

SERIES XIV.

NUMBER 1.

MAY, 1925.

PUBLISHED BY McPHERSON COLLEGE
McPHERSON, KANSAS

BULLETIN
OF
McPHERSON COLLEGE

The College Bulletin is issued in February, May,
August and November of each year.

Entered as second class matter Feb. 16, 1912, at the post-
office at McPherson, Kansas, under Act of July 16, 1894.

JANUARY 1, 1927

Will January 1, 1927, mean victory or defeat? Will it mean deliverance or doom? It will be one or the other. McPherson College is on the standard list of colleges until that date, then "to be or not to be" standard, which very nearly means to have a future or not, will be dependent upon the response the friends of the College make from now till then. We must have \$500,000 paid-up endowment by that date to remain on the standard list. There is no other way. It must be done; and it can be done.

We can meet this crisis if the friends of the College will do two things. First, all who have unpaid pledges for endowment, no matter when they fall due, pay those pledges before January 1, 1927. Do not wait until the last minute, plan definitely now to pay all pledges before that time. Make small payments this year—no matter how small the amount, begin to pay off your pledges and finish by January 1, 1927. Secondly, we must have many new gifts. We hope some who have more farms than they need will give a farm each to the College. Scores of others can add to their previous gifts and pledges. Hundreds of the alumni have never really backed the institution and now we must get their support. No one will lose as much as the alumni if the College loses standing; and no one will gain as much as the alumni if the College is sustained.

Christian education is the only hope for the world. The leadership for Christian education everywhere depends upon the Christian college. McPherson College is one of the leading Christian colleges of America, and outstanding in the West. This institution needs your help now. Begin today, so January 1, 1927 will mean victory.

D. W. KURTZ, President

WHY THE CHRISTIAN COLLEGE

To raise this question is to raise another—Why the Christian Church? The purpose of the Christian college is one with the Church—and a part of the program of the Church. There is no part of the church's program that is not dependent upon the success of the Christian college.

1. The Church depends upon the college for its trained leadership. No other institution can supply this. Statistics show that 90 per cent of the ministers and 95 per cent of the missionaries have come from the church college.

2. The college must train the laity. The future men in the professions and in business and industry who are to back up the program of the Church need a Christian education. Hence the Christian college must capture the leadership of the future in all human institutions if the church is to function properly.

What is a Christian college? A standard Christian college provides the faculty, equipment, courses and facilities for a standard college education, leading to the A. B. or B. S. degree. But the term Christian involves certain specific things.

1. Such a college is usually owned and controlled by an evangelical denomination.

2. A Christian college should employ for faculty only persons who represent the Christian faith and life.

3. A Christian college must have an atmosphere of reverence and respect for the Christian life. It must foster the Christian philosophy of living.

4. A Christian college offers courses in Bible, especially in the life and teachings of Christ; and in religious education, as regular parts of the college curriculum.

5. The Christian college has regular periods of worship chapel exercises—and fosters student movements, such as the Y. M. C. A., Y. W. C. A., Student Volunteer Band, Christian life service organizations, student prayer meetings, etc.

6. The Christian college, in connection usually with the local church, provides Sunday school and preaching services each Sunday and thus offers opportunities for spiritual growth and service.

The program of the Christian college is to make the religion of Jesus Christ a normal and natural part of college life. The whole atmosphere of the institution is reverent and loyal to Christ, so that all phases of Christian worship are felt as essential and harmonious with life as a whole.

In the Christian college all subjects of the curriculum are taught by Christians. Science is thus seen in its true light as a description of the behavior of God's world. Literature is seen as an effort of our poets and writers to express in an adequate way, in the form of beauty, the eternal laws of the true and good in God's world. The best in literature and art are only approximations to that full truth and goodness in revelation.

History is understood as the experiment of the human race in living upon the earth, and the gradual discovery by the race of those universal laws of God in human life which constitute our ethics. Philosophy is the effort of the intellect to analyze, synthesize and coordinate all the facts of human experience into a view of the whole of reality, which ends in a theistic view of the universe.

The Christian college, with a Christian faculty, and the curriculum which includes the special courses in Bible and in religious education, and the worship periods, is the only kind of an institution that

can prepare the leadership, of laymen or preacher, that will forward the program of the Church in this modern age.

The Christian college is the salt of the earth.

