope with others in reading speed and writing term papers in idiomatc expressions, great emphasis should be laid on the subject,

It looks imprudent and unbecoming for foreign students to challenge grades or ask for special favors. On the other hand, it seems unfair on the part of a professor who actually underrates foreign students.

It was on record that a professor had expressed the opinon that he felt I could not do well in his English class. After an attempt to convince him, my trial failed. I had to enroll under another professor, and the result was one of the best grades I could ever achieve.

This is personal, but it is a great lesson, I am of the opinion that no matter how hard I might have tried under the former teacher, the poorest grade might be the order of the day. I believe this is an isolated case whch is not common.

Almost all foreign students, especially from my part of the world, have problems with financial stability in the States, except those sponsored by the home-government or private or-ganizations. It is interesting and ns. It is interesting and fascinating that McPherson Col-lege takes this into consideration with some aid which makes it possible for us to struggle

Summer employment is other way to augment college to be to be

finances but education should be our first concern. The situation is becoming more difficult due to the rising cost of education and the growing intellectual demands.

My choice of McPherson College, at its standard and size, church-related college, has been a blessing. Here, personal individualized help has been made possible; students, generally speaking, are friendly; and close faculty-student relationship is easy.

Before I came to the States. I had thought that nearly everywhere was thickly populated, that there were no poor people no trees except those planted and above all one does not need to work hard before plenty of money comes to his pocket

On the other hand, I have found that the majority of average Americans do not understand people, land, culture and ways of life of the Africans. Some American friends esked whether or not I had seen car in my life, or if I could tell the number of cars in my country, or how we are able to cope with the many snakes, lions and so forth around the houses! At first I was highly infuriated but later I realized that those people are completely ignorant of my country or continent and its people.

As unofficial ambassadors foreign students should do all that they can to educate their American friends about their countries, peoples, and culture. We should associate ourselves freely with them when and where possible; express our views about their ways of life; those we appreciate and those we are indifferent to, and encourage them to ask more questions about us and our countries for better understanding.

Church attendance, clubs, and social gatherings are good even though we are not Christians; we can worship with them and notice how they worship.

I feel our education should prepare us for a useful profession, so we have to plan our
