ENCOURAGING PROSPECTS FOR A LARGER ENROLLMENT

More young people than ever before are planning to go to college this coming year. It is not enough that they should choose to go to college. It is more important that they should choose the right college. We believe that McPherson College is one of the best because it offers in the largest and richest measure those elements of life which are essential.

Choose a college that provides a standard education worth one hundred percent everywhere. McPherson College meets this demand, being fully accredited by the North Central Association and the State, gives our graduates an equal standing with the best universities of the country. Every member of the faculty has met the highest tests of scholarship. Our new Science Hall is the best in the west, and our library and equipment have met the demands of the most critical inspectors for over twenty years.

Choose a college of high moral and spiritual standards. Our college has won a reputation for her high character that places her at the top. This is the verdict of Y. M. C. A. secretaries, Y. W. C. A. secretaries and those experts in education that are acquainted with all the institutions of the west. All of them testify that McPherson College is different—none of the campus evils exist here that are the common experience elsewhere. This is not an accident. We hire only persons for the faculty that are Christians. No one is on our payroll that does not stand for the Christian life. Seven different denominations are represented on the faculty, and twenty different churches were represented in our student body. But all are the finest, cleanest, red-blooded young people of the country.

We believe in fun, in social life, in everything that makes life rich and full but it must be clean. No one can afford to choose a college to prepare for life where it is hard to grow a strong and virile character.

McPherson College has about 1500 alumni found in all parts of the world. McPherson men and

women make good. They have a quality of scholarship, character, and efficiency that draws a premium. McPherson College has quality. I therefore personally invite you to our splendid institution.

D. W. KURTZ,
President.

McPHERSON COLLEGE SUMMER SCHOOL

McPherson College closed a very successful summer term of school work this year on July 24. The session extended over a period of eight weeks beginning immediately at the close of the spring term. The enrollment showed a slight increase over last year's attendance which gives this summer session the distinction of having the largest enrollment in its history. The enrollment is placed at 141. About eighty percent of this number were those who were taking regular college work leading to a degree or were qualifying for a state certificate. Courses were offered in Social Science, Education, Literature, and Physical and Biological Science with four of the regular college faculty in charge—Professors Mishoff, Blair, McGaffey and Hershey.

In addition to these regular college courses intensive review was given in the common school branches to those teachers who were planning to take the county examinations for a certificate to teach in the elementary schools. This work was in charge of Miss Annis Lovett, an experienced elementary school teacher and one of the most successful in the county. Miss Florence Kline of McPherson gave the music reviews.

Besides the regular full-time teachers two instructors were employed to assist in taking care of such students of high school rank who were finishing work leading to graduation.

A feature of this year's summer session which is the first of its kind was the Commencement exercises which were held in the college chapel the morning of July 24 at which time five students received the A. B. degree and one the B. S. degree. Professor Blair, dean of the Summer School conferred the following degrees: A. B. Mary Sherfy,

Mont Ida, Kansas, Lillian Hope, Hutchinson, Kansas; LeRoy Doty, Redmond, Oregon; Esther Kaufman, McPherson, Kansas; Celia Watkins, Ottawa, Kansas; B. S. Laurence Vaniman, McPherson, Kansas.

The granting of degrees at the close of summer school will in all probability be the usual procedure in the following summers inasmuch as a faculty ruling last winter makes it impossible for any candidate for graduation to receive a degree without first completing the entire course prescribed by the college. There are always a few students who fall short of graduation at the close of the regular winter session by a few hours and for such the degrees will be conferred at the close of the summer session when such conditions will be removed.

Students and friends of McPherson College regret to learn of the resignation of Floyd E. Mishler as Director of Physical Education and Coach of Athletics. Mr. Mishler came to McPherson College in 1923 and while here gave the students one of the most thorough and diversified programs in athletics and physical education that the college has ever had. It was largely through Coach Mishler that the athletic activities of the college were reorganized and placed in the hands of a Board of Management representing the trustees, alumni, faculty, and student body of the college. Although reelected for another year at an advance in salary Mr. Mishler could not resist the lure of the balmy air and the beautiful flowers of southern California where he has accepted an attractive position in the Santa Monica High School.