1. Democracy depends upon it. Democracy depends upon intelligence, morality, and unselfish public service. These elements cannot be created and maintained without a dynamic religion—the religion of Christ. Imagine all Christian colleges closed for a century, and we find that not only would the churches go down but morality would lose its fiber and democracy could not continue. Democracy depends upon fundamentally Christian elements.

2. Prosperity depends upon the Christian college. Roger Babson, the greatest authority on economic statistics, shows that prosperity and the churches go together. If the churches wane, prosperity goes down; when the churches increase in vitality, prosperity comes back. The fundamental elements in prosperity are the fundamental elements in the Christian religion. Prosperity must have moral stability in the community, the stability that rests upon honesty, dependability, honor, righteousness, and justice. Let morality go down, and prosperity goes with it. But all students of ethics know that a virile morality depends upon a vital religion. The leadership of the future must have a Christian education.

3. World peace depends upon the Christian college. It is now being recognized by leading thinkers of all kinds—editors, writers, philosophers, scientists, that nothing less than the gospel of Christ has hope of getting men to live in peace and harmony in a crowded world. Our future statesmen, diplomats, and leaders in industry must be given a Christian education. These men, in positions of strategic importance, direct the destiny of nations. It makes all

the difference between human welfare and human destruction whether or not these men have a Christian view of life.

4. The solution of the human problem depends upon the Christian college. The problem is to get to be physically viable, intellectually rational, socially moral, and spiritually harmonious with God. Nothing less than the religion of Jesus Christ can meet these needs. The leadership of the future must have a Christian education.

We are in an age of standards. The college graduate expects a state certificate, or he plans to enter a university, and he wants his degree to be worth all it pretends to signify. This will only be true if the college that grants the degree is standard, or fully accredited.

The standardizing agencies have determined what is necessary as a minimum requirement. These requirements cover the kind and quality of faculty, courses of study, size of classes, library, laboratories, equipment, tone of culture in the institution, and the element of permanency which the institution must have, represented by the paid-up endowment in its possession. By January 1, 1927, the minimum will be \$500,000 paid-up endowment for two hundred students, and an additional endowment for each additional student.

Roman Catholic institutions are multiplying rapidly and are being standardized as fast as they come into being. Many Protestant colleges are hanging in the balance for want of endowment. Protestants have the money, but they have not seen the vision. The hour is here when they must realize that the future of the Church, of democracy, of prosperity, of human welfare, are all at stake. Our glorious

Protestant ideals cannot be maintained unless we have a Christian leadership for the future. Now is the crisis. Do you value Protestant ideals of life? Do you realize that our freedom, prosperity, our blessings of life, liberty, and welfare, are the fruit of a Protestant civilization? Do you want these blessings to continue for our children and our children's children? Then give now, to your college a share of your savings, proportionate to the need. What good is your wealth if all the ideas that give value to life are to be lost? The Protestant Christian college is essential to the future. The problem cannot be solved without her—all depends upon Christian leadership which must be trained in the Protestant Christian college. Protestants arise, meet the need, do it now.

D. W. KURTZ,
McPherson College
McPherson, Kansas

NEW TEACHERS TO COME TO M. C.

PROFESSOR OF RELIGIOUS EDUCATION

John Luke Hoff, A. B., B. D., A. M., Manchester College, Bethany Bible School, and Northwestern University, has been secured to teach religious education and general education. Professor Hoff has completed his residence work for the Ph. D. degree at Northwestern University. The coming of Professor Hoff will place McPherson College in the first rank in religious education, a field with tremendous possibilities, and will add strength to the department of general education.

ART

Miss Marcella Baird, graduate of the normal art course at Bethany College, and art student at Belmont, Nashville, Tenn., and Southwestern College, Winfield, Kan., has been employed to teach art during the coming school year.

HOME ECONOMICS

The Board of Trustees is pleased to announce that Miss Mayme E. Welker, B. S., A. B., who has given such excellent service during the year, has consented to remain for the coming school year.

ASSOCIATE PROFESSOR OF ENGLISH EMPLOYED

Miss Florence E. Teager, graduate of the State University of Iowa, and graduate student, University of Chicago, has been employed as associate professor of English. Miss Teager has excellent training, high scholarship, and a wide and successful teaching career, in high school, junior college and university.