With the resignation of Coach Mishler comes the announcement by the Board of Trustees of the election of his successor, Mr. George Gardner of Arkansas City, Kansas, son of the resident Presbyterian minister of that place. Mr. Gardner is a graduate of Southwestern University at Winfield, Kansas. He holds an unusual record in college athletics, being the possessor of sixteen letters in that line of activity. While in college he played basketball four years, making the Kansas All-State Team

every year; football three years, making the All-State Team two years; and made the All-American Team in the National Tournament. He was also active in tennis and track.

Mr. Gardner has for the past two years been in charge of the athletic and physical training program in Pratt, Kansas, High School. He comes very highly recommended by the Superintendent of Schools there both as to his ability and as to his character. He holds the respect and admiration of the boys with whom he has been working and was re-elected at an increase in salary. He is also recommended highly by one of the graduates of 1925 of McPherson College who knows him personally and who has the interest of his Alma Mater at heart.

Mr. Gardner is represented as being an exceptional man in character, a non-user of tobacco and rough language; a clean-cut Christian man; and a perfect gentleman in victory or defeat. We quote Mr. Gardner directly from his application: "I realize that a coach should have more than mere ability. He should have charm, personality and tact, and above all he should be a Christian gentleman setting a high example to those under his care." He invites the most rigid investigation of his ability, character, and habits of living, which in itself is an indication of the real man.

Mr. Gardner has been employed for ten months, devoting one month to field work and interviewing young men who are interested in athletics with a view to help them in choosing a college where Christian ideals of life are held up and the development of Christian character is emphasized. You will like Coach Gardner!

Miss Ada Kurtz A. B. '23 and M. A. '24 from the University of Kansas will succeed Professor W. O. Mishoff as head of the History Department for the coming year. Miss Kurtz is an outstanding student of history having received the fellowship to the University of Kansas from McPherson for the year 1923-1924. Since completing her graduate work at the University she has been teaching history in the high school at Hartville, Ohio.

ALUMNI NOTES

The officers for the Alumni Association for the year 1925-26 are: R. E. Mohler, Normal '07, President; Dale Strickler, A. B. '24, Vice-president; Edith McGaffey, A. B. '18, Secretary-treasurer; R. C. Strohm, Mrs. Amanda Fabnestock, LeRoy Doty, and Margaret Wall were elected at the annual business meeting to serve on the Board of Directors for four years. G. N. Boone was elected to serve one year.

Plans are being perfected which will provide for the organization of the local units of the Alumni Association in communities where there are a number of alumni and former students. Both the Directors of the Association and the Trustees of the College are heartily supporting this movement. It is hoped that these units will be rallying points of enthusiasm for McPherson College, and that they will at the same time be helpful in keeping students of former years in touch with the work and needs of the College.

A daughter who has been named Susan Annette, was born to Paul Harnly, A. B. '15 and Iva Curtis Harnly, A. B. '23, on July 21.

The summer has brought a number of weddings that are of interest to Alumni of the College: Richard V. Keim, B. S. '25, and Minnie Edgecomb, Academy '22 were married May 29; W. E. Bishop, Academy '20 and Della May Evans, May 31; LeRoy Doty, A. B. '25, and Alta Mohler, June 1; August Rupp, B. S. '22 and Ruth Cripe, A. B. '23; June 3; Clyde Rupp, A. B. '23 and Lorinda Leatherman, A. B. '25, June 10; Ralph Y. Strohm, A. B. '22 and Lucille Royer, June 14; Robert Blough, B. S. '23, and Doris Plum A. B. '24, June 24; Emery C. Wine, A. B. '22 and Ethel Whitmer, A. B. '22, June 28; Harry H. Gilbert, B. S. '20 and Marguerite Muse, A. B. '22, July 26; Len Harden, B. S. '26 and Stella Bowman, A. B. '23, July 26; Lester Horner and Zelma Daron, Academy '21, July 26; Harlan Yoder, A. B. '24 and Fidelia Frantz, A. B. '25, July 30; Milton Dell, Academy '22 and Miriam Wenrick,

A. B. '25, August 2; Leo Warner, B. S. '25 and Rose Mohler, B. S. '25; August 3; John Mohler, B. S. '23 and Lots Neher, A. B. '24 August 5.

H. R. Stover, A. B. '22, will teach in the high school and preach in the Brethren Church at Overbrook, Kansas the coming year.

Mable Brubaker, A. B. '23, has accepted a two-year position teaching in government schools in the Philippine Islands. Miss Brubaker sailed from San Francisco, May 30.

Curtis B. Bowman, B. S. '20, has completed his medical course at Northwestern University, his year as interne at Garfield Park Hospital Chicago, and has opened an office in Chicago near Bethany Bible School. Dr. Bowman has general charge of the Bethany Hospital.

Silas A. Keim, A. B. '20, has followed a medical course similar to that of Dr. Bowman. He is practicing medicine at Wenatchee, Washington.

Rosa Cochran, A. B. '19, has secured the position of head of the English Department of the Huntington Park, California high school. Miss Cochran has been for three years a most successful teacher in the McPherson High School.

Raymond Clark, A. B. '23, will begin studying this winter toward a degree in medicine.

The Faculty, students, and friends of McPherson College were shocked to hear of the death of Carrie and Rose Stauffer of typhoid fever July 28 at their home in Polo, Illinois. Carrie, A. B. '24 and Rose, A. B. '25 had by their high ideals, loyalty, and fidelity to service won for themselves a place of high esteem among their many friends at McPherson College. The memory of their exemplary lives will long be cherished by those who learned to know them.

**TREASURER'S REPORT AND FINANCIAL STATEMENTS OF
McPHERSON COLLEGE FOR THE YEAR ENDING
JUNE 15, 1925.**

We herewith present the annual report of the treasurer for the fiscal year ending June 15, 1925.

Although a general shortage of crops has existed almost entirely throughout our territory the friends and patrons of the college have been loyal in their support. The enrollment in the college has been good and in general the pledgers to endowment and Science Hall have been prompt in remitting according to original agreement with the college. All pledges given to the college are accepted in good faith at the office and are accounted as tentative assets. Delinquency in payment is a source of embarrassment to the pledger as well as to the college and threatens her standing with the accrediting association.

It will be observed that Notes and Accounts Receivable are larger than usual resulting in a deficit in the cash account. This should emphasize the need of a more strict observance of terms of payment. Rates of tuition, board and room, are held as low as possible and necessity for prompt cash payment to meet the increasing cost of operation should be apparent to all patrons of the college.

The current operations of the past year show a surplus of \$3,365.53. Part of this has been added to Furniture and Fixtures and part to Class-room Apparatus and the balance to current assets.

The statement this year represents the entire assets of the college. In accordance with the action of the Board of Trustees the committee which was appointed to appraise the property of the institution submitted the estimates which are exhibited in connection with his report.

The cash and securities of the college have been examined and found correct by Messrs. Webb and Ferguson who were appointed by the Executive Board to audit the affairs of the college.

J. J. YODER,

Treasurer and Business Manager.

J. H. FRIES,

Assistant Treasurer and Business Manager.

To the Board of Trustees of McPherson College:

We the undersigned, certify that we have audited the books and securities of the Treasurer of McPherson College from June 1, 1924, to June 15, 1925, inclusive and found same to be correct.

AUDITORS,

Bert Webb

H. J. Ferguson

ROCKY MOUNTAIN SUMMER SCHOOL.

The Rocky Mountain Summer School at Palmer Lake, Colorado, has closed its fourth session on August 14th. This session has been characterized by a very considerable growth over previous years, the entire enrollment for the session in excess of 130.

This extension school has proved beyond question that it has a very important function to perform for the educational work of Kansas and the other states of the plains. Here the teacher may come from her work in the public schools and enjoy a real season of recreation while earning the necessary credits for rapid promotion in her profession. The surroundings are ideal for gaining an acquaintance with nature, and the outdoor courses in Nature study have always formed a prominent part of the curriculum.

The curriculum includes courses in Education, English, Modern Languages, History, Genetics, and Nature-study. In addition to the regular school work special excursions are planned for each Saturday which serve to give the student an acquaintance with the scenic parts of Colorado under the expert leadership of trained naturalists who are able to combine education with recreation.

Those who have been in attendance during the the present session as well as the students of previous years are unanimous in their enthusiasm for the unique program of this new undertaking. Its appeal is evidenced by the fact that those who have once been in attendance have repeatedly returned as long as the curriculum has met their needs.