SCIENCE TEACHERS REPRESENT M. C. AT MANHATTAN MEETING

McPherson College was unusually well represented at the 57th annual meeting of the Kansas Academy of Science at Manhattan, April 10-11. Prof. H. H. Nininger, of the department of biology, the retiring president, gave the president's address on Friday evening, using as his subject, "Observations on Meteorites, with Special Reference to Kansas." This paper, which was the result of two years' observation and research in connection with Kansas meteorites, brought forth highly favorable comment

from the scientists of the state. Professor Nininger read three other papers, "A Problematical Hybrid Grosbeak," "The Status of the Bullock Oriole in Kansas," and "A New Kansas Aerolite, Referable to the Fall of November 9, 1923." Dr. J. W. Hershey, of the department of chemistry, read a paper, "The Effect of 99.97 per cent Oxygen and 0.03 per cent Carbon Dioxide on Animal Life." This paper showed the results of original and unique study conducted in McPherson College chemistry laboratories. Dr. H. J. Harnly, of the department of geology, presented a paper, "The Mushroom Rocks near Carneiro, Kansas." This paper was illustrated with pictures. Prof. J. A. Blair and G. N. Boone were also in attendance at the meeting. Dr. Harnly acted as toastmaster at the annual banquet of the Academy at which several hundred scientists and their friends were present.

NEW ACQUISITIONS TO THE MUSEUM

The present school year has witnessed a number of important additions to the museum collections. Some of the most important of these are as follows:

The Harnly collection—The Harnly family has lent to the museum a unique collection of family relics including a number of very old books, among which are several German editions of the Bible, dating back as far as 1726. These volumes are in an excellent state of preservation and form a valuable addition to our collection. In addition to the books, there are many other interesting relics in this collection which speak eloquently of the customs of the past. The collection will be kept together in a part of the new wall-case which is planned to occupy the east side of the museum room.

A Meteorite collection—Prof. H. H. Nininger,

during the past two years, has been devoting considerable attention to the study of meteorites, particularly those found in Kansas. He has called attention to the fact that though Kansas has been the finding place of more of these rare visitors from space than any other state in the union, there is at present no considerable collection of them within the state. Through his activities in this field the museum has acquired specimens from eleven different meteoric falls as follows:

Name and Locality	Classification
Coldwater iron, Comanche Co. Kan.	oxidized iron meteorite
Coldwater aerolite, Comanche Co. Kan.	stony meteorite fell Nov. 9, 1923
Holdbrook, Ariz.	stony meteorite, fell 1912
Forest, Ia.	stony meteorite
Mocz, Hungary	stony meteorite
Saline, Sheridan Co. Kan.	stony meteorite
Long Island, Phillips Co. Kan.	stony meteorite
Zenith, Reno Co. Kan.	stony meteorite (undescribed)
Carlton, Ariz.	iron meteorite (ataxite)
Weid Co. Colo.	stony meteorite fell July 8, 1924
Brenham, Kiowa Co. Kan.	iron-stone (pallasite)
Admiral	iron-stone (pallasite)

The first nine of these are a gift from Professor Nininger, the Brenham was purchased from him by the departments of biology and geology, and the Admiral was received as a gift to the museum from the Honorable J. M. Davis, of Greensburg, Kan.

Numerous other gifts have been acquired during the year, among which are an English edition of the Bible, 200 years old, presented by the family of Theodore Robb, class of '26; an Indian pipe-hatchet, by J. R. Mohler of Quinter, Kan.; stalactites and stalagmites from Carlsbad Cave by Cecil Hornbaker; an ostrich egg by Mr. John A. Hultqvist, and a flail by Mrs. Effa Kuns Sharp.

FORENSICS AT McPHERSON

The forensic season at McPherson College, while not as brilliant as sometimes, can lay claim to some noteworthy achievements. The varsity debating teams consisted of one veteran from last year, Kenneth Rock, and three freshmen, Harry Lehman, Harvey Lehman and Mildred Libby. The debaters worked earnestly and delivered a series of good debates. The new method of using a single critic judge seemed to be satisfactory, and may have been responsible in part for several of the defeats.

Because of the small enrolment in the Academy, no academy debate team was organized. In its place a team was formed limited to underclassmen, consisting of Archie Patrick, Charles Lengel, Anna Lengel and Floyd Kurtz. In a dual debate with Tabor College and a single debate with Kansas City University, McPherson won two of the three decisions. Next year an effort will be made to organize a girls' team.

In oratory the record of the year is more noteworthy. For the first time in six years, McPherson placed as one of the first six in thought and composition in the Kansas State Oratorical Contest. Unfortunately, the McPherson orator, John Lehman, because of illness was unable to deliver his oration in the state contest.

In the State Peace Contest, the McPherson orator, Kenneth Rock, took third place among nine contestants. McPherson College entertained the state contest this year on April 24. The competition was keen, and the orations showed much diligent preparation.

In addition to the intercollegiate contests, the Forensic Club provided a number of local programs to afford opportunities to students for practice in

self expression. McPherson College endeavors to meet the need for opportunity to develop the forensic talents of her students.

QUARTET MAKES TRIP

The College male quartet, Samuel Kurtz, Harold Barton, Alvin Voran, and Clement Haldeman, accompanied by Miss Katherine Penner, soloist, and Winston Cassler, pianist, made a tour into Nebraska, northeastern Kansas, and western Missouri, April 6 to 13. They gave programs at high schools and churches. The itinerary included Holmesville and Carleton, Neb., Sabetha, Morrill and Kansas City, Kan., and Kansas City, Mo. Everywhere the group was well received.

SCHOOL YEAR BRINGS MANY SPEAKERS

The school year has brought to the College an unusual number of leaders and lecturers. The list of prominent men in the Church of the Brethren who have spoken to faculty and students includes the names of Dr. J. M. Henry, president of Blue Ridge College and chairman of the Peace Committee of the Church; Virgil C. Finnell, of Elgin, Illinois; C. H. Shamberger and M. R. Zigler, prominent in young people's work; Ezra Flory, General Sunday School Secretary; and Dr. Edward Frantz, editor of the Gospel Messenger. Other speakers of note who have come are Dr. Wilbur Thomas, director of the European relief work of the Friends Church; Dr. Arthur Butler Hulbert, of Colorado College, famous authority on old trails in the United States; Dr. Charles E. Barker, of Grand Rapids, Mich.; Dr. Ira Landrith, president of the Intercollegiate Prohibition Association; Kirby Page of the National Y. M. C. A., and Judge Ben B. Lindsey of the Juvenile Court of Denver.

THE LIBRARY GROWS

An effort is being made to make the Carnegie Library serve the needs of the ever growing College in the most efficient manner. Five hundred new books have been accessioned during the year, and many new periodicals have been added to the subscription list. The magazine and reading rooms are open during the noon hour, giving students access to the magazines and newspapers. Library hours have also been extended to include an hour and a half in the evening. The evening attendance ranges from ten to sixty, with an average of thirty-five.

Friends of the College have presented to the Library several much appreciated gifts. Mrs. Effa Kuns Sharp of McPherson has given a set of Thackeray's works; Mrs. Beachy of Wichita a number of religious books; Mr. G. A. Ricketts, also of Wichita, a set of books on the science of railways; and Miss Sarah Miller of McPherson a number of books on various subjects.

New chairs have been added to the equipment, and new shelving is being installed in one of the basement stackrooms. Fifty volumes of magazines are being prepared for binding during the summer months.

SENIOR CLASSES GIVE MEMORIALS

The Senior Academy Class of '25 presented as its memorial to the Institution a Nelson's American Standard pulpit Bible. The book is ten by twelve inches and weighs about twenty pounds. It is bound in black Levant boards with square corners, gold roll, and gold title stamped on the back. The leaves are edged with gold and red. The English type is used. The gift is to serve as a pulpit Bible in the College Chapel.

SENIORS GIVE MEMORIALS

The College Class of '25 has the unique privilege of leaving its memorial to the College in the new building of the Church of the Brethren on College Hill. The plan includes the construction of a pulpit stand, a wall painting of the River Jordan, two art medallions, and one large art window. The subjects of the small windows are Christ Healing the Blind Man, and Christ Talking to the Woman at the Well. The first of these is to be placed in the Junior and Senior Men's Sunday School room. The large window is a painting of Christ and the Disciples on the way to Emmaus. It is dedicated to the memory of an alumnus who gave his life in the cause of Christian missions—J. H. B. Williams, A. B. '06. This last gift is made possible through the aid of friends of Mr. Williams.