This year the Glen Park Auditorium was used in addition to the school building both for classes and for chapel exercises. Several public programs were given among which were a lecture by Dr. Kurtz, on The Symphony of Life and one by Prof. Nininger on Meteors and Meteorites.

The school has come to be a very important factor in the community life of Palmer Lake, and its wholesome moral influence is especially appreciated by the resident population as well as the summer residents. This feeling was exhibited this season

in the unsolicited effort on the part of the business men of the city which resulted in the raising of an advertising budget of \$600 for the 1926 session.

EXPENSES AT McPHERSON COLLEGE FOR THE YEAR 1925-1926

Incidental fee, a semester.....	7.50
Board and room, a semester	100.00
Total paid in advance for the full school year	320.00
Typewriting fee, extra, a semester.....	6.00
Fee for late registration	1.00
Special Examination fee	1.00

Board and room by the week will be figured at 20 per cent above semester rates. A semester is eighteen weeks.

Because of present uncertainties we reserve the right, if necessary, to change above prices during the year.

Expenses are payable at the time of registration. Settlement is required before a student is enrolled for class work.

Holiday vacation at week rates in the dormitory.

Students compelled to withdraw on account of sickness will be charged at week rates for less than a semester and the balance will be refunded.

Students who are suspended or expelled will receive no refund.

Those who discontinue their work for other causes will be charged at week rates, and will receive a refund, provided satisfactory reasons are given for withdrawing.

When a refund is given, tuition is charged for at least one-half semester; when a semester is more than half expired, no rebate will be given for the remainder of that semester.

Text books and stationery are kept on sale at the college book store and are sold for cash only. Students should bring with them any text books that they may have on hand.

DEPARTMENT OF FINE ARTS

The Department of Fine Arts offers standard courses in Music and Art and is maintained with the express idea of offering the best in the way of aesthetic instruction. Realizing the increased importance of the above course in the college curriculum the system of credits and of work has been regulated best to agree with the requirements of the North Central Association of Colleges. All work is accredited.

Besides its relation with the college department the Music Department offers courses leading to a Teachers Certificate, which is a recognition of the student's qualifications as a teacher; Diploma, in which the student is recognized as a performer and as a general musician; and Degree, in which the student is qualified to go out as a director of music with the full assurance that the school will stand ready to offer recommendations up to the full limit of the student's power professionally.

10. Oil Painting—Study in still life, simple landscape, sketching.
11. Drawing, charcoal—Drawing from cast; study of values; drawing from still life; portrait; costume model.
12. Pastel Painting and Water Color.

THE FIELD OUTLOOK

The field work for the summer has been quite successful. As to students, it has never been better. Mr. David Brubaker and Mr. B. F. Waas of the class of '24 were both out for students again this year. Mr. Brubaker, after putting some time among the local high schools, covered the church territory

in northeast Kansas, Missouri, eastern Nebraska, and a few segregated communities. Mr. Waas worked in eastern Colorado and western Kansas. Professor Deeter was also out in student work, covering southwest Kansas, Oklahoma, and northern Texas. His summer's work was cut a little short because of the death of his father-in-law, Mr. Stump of Texas, yet he reports conditions quite favorable from the territory covered. Coach Mishler and Mr. Wagoner, the field secretary, also called on a number of students in the local high schools during the first few weeks of vacation.

The High School Senior Festival has done much to call the attention of the high school graduates of our immediate territory to McPherson College. The large number of Alumni from the college now teaching in the local high schools are also a great help in bringing the students to the college. They are our best boosters everywhere.

Professor O. G. Davis of Bethany Bible School, Chicago, assisted again this summer in financial work. The drive was completed in the local churches where it had been impossible to finish up when the main drive was made. Western Colorado and the remaining churches in eastern Colorado were covered in the summer's work. Everywhere the work of the college was met with enthusiasm. Although the results of the summer's work make it imperative that renewed energies be put forward and new plans devised if the campaign is to be completed by 1927, yet all was accomplished that could be hoped for.

Mr. Vilas Betts of the class of '26 will begin work the first of September, assisting in the finance campaign. Mr. Betts has had considerable experience in putting across sales projects and with his enthusiasm and congenial disposition should prove a valuable asset to the finance work. The plans are to push the work among the alumni and get ready for another general movement as soon as possible.