THE ACADEMY IS DISCONTINUED

The Board of Trustees, in annual session in January, decided to discontinue the Academy. This change in college policy has been made because of the marked decrease in enrolment in Academy classes. Provision is made for high school students who have not fully completed their requirements for college entrance. They may enroll in sub-freshmen classes. For 1925-26, provision will be made for academy courses in English V and VI, geometry, physics, Caesar, American history and typewriting. With the approval of the classification committee, qualified students may elect for entrance credits courses in agriculture, art, Bible, commerce, German, home economics, manual training and music.

Prof. Charles S. Morris of the department of mathematics and physics will spend the entire sum-

mer doing advanced research work in the University of Chicago.

Prof. R. E. Mohler of the department of agriculture has spent the past semester and will spend the summer studying in the University of Wisconsin at Madison.

Prof. H. H. Nininger of the department of biology will have charge of the Rocky Mountain Summer School, and will then spend a year's leave of absence in traveling and lecturing on natural history subjects. He expects to devote a part of that time to research work.

Prof. J. A. Blair of the department of education, after superintending the McPherson Summer School, will spend the rest of the summer studying in the University of Iowa.

Prof. Willard O. Mishoff, of the department of history, will teach in the McPherson Summer School and study in the University of Iowa.

ALUMNI

Leland Moore, A. B. '24, and Alma Anderson Moore, A. B. '20, who have been teaching at Preston, Kan., will go to St. John, Kan. next year. Mr. Moore will be superintendent of schools, and Mrs. Moore will teach in the high school.

J. Clyde Forney, A. B. '19, at present pastor of the Church of the Brethren at Lanark, Ill., has been called to the pastorate of the congregation at South Bend, Ind. He will assume his new duties September 1.

Dr. Robert R. Russell, A. B. '14, has been receiving recognition in historical circles. The May issue of the Review of Review, in an article entitled, "The Farm and the Farmer in Recent Books," pays another high tribute to his book, "Economic Aspects

of Southern Sectionalism, 1840-1861." In the course of comments on the work, there occurs this passage, "Mr. Russel's study of the South, in the light of economic facts, has been made with great diligence and with access to much first-hand material that has not been utilized in a similar way by any preceding writer. No author, perhaps, has so well and carefully presented the facts as to the Southern attitude on protection and free trade as Mr. Russel succeeds in doing." Dr. Russel was a speaker on the program of the eighteenth annual convention of the Mississippi Valley Historical Association, held recently in Detroit, Mich. He spoke on the topic, "The Pacific Railway Issue in Politics Prior to the Civil War." He has done considerable scholarly work in this field. He is teaching in the Western Normal School at Kalamazoo, Mich.

McPherson College and the community learned with great sorrow the news of the drowning of Wilbur F. Vaniman, A. B. '18, at Palo Alto, Calif., April 26. Mr. Vaniman was doing graduate work in biology in Leland Stanford University. He expected to receive his master's degree this summer and to pursue his work for the doctor's degree in 1925-26. Only a few days before his death he had accepted a position as assistant in the department of biology at Leland Stanford University for next year. The premature passing of a life which promised so much has brought inexpressible sadness to all who knew him.

Paul C. Warren, A. B. '20, is now pursuing graduate work in theology in New York City. He is also serving as assistant pastor of the West End Presbyterian Church, a congregation of twenty-five hundred members. In this capacity he makes about one thousand calls a year, has charge of much of the Bible work, teaches the Men's Bible class, officiates at many funerals and weddings, assists in the pulpit at the various services and occasionally preaches.

Elmer Krehbiel, Academy '22, was placed on the honor roll of the University of Kansas during the first semester of this school year.

De Witt Wager, A. B. '22, now holding a position as special chemistry assistant at the Michigan State Agricultural College, East Lansing, Mich., has been awarded a valuable scholarship in the University of Copenhagen, Denmark. This fellowship, which carries a stipend of \$1,000 a year for two years, was awarded on the basis of scholarship.

Gladdys Muir, A. B. '15, now doing graduate work in history in the University of California, is writing her thesis for the doctor's degree on the subject, "The Emigration of Mennonites, Dunkers, and Quakers into the Trans-Mississippi West."

Miss Estella Engle, A. B. '23, now office secretary at the College, will teach at Ozawkie, Kan. next year.

Garman Daron, B. S. '24, who held a fellowship in biology at the University of California the past year, has been awarded another fellowship in the same department for 1925-26.

HIGH SCHOOL FESTIVAL WAS A SUCCESS

On Saturday, April 18th, the Fourth Annual High School Festival was held. In attendance and enthusiasm the event was a great success, and made much improvement over the festivals of previous years. A careful estimate of the total number attending the Festival is placed at one thousand.

A change was made in the program whereby a complete field and track meet was held and the events were open to all high school students instead of being restricted to seniors. At the invitation of the State Athletic Association this meet was made an

elimination meet for the state meet at Emporia. These changes did much to make the day one of great importance to the high schools of Central Kansas.

The following schools entered the meet: Buhler, Burrton, Bushton, Canton, Castleton, Florence, Galva, Halstead, Hillsboro, Hope, Hutchinson, Lindsborg, Little River, Lost Springs, Lyons, Marquette, McPherson, Moundridge, Newton, Ramona, Roxbury, Sylvia, and Windom. Two hundred thirty-one athletes were entered and over five hundred individual entries were filed. Hutchinson High School captured a great majority of the medals offered and also the cup that was awarded the winning school. McPherson High School was second and won the relay cup.

Following the meeting the visiting seniors were conducted on a tour of the campus and buildings. At six o'clock, three hundred forty-eight seniors and teachers were present at the two banquets held in the dining room of Arnold Hall and the physics laboratories of Harnly Hall. The closing event of this successful day was a program given by the students of the fine arts department of the College.

SENIORS AWARDED HONORS

In keeping with the college custom the commencement exercises closed with the awarding of honors to those of the Senior Class whose work has been of high character throughout their college course. Nine students were placed on the Honor Roll of McPherson College. Laura B. McGaffey, history, was graduated with highest honor. Four students were graduated with high honor: Gladys Adamson, history; Alice Birkin, English; Ocie McAvoy, English; and Miriam Wenrick, education. Four were graduated with honor: Leonard Birkin, history; Mary Sherfy, English; Rose Stauffer, history; and Pearl Wiltfong, modern language.

Laura B. McGaffey was elected by the Faculty to the Fellowship offered by the University of Kansas for 1925-26. This fellowship carries with it a stipend of four hundred dollars. Miss McGaffey will do graduate work in history.

The scholarship offered by the College to the honor student of the Academy graduating class goes to Margaret Dresher.

Dr. S. Z. Sharp, founder and first president of McPherson College was here for Commencement week.

Jay Eller of this year's graduating class will be a graduate assistant in physics in the University of Washington next year.

The events of Commencement week included the President's reception to the college seniors, graduation exercises for Sunday School teacher training classes, baccalaureate sermon by President D. W. Kurtz, the senior play, "As a Man Thinks," by Augustus Thomas, "M" banquet for letter men of the College, senior college and academy class day programs, the alumni banquet, and the graduation exercises. Dr. Charles M. Sheldon, famous pastor, lecturer, author, and editor, gave the commencement address.

September 7 and 8 are the days set for registration for the school year, 1925-26. The formal opening will come with the President's address on September 9 at 10:00 A. M. Indications point to a record breaking attendance.

**CANDIDATES FOR GRADUATION
BACHELOR OF ARTS**

Adamson, Gladys, McPherson, Kan.	Kline, Harbo D., McPherson, Kan.
Balby, Velma A., Ender, Nebr.	Leatherman, Lorinda May, Arlington, Kan.
Bartel, Zacharia C., McPherson	Lingle, Lavera Prarl, McPherson, Kan.
Barton, Harold R., Chikocco, Okla.	Long, Vivian A., Burlington, Colo.
Betts, Ruth Prantz, McPherson, Kan.	Lunderv, Harold, McPherson, Kan.
Birklin, Alice, McPherson, Kan.	McAvey, Ocie M., Thomas, Okla.
Birklin, Leonard, McPherson, Kan.	McCall, Charles A., Richmond, Kan.
Breon, William Earl, McPherson, Kan.	McGaffey, Laura B., McPherson, Kan.
Crist, LeRoy Allison, Quinter, Kana.	Merker, Maude, Fortia, Kan.
Crumparker, Lillie V., McPherson, Kan.	Palr, E. Emmert, Beatrice, Nebr.
Doty, Cecil LeRoy, Redmond, Ora.	Peck, Mary Bernice, Falls City, Nebr.
Dunham, Edna Evelyn, Broughton, Kan.	Frather, Della May, Mound City, Mo.
Eller, Jay Vernard, Arrita, Colo.	Frather, T. Elvie, Mound City, Mo.
Fogstrom, Selma L., McPherson, Kan.	Rhine, Pearl Eugene, Quinter, Kan.
Fike, Christian Lighty, McPherson, Kan.	Rhodes, Floye Frances, McPherson, Kan.
Flaher, Glad, Fruitland, Idaho	Sberly, Mary E., Mont Ida, Kan.
Frank, Fdella, Elsin, Ill.	Silfer, Edith Grace, Hagerstown, Md.
Fries, J. Howard, McPherson, Kan.	Szauffer, Rose Mae, Polo, Ill.
Gray, Hanna Aenid, McPherson, Kan.	Strickler, Harold W., El Centro, Calif.
Haas, Lila Kinzie, Nickerson, Kan.	Unruh, Albert, Hillsboro, Kan.
Hawkins, Ruth Viola, Moorland, Ind.	Vaniman, Kiberia L., McPherson, Kan.
Heckethorn, Lulu Mabel, McPherson, Kan.	Waldmster, Lester Roland, McPherson, Kan.
Hiebert, P. N., Moundridge, Kan.	Wall, Margaret F., McPherson, Kan.
Hibb, Marathen Eby, New Plymouth, Idaho	Wampler, Ervile L., McPherson, Kan.
Himes, Addie E., Hope, Kan.	Wearick, Miriam, Leeton, Mo.
Himes, Ralph M., Hope, Kan.	Williams, O. P., Jr., Flatberrg, Mo.
Hoffman, Mabel Mar. Ablesse, Kan.	Wiltfong, Pearl Mae, Cordell, Okla.
Keim, Stanley B., Nampa, Idaho	Yoder, Lovetta Mae, Conway, Kan.

BACHELOR OF SCIENCE

Betts, Vilas D., McPherson, Kan.	Keim, Stanley B., Nampa, Idaho
Carpenter, Mildred Ruth, McPherson, Kan.	Kubin, Milford T., Greenston, Kan.
Carman, Ralph Newton, Fayette, Idaho	Kurtz, Paul Russell, Greensawn, Ohio
Greene, Ruth G., McPherson, Kan.	Long, Vivian A., Burlington, Colo.
Griffin, Mabel Grace, Nickerson, Kan.	Mohler, Fannie Rose, Leeton, Mo.
Harden, Len, Otawkie, Kan.	Morris, Earl Freemoot, Peru, Ind.
Hoeltter, Abram E., Hope, Kan.	Ruthrauff, Curtie L., Redfield, Kan.
Jones, J. Herman, McPherson, Kan.	Unruh, Albert, Hillsboro, Kan.
Jones, Julia Eleanor, McPherson, Kan.	Warner, Leo L., McPherson, Kan.
Keim, Richard V., Nampa, Idaho	

BACHELOR OF MUSIC

Lingenfelter, Fern, McPherson, Kan.	Scott, Hazel, Moundridge, Kan.
-------------------------------------	--------------------------------

ACADEMY

Baker, Theodore, Belleville, Kan.	Hornbaker, Cecil, Darlow, Kan.
Trubaker, L. Marie, Wichita, Kan.	Martin, Herbert, Fruitland, Idaho
Brumbaugh, Clarke, Hartville, Ohio	Shasio, Merle, McPherson, Kan.
Brunk, Fern, McPherson, Kan.	Synhu, Philip, Inman, Kan.
Carnoy, Jesse, Nurelty Mo.	Wagener, Nettie, McPherson, Kan.
Dryber, Margaret, Canton, Kan.	Wine, Ruth, River Forest, Ill.
Esau, Kathryn, Inman, Kan.	

DIPLOMA IN MUSIC—(Piano)

Chaves, Della, Moundridge, Kan.	Gilson, Mrs. Iva, McPherson, Kan.
Brown, Beale, Roxbury, Kan.	Peck, Bernice, Falls City, Nebr.

TEACHERS' CERTIFICATE

Witchey, Grace, McPherson, Kan.

PUBLIC SCHOOL MUSIC CERTIFICATE

Bremen, Beale, Roxbury, Kan.	Doll, Mrs. Cecil C., McPherson, Kan.
Betts, Mrs. Ruth, McPherson, Kan.	Lingenfelter, Fern, McPherson, Kan.
Chaves, Della, Moundridge, Kan.	San Roman, A. E., McPherson, Kan.
Doll, G. Lewis, McPherson, Kan.
